

The Blackwell Companion to Syntax Volumes 1-5

Edited by **MARTIN EVERAERT & HENK VAN RIEMSDIJK**

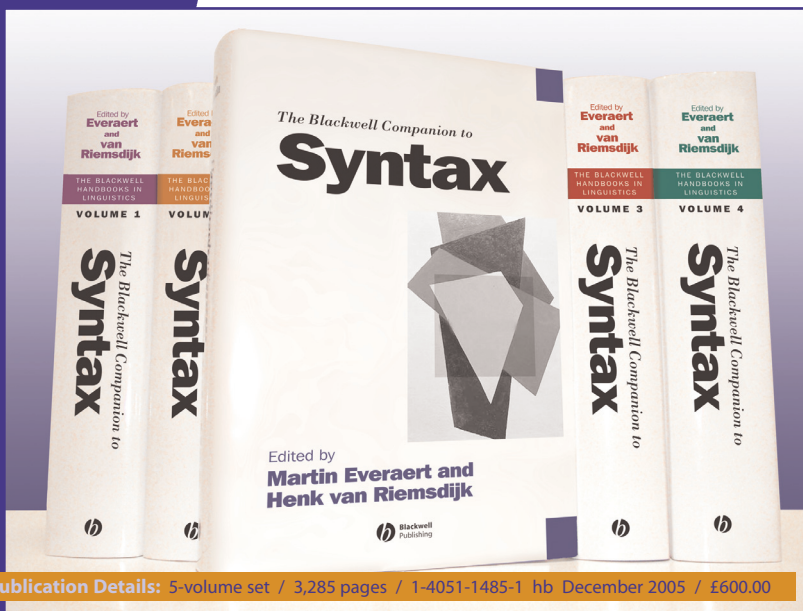

"The Syntax Companion, unique in character and designed with great skill and care, is sure to be a rich source of high quality information on critically important topics, and an invaluable research tool for the study of language."

Noam Chomsky,
Massachusetts Institute of Technology

"Looking for a topic to work on? Grab Blackwell's Syntax Companion and read some articles there. Or you may try to think of a topic not covered (if that is possible). Either way, this five volume set should be within your reach if you want to be an active researcher."

Akira Watanabe, University of Tokyo

This monumental reference work marks the culmination of numerous years of research and international collaboration by the world's leading syntacticians. There exists no other comparable collection of research that documents the development of syntax in this way. Under the editorial direction of Martin Everaert and Henk van Riemsdijk, this five-volume set gives a complete overview of the empirical facts and theoretical insights gleaned in syntactic research in recent decades.

Publication Details: 5-volume set / 3,285 pages / 1-4051-1485-1 hb December 2005 / £600.00

- **DEFINITIVE** - A unique collection of 70 newly-commissioned case studies, offering access to research completed over the last 40 years
- **INTERNATIONAL** - Brings together 80 of the world's leading syntacticians to provide a large and diverse number of case studies in the field
- **ACCESSIBLE** - Contains an accessible alphabetical structure, with an index integral to each volume featuring keywords and key figures
- **WIDE-RANGING** - Explores a comprehensive range of syntax topics from an historical perspective
- **CUTTING-EDGE** - Investigates empirical domains which have been well-documented and which have played a prominent role in theoretical syntax at some stage in the development of generative grammar
- **INTERDISCIPLINARY** - Serves as a research tool for not only theoretical linguistics but also the various forms of applied linguistics
- **MULTI-FORMAT** - The entire *Companion* is also available electronically on the accompanying CD Rom
- **RELIABLE** - Published within the prestigious *Blackwell Handbooks in Linguistics* series, this multi-volume work can be relied upon to deliver the quality and expertise with which Blackwell Publishing's linguistics list is associated.

the definitive reference work in syntactic theory

“The Syntax Companion provides a comprehensive overview of the progress and achievements made in syntax over the last 35 years. A galaxy of international stars under the leadership of two distinguished linguists, Henk van Riemsdijk and Martin Everaert, has constructed an unparalleled and monumental survey of empirical facts and theoretical insights covering the entire field. Whether you are interested in parasitic gaps, Icelandic logophors, or quantifier scope ambiguity, you will find here the essential background to your own contribution. This is a major achievement and the Companion will rapidly become essential reading for all serious linguists.”

Neil Smith, University College London

editorial information

Editors **Martin Everaert** and **Henk van Riemsdijk** have brought together the world's leading syntacticians to realise this monumental resource.

MARTIN EVERAERT is Managing Director of the Utrecht Institute of Linguistics and the Netherlands Graduate School in Linguistics at Utrecht University.

His books include *Lexical Specification and Lexical Insertion* (co-editor; 2000), *Morphology and Modularity* (co-editor; M. Trommelen, R. Huybregt, 1988), and *The Syntax of Reflexivization* (1986). He is on the Editorial Boards of *Linguistic Inquiry* and the *Journal of Comparative Germanic Linguistics*.

HENK VAN RIEMSDIJK is Professor of Linguistics in the Department of Language and Literature, Tilburg University.

His books include *The Content of Function Words and the Function of Content Words* (co-editor; Mouton de Gruyter, forthcoming), *Rightward Movement* (co-editor; 1997), *Left Dislocation* (co-editor; 1997), and *Studies on Scrambling* (co-editor; 1994). He is on the Advisory Board of *Linguistics*, and is a Consulting Editor for *The Linguistic Review*.
