

INSTRUCTIONS FOR AUTHORS

Note to NIH Grantees

Pursuant to NIH mandate, Wiley-Blackwell will post the accepted version of contributions authored by NIH grant-holders to PubMed Central upon acceptance. This accepted version will be made publicly available 12 months after publication. For further information, see www.wiley.com/go/nihmandate.

Echocardiography: A Journal of Cardiovascular Ultrasound and Allied Techniques publishes peer-reviewed articles dealing with all aspects of cardiovascular ultrasound and allied techniques.

Editorial communications should be addressed to: Navin C. Nanda, M.D., University of Alabama at Birmingham, Heart Station, SW-S102, 619 19th Street South, Birmingham AL 35249-6846. Phone number: (205) 934-8256; Fax number: (205) 934-6747; E-mail: cchapman@uabmc.edu.

Manuscripts submitted to *Echocardiography: A Journal of Cardiovascular Ultrasound and Allied Techniques* must not be under simultaneous consideration by any other publication and should not have been published elsewhere in substantially similar form in any language. No part of a paper including illustrations that have been published by *Echocardiography: A Journal of Cardiovascular Ultrasound and Allied Techniques* may be reproduced or published elsewhere without the written permission of the author(s) and the publisher.

Authors will be required to assign copyright in their papers. Copyright assignment is a condition of publication and papers will not be passed to the publisher for production unless copyright has been assigned. Please see "Instructions and Forms" at <http://mc.manuscriptcentral.com/echo> for the appropriate copyright form.

Indexed/Abstracted In

Adonis, CINAHL, Current Contents/Clinical Medicine, EMBASE/Excerpta Medica, Index Medicus/MEDLINE, INSPEC, ISI Alerting Services, Reference Update, Science Citation Index Expanded, CAB Abstracts, Global Health, EBSCO

Disclaimer

The author(s) are responsible for all material presented in a paper. The journal disclaims all responsibility for such material. No product or service advertised in this publication is guaranteed or warranted either by the editors or the publisher. Neither the editors nor publisher guarantee any claims made by a manufacturer or an author in regard to a product or service. If a trademark item is named, the name(s) and address(es) of the manufacturer(s) or supplier(s), in addition to the generic product name, should be supplied.

Online Manuscript Submission

Authors with internet connections should submit manuscripts, including figures and tables, to the ECHO submission website, <http://mc.manuscriptcentral.com/echo>. Loading instructions are given at this site. For assistance, please contact ScholarOne Manuscripts technical support at 434-817-2040, ext. 167 or email support@scholarone.com. If you are not able to submit online, please contact the Editorial Office for instructions.

Manuscripts

All manuscripts should include: Title Page, Abstract (not required for Echo Rounds; only Mini Abstract for Images), and Keywords to be chosen from the list provided in the online submission process to be placed at the end of the abstract. Additional keywords may be submitted to the Editor-in-Chief for consideration. Mini Abstract is required for both Case Reports and Images.

Categories

All Case Reports and Images are now e-online only. All manuscripts published as e-only are formally published, citable and can be listed on PubMed. There is no charge for color figures published e-online only.

Original Investigations. These should be of reasonable length and include new information which would be of interest to the medical community. Only those manuscripts meeting these criteria are forwarded to reviewers for peer review.

Case Reports. Mini Abstract required; maximum of 100 words. The text is limited to three (3) typed double spaced pages. This excludes the Title Page, abstract, references (maximum of 10), illustrations (maximum 6 per page), and figure legends.

Images. Mini Abstract required; maximum of 100 words. The text is limited to 1 typed, double-spaced page (excluding Title Page, a maximum of 4 references, 4 illustrations and figure legends).

Echo Rounds. These are geared toward teaching and the manuscript should be of reasonable length. The format of the manuscript text could be a brief clinical presentation followed by discussion, references, figure legends, and figures, clearly illustrating a teaching point.

Review Articles. These should be of reasonable length and focus on subjects of interest to the readers.

Editorials. While the Editor normally invites editorials, unsolicited editorials will be considered for publication. Reviewers are encouraged to write editorials on any manuscript they may have recently reviewed.

