MANY THANKS TO BIOETHICS REVIEWERS

Bioethics would like to take this opportunity to thank all of our board members, who kindly agree to referee up to four manuscripts per year.

Bioethics would also like to thank the following individuals who have most generously agreed to referee manuscripts for us over the past two years. While every effort has been made to include everyone, we apologize for any oversights – please do let us know if we’ve missed you so that we may update our records.

The assistance and expertise of these professionals promotes and maintains the high quality of the journal’s content, making us a leading publication in the field.
