

Science, Technology and Medicine **Journals**

The 420+ Science, Technology and Medicine journals from Blackwell Publishing cover a broad range of core scientific disciplines and therapy areas, including many leading titles at the forefront of their fields. Two-thirds of the journals are published in partnership with scholarly and professional societies with international memberships.

"You really are very quick. Many other publishers could learn a great deal from Blackwell!"

Librarian, UKB,
The Netherlands

Highly-cited research articles from top-flight authors are routinely published in the journals. Ten of these titles are ranked number 1 in their discipline in the 2004 ISI Science Citation Index. More than a fifth of all the ISI-cited articles in dermatology, crystallography, allergy, evolutionary biology, nursing, fisheries, andrology, ecology, dentistry, ornithology, and gerontology appear in Blackwell Publishing journals.
