## The Philosopher's Toolkit

A Compendium of Philosophical Concepts and Methods

**JULIAN BAGGINI & PETER S. FOSSL**

*The Philosopher's Magazine; Pennsylvania University*

**THE PHILOSOPHER'S TOOLKIT** provides all the intellectual equipment necessary to engage with and participate in philosophical argument, reading and reflection. Each of its 87 entries explains how to use an important concept or argumentative technique accurately and effectively.

2002 - 232 PAGES  
0-631-22874-8 (ISBN13: 978-0-631-22874-5) PB

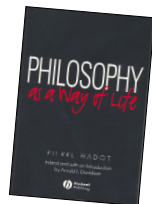

See page 39 for *The Ethics Toolkit*

## Philosophy as a Way of Life

Spiritual Exercises from Socrates to Foucault

**PIERRE HADOT**

*Collège de France*

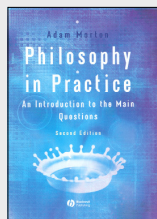

**Edited and introduced by ARNOLD I. DAVIDSON**

*Late of University of Chicago*

*"Hadot's essays exhibit impressive scholarship and a habit of profound reflection. This is not a book for the casual reader but it is an important publication and should be a required text for every student of philosophy, classics and the history of ideas, and for any serious teacher of these subjects."* THE TABLET

1995 - 320 PAGES  
0-631-18033-8 (ISBN13: 978-0-631-18033-3) PB

**KEY TEXTBOOK**

## Philosophy in Practice

An Introduction to the Main Questions  
Second Edition

**ADAM MORTON**

*University of Alberta*

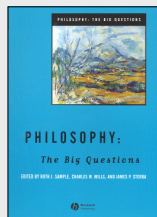

*"If you want an introductory textbook which makes it possible to teach philosophy as a verb to undergraduates, one that makes possible real conversation with beginners, this is it."* MICHAEL SILBERSTEIN, ELIZABETHTOWN COLLEGE

**PHILOSOPHY IN PRACTICE** focuses on philosophy as an activity, rather than a doctrine. At its heart is a stimulating sequence of exercises, activities, and examples that lead the student directly into philosophical thinking and arguing.

A companion website includes an online teacher's guide with resources for students, suggestions for teaching with the book, plus tests and essay topics: [www.blackwellpublishing.com/pip](http://www.blackwellpublishing.com/pip)

## Philosophy

The Big Questions

**Edited by RUTH J. SAMPLE, CHARLES MILLS & JAMES P. STERBA**

*University of New Hampshire; University of Illinois at Chicago; University of Notre Dame*

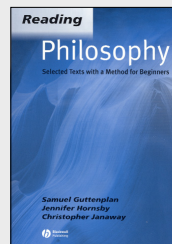

*"An extraordinarily rich and refreshing collection of essays."*

LAURENCE THOMAS, SYRACUSE UNIVERSITY

Designed for a single-semester introductory course in philosophy, **PHILOSOPHY: THE BIG QUESTIONS** includes both classic readings in philosophy and newer articles. The text is organized around central problems in philosophy and the diverse approaches that philosophers have taken toward those problems.

## Reading Philosophy

Selected Texts with a Method for Beginners

**SAMUEL GUTTENPLAN, JENNIFER HORNSBY & CHRISTOPHER JANAWAY**

*Birkbeck College, London; Birkbeck College, London; University of Southampton*

*"Too often, introductory textbooks are comprehensive at the cost of serious attention to important specifics. This book helps the introductory student get down to the careful work of doing philosophy."*

DAVID SOSA, UNIVERSITY OF TEXAS AT AUSTIN

This innovative textbook:

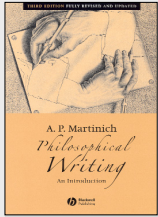

- ☑ Brings together eighteen key philosophical texts
- ☑ Covers nine philosophical topics: Doubt; Self; Tragedy; Equality; Dilemma; Identity; Freedom; Causality; Qualities
- ☑ Includes writings by Descartes, Boyle, Locke, Berkeley, Hume, Schopenhauer and J. S. Mill, as well as eight written by philosophers in the late twentieth century.

Each chapter contains an introduction to the problem, introductions to the texts and their authors, and interactive commentaries on the texts.

## KEY TEXTBOOK

## Philosophical Writing

An Introduction  
Third Edition

A. P. MARTINICH  
University of Texas, Austin

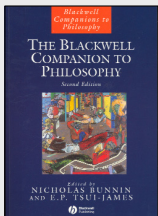

*"No teacher of undergraduates in philosophy should be without it."* MICHAEL MORGAN, INDIANA UNIVERSITY

This updated edition of A. P. Martinich's best-selling guide to successful philosophical thinking and writing includes:

- ☑ New examples of the structures of a philosophical essay
- ☑ New examples of rough drafts
- ☑ Tips on how to study for a test
- ☑ A new section on how to utilize the internet effectively.

