

# INTERNATIONAL JOURNAL OF SOCIAL WELFARE

## Author checklist

Kindly use the following checklist when submitting manuscripts to the *International Journal of Social Welfare* (IJSW), via our online submission system ScholarOne Manuscripts. If you have difficulty using the online system for submitting your manuscript, please don't hesitate to contact the Editorial Office.

We have standardised the format of incoming manuscripts, not to stifle author creativity – which is better directed toward formulating the text – but rather to simplify the work of our referees and, for accepted articles, that of the copyeditor and typesetters.

Upon submission, please include a cover letter stating that the work has not been published before, is not being considered for publication elsewhere and has been read and approved by any and all co-authors. Should the manuscript be accepted for publication in the Journal, authors are required to agree to the copyright terms as outlined in the IJSW Author Guidelines. The author is responsible for all statements contained in the article, including changes made by the copy editor, which must be reviewed in proof.

### *Length*

- Abstract, maximum 150 words.
- Main document, maximum 6000 words including footnotes, excluding the Abstract, tables/figures and references.

### *Language*

- Correct English that meets the requirement of effective scientific communication. Manuscripts that do not meet this requirement will be returned to the author for professional language editing. A list of independent language editing services can be found at: [http://authorservices.wiley.com/bauthor/english\\_language.asp](http://authorservices.wiley.com/bauthor/english_language.asp)
- Contributions from the United States and Canada may use American punctuation and spelling (organization, analyze, labor, etc). Contributions from all other countries use British punctuation and spelling (organisation, analyse, labour etc.)
- For words that have optional spelling (world-view/worldview, child care/ childcare, well-being/wellbeing etc.), choose one and use it consistently throughout the document.

### *Author anonymity*

- To ensure anonymous peer review, the names of the authors are not to appear anywhere in the main document or in the tables/figures. When the document is open, check that your name does not appear under Properties. Click on File/Arkiv, click on Properties/Egenskaper, click on General/Allmänt and delete the name that appears there. It is the name of the person to whom the Word programme is registered.
- Information on the authors is to appear in an own document and uploaded separately in Manuscript Central as Title page. See below under the format checklist.
- Citing own work: replace references to the submitting author's own work by the word 'Author' followed by the year of publication. Use the same notation in the reference list and place it at the head of the list. Do not include the title(s) of the work(s) in question. Instead, submit them in a separate document and save it on your computer. You can also upload this list in Manuscript Central as a 'Supplementary files not for review'.

### ***Standard format for the main document***

- Size A-4 A4 (210x297 mm) or United States letter size (8.5x11 inches) with 2.5 cm margins all around. Avoid footnotes and appendices.
- Use Times New Roman typeface with a 12 pitch font (12 characters per inch) for the body of the text and the tables. Figures are to be in Camera Ready Copy using an optional typeface that is clear and easy to read.
- Submit the Title page as a separate file containing the title of the article, names of the authors and their institutional affiliations, key words, a short running title and the name and complete mailing address (including post code) and phone and fax numbers of the author responsible for correspondence.
- Use only three levels of headings: Level 1, 14 pt, bold, lower case except for first letter in the first word: Level 2, 12 pt, bold/italics, lower case as above; Level 3, 12 pt italics, lower case as above.
- Indent all paragraphs except the first one under a heading; right-hand margin is unjustified; no extra space between paragraphs.
- Tables/figures are to be submitted as a separate file with self-explanatory legends. Indicate the approximate location for tables and figures in the text, e.g. Table 1 to feature here. Centring this information in bold makes it easier to spot it in the text. Figures are to be submitted as Camera Ready Copy, i.e. ready for printing.
- Cited references for the work of other authors should have the format: Compton & Galaway, 1990. If more than one article by the same author(s) in the same year is cited, use the letters a, b, etc. after the year. For articles by more than two authors, name all the authors at first mention and then use the first author plus et al. for additional mentions. For articles by more than four authors, use the first author's name plus et al. When several authors are cited at the same time, list them in alphabetical order (not chronologically).
- Reference list: all references cited in the text – and only those – are to be listed at the end in alphabetical order by surname. References by the same authors are to be in chronological order with most recent last. Check that the text citations correspond exactly with the reference list. Give journal and book titles in full. If non-English references are included, translate the title of the book or article. For example: Plovsing J, Jörgensen W (1979). *Byfornyelse på Nørrebro* [Urban renewal in Nørrebro]. Copenhagen, National Institute for Social Research (Publication No. 90).  
  
Format for authored book: Compton BR, Galaway B (1979). *Social work processes* (2nd edn). Homewood, IL, Dorsey Press.  
  
Format for chapter in an authored book: Maluccio AN (1985). Education and training for child welfare practice. In: Laird J, Hartmann A, eds. *A handbook of child welfare*, pp. 5–15. New York, Free Press.  
  
Format for journal article: Midgley J (2001). The United States: welfare, work and development. *International Journal of Social Welfare* 10(4): 284–293.
- Proofs are to be returned by airmail, fax, or email attachment using 'sticky notes' to mark the PDF copy. The author must pay the cost of major alterations in the proofs against the manuscript.

Good luck with your article submission.