Letters to the Editor. The Journal will consider for publication letters sent to the Editor pertaining to an article published in *Echocardiography*. The letter should be no more than 500 words and no figures or tables should be included. The author(s) of the article cited in the letter will be invited to reply and both letters will be published in the same issue.

Manuscript Preparation Instructions

Manuscripts must be submitted as a WORD document in English in the following format: Typed double-spaced, page size 22 cm. x 29 cm. (8 1/2 in. x 11 in.), page margins 2.54 cm (1 in), font size 11 or 12 pt. All material should be submitted in a run-in style (do not use double columns). All print commands (e.g., superscript, subscript, italics) should be included. Tables may be included in the WORD document or submitted as separate files. Figures are not to be included in the WORD document; see instructions for figure submission. Page numbering begins on the Title Page and should include the senior author's surname and page number typed in the upper, right hand corner.

An excellent reference is A SPECIAL REPORT: UNIFORM REQUIREMENTS FOR MANUSCRIPTS SUBMITTED TO BIOMEDICAL JOURNALS. *N Engl J Med* 1997; 3336:309-315 and *Ann Intern Med* 1997; 126:36-47. Where uniform requirements differ; the Echocardiography instructions prevail. The AMA Style Manual is a useful reference. The manuscript document should be submitted in the following order:

Title Page

Title of manuscript limited to 50 words, names and highest academic degree of each author, affiliation(s) of each author and name, address, fax number, and email address of corresponding author. Include a running head [shortened title] limited to 50 characters. At the bottom of the page, include information about grants if applicable. If two or more authors contributed equally to the manuscript, their names should precede the names of the other co-authors and a note placed on the title page specifying this. Upon publication, a footnote will be added at the bottom of the first page indicating "These authors contributed equally to this work."

Abstract

—Original Investigations, Review Articles, and Echo Rounds limited to 250 words

—Case Report - Mini Abstract and full length Abstract both limited to 100 words are required.

—Image Section - Mini Abstract required limited to 100 words

Keywords

Provide a maximum of 6 keywords/phrases suitable for indexing and place after the Abstract. For the Image Section, place keywords on Title Page.

Text

—The text should begin on a new page

—Metric, SI units, and Celsius measurements should be used throughout.

—Abbreviations should be explained when they first appear in the text.

—References should be cited in *numerical* order, as should tables and figures.

—Personal Communications (written) may be used as references; unpublished data may not be used.

References

—References should begin on a new page

—Number in the order in which they appear in the text.

—Abbreviate titles of periodicals according to the style of the Index Medicus.

—Follow the format (arrangement, punctuation, inclusive pages) shown below:

Periodicals

1. Sadaniantz A, Burt D, Nanda N, et al: Three-Dimensional Echocardiography of Right Heart Pathology. *Echocardiography* 1998;15:795–806. (if more than three authors, use "et al")

Books (edited by other than author of article)

2. Myerberg RJ, Mitrani R, Interain A, et al: Identification of Risk of Cardiac Arrest and Sudden Death in Athletes. In Estes NAM, Salem DM, Wang PJ (eds): Sudden Cardiac Death in the Athlete. Armonk, NY: Futura Publishing Co., Inc; 1999, p. 25–27.

Books (identical author and editor)

3. Kerut K, McIlwain EF, Plotnick GD: Handbook of Echo-Doppler Interpretation.

Armonk, NY: Futura Publishing Co., Inc; 1996, p. 137.

Personal Communications

4. Smith I: personal communication, December 10, 1976.

Abstracts

5. Same as periodicals and followed by "(Abstract)."

Tables

—Each Table should begin on a separate page

—Tables should supplement, but not duplicate, the text.

—Tables should be numbered consecutively in order of appearance in the text.

—Each table must be given a Roman numeral and a title, placed at the top of the page.

—Abbreviations used in the table should be footnoted and explained in the order in which they appear in the table, if they have not been used previously.

—Any material that is not self-explanatory should be footnoted as well.

Figure Legends

—Figure Legends should begin on a separate page and run consecutively.

—Be sure that legend number and figure numbers correspond.

—Identify all abbreviations used in a figure at the end of each legend in alphabetical order.