## KEY TEXTBOOK

## The Blackwell Companion to Philosophy

Second Edition

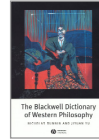

Edited by NICHOLAS BUNNIN  
& E. P. TSUI-JAMES  
University of Oxford; University of Cambridge

This COMPANION offers a comprehensive and authoritative exploration of the issues, controversies and problems that arise from the study of philosophy. The volume functions primarily as a flexible and distinctive introductory textbook, but even advanced students will welcome its stimulating and accessible chapters and the guidance provided by cross-references, glossary entries, boxed highlights, bibliographies, discussion questions, and further reading.

FORTHCOMING NEW SERIES

## Philosophy and Popular Culture

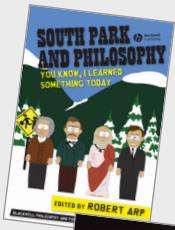

Series Editor: **WILLIAM IRWIN**  
King's College, Pennsylvania

A spoonful of sugar helps the medicine go down, and a healthy helping of popular culture clears the cobwebs from Kant. Philosophy has had a bad public relations problem for a few centuries now. This series aims to change that, showing that philosophy is relevant to your life - and not just for answering the big questions like 'To be or not to be?' but for answering the little questions, 'To watch or not to watch *South Park*?' Thinking deeply about TV, movies, and music doesn't make you a 'dummy' or a 'complete idiot.' In fact it might make you a philosopher, someone who believes the unexamined life is not worth living and the unexamined cartoon is not worth watching.

## Like a Splinter in Your Mind

The Philosophy behind the Matrix Trilogy

**MATT LAWRENCE**  
Long Beach City College

*"Lawrence has done a remarkable job of isolating the salient issues and examining them systematically, one by one, chapter by chapter, in a colloquial, witty style."*

THE BOSTON PHOENIX

Matt Lawrence brings a philosopher's insight to all three of the *Matrix* films, giving us a better appreciation of the trilogy, and a solid grasp of key issues in metaphysics, epistemology, ethics, philosophy of mind, race and gender, existentialism, Taoism and mysticism.

## 10 Good Questions about Life and Death

**CHRISTOPHER BELSHAW**  
Open University

*"No one who reads this book could doubt that philosophy is still vitally relevant."*

JULIAN BAGGINI, THE PHILOSOPHERS' MAGAZINE

- ☑ What matters?
- ☑ Does life have meaning?
- ☑ Is life sacred?
- ☑ Is it bad to die?
- ☑ And can God and religion help?

**10 GOOD QUESTIONS ABOUT LIFE AND DEATH** makes us think again about some of the most important issues we ever have to face.

## Rhetoric

An Historical Introduction

WENDY OLMSTED

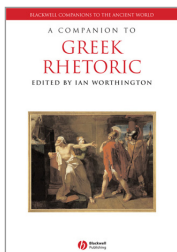

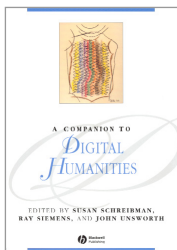

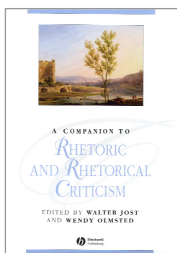

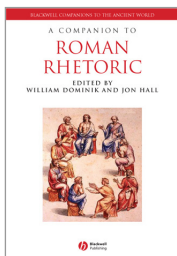

University of Chicago

This introduction to the art of rhetoric:

- ☑ Provides an intellectual framework for understanding the history and conceptual foundations of rhetoric
- ☑ Gives a strong sense of the ways classic rhetorical texts continue to influence us by providing contexts and resources for contemporary debates.

The texts, which range from Aristotle's *Rhetoric* to Edward H. Levi's *An Introduction to Legal Reasoning* and Danielle S. Allen's *Talking to Strangers* serve simultaneously as models of persuasion and as thoughtful considerations of how rhetoric works.

## An Illustrated Brief History of Western Philosophy

Second Edition

ANTHONY KENNY

University of Oxford

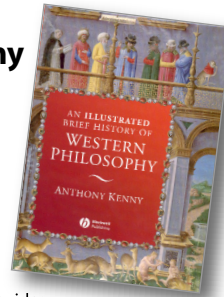

*"A richly detailed, critical look at philosophy, displaying both Kenny's love for philosophical engagement and for good history."*

REVIEW OF METAPHYSICS [OF THE PREVIOUS EDITION]

Spanning 2,500 years of thought, **AN ILLUSTRATED BRIEF HISTORY OF WESTERN PHILOSOPHY** provides essential coverage of the most influential philosophers of the Western world.

Now replete with over 60 illustrations - ranging from Dufresnoy's *The Death of Socrates*, through to the title page of Thomas More's *Utopia*, portraits of Hobbes and Rousseau, photographs of Charles Darwin and Bertrand Russell, Freud's own sketch of the Ego and the Id, and Wittgenstein's Austrian military identity card - this lucid and masterful work is ideal for anyone with an interest in Western thought.

