

Acta Paediatrica Young Investigator Award

In 2006, the Foundation Acta Paediatrica decided to establish the *Young Investigator Award* aiming at rewarding two articles published in the journal during the year by a young investigator under the age of 40 – one award for the best article of international origin, and the second for an article from a young member of the Swedish Paediatric Society. The Awardees will each receive a price sum of Euro 2 000.-

The prerequisites to applying for the *Acta Paediatrica Young Investigator Award* are: applicants should be under the age of 40 years, and should have published an article in Acta Paediatrica during the year.

You may also suggest a colleague, who has published an article in Acta Paediatrica during the year. Please motivate why you think your colleague is worthy of the award. Proposals for candidates to the *Young Investigator Award* can preferably be sent by the chairperson of the candidate. Please send your application to mail@actapaediatrica.se for att.: the Editor-in-Chief. *Deadline for the application is : January 1st each year.*