Figure Submission

Each illustration must be submitted as a separate figure file capable of being sized. The file name should be the same as the figure number. There are three preferred formats for digital artwork submission: Encapsulated PostScript (EPS), Portable Document Format (PDF), and Tagged Image Format (TIFF). We suggest that **line art** be saved as EPS files. Alternately, these may be saved as PDF files at 600 dots per inch (dpi) or better at final size. **Tone art**, or photographic images, should be saved as TIFF files with a resolution of 300 dpi at final size. For **combination figures**, or artwork that contains both photographs and labeling, we recommend saving figures as EPS files, or as PDF files with a resolution of 600 dpi or better at final size. More detailed information on the submission of electronic artwork can be found at <http://authorservices.wiley.com/bauthor/illustration.asp>

Each illustration (echo or other images, graphs, etc.) is expected to be printed no larger than 1/6 of the size of a Journal page so that, if necessary, up to a maximum total of 6 such illustrations (each to fit 1 column in width) can be accommodated in one *Echocardiography* Journal page. The Editor and the Production Department at Wiley-Blackwell Publishing reserve the right to enlarge any illustration, if space permits. Photographs in which a patient or other person is identifiable must have written permission from that person. The consent must state specifically what the person is consenting to and what restrictions, if any, the person has placed upon the publication of the photograph. All restrictions must be strictly observed.

Author costs

Color illustrations. Cost for color illustrations must be made paid by the author(s) at a cost of \$375 per page. A maximum of 6 illustrations can be printed on 1 page. If the author(s) are not agreeable to covering the cost, the illustrations will be printed in greyscale (black and white).

Authors will not be billed for color illustrations until the issue in which the article appears has been printed. There is no charge for color figures published e-online only in Case Reports and Images. Note any figure limitations under Categories.

In the event that an author is not able to cover the costs of reproducing color figures in color in the printed version of the journal, *Echocardiography* offers authors the opportunity to reproduce color figures in color for free in the online version of the article (but they will still appear in black and white in the print version).

Reprints. Price list is sent with author proofs.

Revised Manuscripts

Revisions must be submitted within 180 days of the decision letter. If the revision is received after this time period, it will be considered "de novo." Submit revised manuscripts through the *Echocardiography* online sub-mission site at <http://mc.manuscriptcentral.com/echo>. Log in to your account and enter your Author Center where you will find the manuscript title listed under "Manuscripts with Decisions." Under "Actions," click on "Create a Revision" and continue the submission process. The manuscript number will be appended to denote a revision.

Accepted Manuscripts**Video (movie) Clips**

Authors are encouraged to submit video clips. Video clips should be downloaded as the last file(s) at the time of manuscript submission and marked as supplementary material. Submit as MPG/MPEG or AVI and clips must be created with commonly-used codecs, and the codec used should be noted in the supplementary material legend. Video files should be tested for playback before submission, preferably on computers not used for its creation, to check for any compatibility issues. Wiley-Blackwell will not host codec files, or be responsible for supporting video supplementary material where the codec used is non-standard. The video clip file name(s) should refer to the corresponding Figure number and must be supplied with a legend at the end of the References as follows:

Supporting Information: Additional Supporting Information may be found in the online version of this article - Movie Clips: Indicate the Figure number(s). Codec used should be noted in the Supporting Information legend.

File Sizes

Individual file sizes are restricted to 5Mb maximum. Files over 5Mb will be rejected outright unless special arrangements have been made with the *Echocardiography* Journal and approved prior to submission. Authors will find additional information online at <http://authorservices.wiley.com/bauthor/suppmat.asp>

Author Services

Author Services enables authors to track their article, once it has been accepted, through the production process to publication online and in print. Authors can check the status of their articles online and choose to receive automated e-mails at key stages of production so they do not need to contact the production editor to check on progress. Visit <http://authorservices.wiley.com/bauthor/> for more details on the online production tracking.

Author Editing Services

Authors for whom English is a second language may choose to have their manuscript professionally edited before submission or during the review process. Authors wishing to pursue a professional English-language editing service should make contact and arrange payment with the editing service of their choice. For more details regarding the recommended services, please refer to http://authorservices.wiley.com/bauthor/english_language.asp
