Acceptance criteria

Only manuscripts not currently under consideration by another journal or other publisher will be considered. *Accounting Forum* is a vehicle for scholastic papers of high quality which have the potential to advance the knowledge of theory and practice in all areas of accounting, business finance and associated areas. The work which is published should be of interest to a wide range of people who are conversant with accounting, including practitioners, scholars and students

Accounting Forum is particularly concerned that papers are accessible by non-experts. Prospective authors should take care to ensure that manuscripts are understandable by readers who may not be versed in theory and research methodology.

Papers should be as concise as possible, subject to the requirements for clarity of exposition. Papers should not exceed 5000 words unless it is considered that greater length is necessary for adequate coverage of the topic.

Following an initial review to determine suitability, papers will be referred for two or more blind reviews. Authors will be provided with a copy of the referees' comments. In some circumstances the editors may judge that the view of additional referees should be sought to assist in the selection process.

Submission of manuscripts

Prior to submission, authors should complete an 'Author Data Sheet' giving full contact details. Copies of these are available from the editor on request.

Authors should note the following guidelines for submitting manuscripts :

1. The author must state that the work has not been submitted or published elsewhere.
2. Four print copies of each manuscript should be submitted.
3. In the case of manuscripts reporting on field surveys of experiments, two copies of the instrument (questionnaire, case, interview plan or the like) should be submitted.
4. To ensure anonymous review, authors

should not identify themselves directly or indirectly in their manuscript.

5. A cover page should show the title of the paper, the author's name, position and affiliation, and provide an address to which one complimentary copy of *Accounting Forum* can be posted.
6. On acceptance the author should supply the manuscript on disk using Microsoft Word 6 for PC.

Abstract

An abstract not exceeding 100 words must be included.

Biography

Authors should prepare a short position description which includes position, affiliation, postal and e-mail addresses and phone and fax numbers.

References

Authors should use the author-date style for text references.

A list of references is required, containing only cited references, in alphabetical order by author. This should include the author's name, initials, year of publication in round brackets, the place of publication and publisher. For journal articles, the periodic title, volume number, month of issue and page numbers are required.

Footnotes

Footnotes must not be used for citing references. They should be used only for useful extensions and excursions of information in the body of the text. Footnotes should be numbered consecutively with superscript numerals.