JULY 2006 - 400 PAGES - 1-4051-4180-8 [ISBN13: 978-1-4051-4180-2] HB - 1-4051-4179-4 [ISBN13: 978-1-4051-4179-6] PB

## A Brief History of Happiness

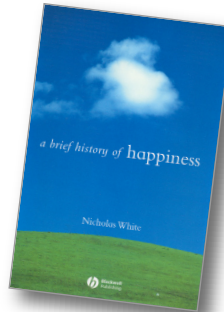

NICHOLAS WHITE

University of California, Irvine

- ☑ Do we really know what happiness is?
- ☑ Should happiness play such a dominant role in shaping and orienting our lives?
- ☑ And how can we deal with conflicts between the various things that make us happy?

In this **BRIEF HISTORY** philosopher Nicholas White considers the ways in which major thinkers from antiquity to the present day have treated happiness, relating questions about happiness to central concerns in ethics and practical philosophy throughout.

2005 - 208 PAGES - 1-4051-1519-X [ISBN13: 978-1-4051-1519-3] HB - 1-4051-1520-3 [ISBN13: 978-1-4051-1520-9] PB

## The Classics of Western Philosophy

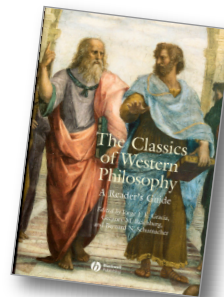

A Reader's Guide

Edited by **JORGE J. E. GRACIA, GREGORY M. REICHBERG & BERNARD N. SCHUMACHER**

State University of New York, Buffalo; International Peace Research Institute, Oslo; University of Fribourg

*"This impressive collection of essays - many by some of the best-known philosophers writing today - provides a unique and first-rate introduction to Western philosophy from the time of the Pre-Socratics to the second half of the twentieth century."*

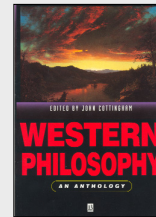

BRIAN DAVIES, FORDHAM UNIVERSITY

Exam Copy Available 2002 - 632 PAGES - 0-631-23611-2 [ISBN13: 978-0-631-23611-5] PB

KEY TEXTBOOK

## Western Philosophy

An Anthology

Edited by **JOHN COTTINGHAM**

University of Reading

*"By providing the means to appreciate philosophy as the great historical odyssey of the human intellect, this ambitious anthology makes philosophy come alive for students and teachers alike."*

DAVID COOPER, UNIVERSITY OF DURHAM

From ancient Greece to the leading philosophers of today, **WESTERN PHILOSOPHY: AN ANTHOLOGY**:

- ☑ Provides the most comprehensive and authoritative survey of the Western philosophical tradition
- ☑ Brings together 100 substantial and carefully chosen extracts
- ☑ Covers all the main branches of philosophy - theory of knowledge and metaphysics, philosophy of mind, religion and science, moral philosophy (theoretical and applied), political theory and aesthetics.

Chronologically and thematically arranged, the readings are introduced and linked together by a lucid philosophical commentary which guides the reader through the key arguments.

## An Introduction to Hegel

Freedom, Truth and History

Second Edition

**STEPHEN HOULGATE**

*University of Warwick*

*"With the addition of five new chapters Houlgate's book becomes, hands down, the best introduction to Hegel's philosophy available."*

J. M. BERNSTEIN, NEW SCHOOL FOR SOCIAL RESEARCH

For the second edition of this classic introduction to Hegel, five completely new chapters have been added; two on both the *Phenomenology* and the *Philosophy of Nature*, and one on the *Philosophy of Subjective Spirit*. In the course of the book, the author relates Hegel's ideas to those of many other thinkers, including Luther, Descartes, Kant, Newton and Thomas Kuhn. He clearly shows that Hegel's is a viable philosophical enterprise with important theories to contribute to a number of modern debates.

## A Companion to Western Historical Thought

Edited by LLOYD KRAMER &  
SARAH MAZA

University of North Carolina, Chapel Hill; Northwestern University

This broad survey introduces readers to the major themes, figures, traditions and theories in Western historical thought, tracing its evolution from biblical times to the present.

The volume comprises 24 chapters by leading historians who discuss conceptions of and approaches to the human past in the ancient, medieval, early modern and modern West, stressing the long-term patterns and traditions in historical thinking that survive to this day.

## In Kant's Wake

Philosophy in the Twentieth Century

TOM ROCKMORE

Duquesne University, Pittsburgh

*"In Kant's Wake makes a substantial contribution to our understanding of the intellectual currents of the last century as it inspires us to think about the future of Western philosophy."*

MITCHELL ABOULAFIA,  
PENNSYLVANIA STATE UNIVERSITY

From the vantage point of a new century, twentieth-century philosophy in the Western world can be grouped according to four main trends: Marxism, Anglo-American analytic philosophy, American pragmatism, and continental philosophy. Rockmore evaluates the different strands of these discussions and analyzes their origins, arguing that they all evolved in reaction to Kant's fascinating and demanding philosophy.

Intended for readers with little background in philosophy, this volume provides a sense of the main thinkers and problems, and of the nature of the debates in a tumultuous time.

## Kant's Critique of Pure Reason

An Orientation to the Central Theme

ANTHONY SAVILE

Kings College, London

*"A careful, sympathetic, and concise interpretation of transcendental idealism which students at all levels will find both instructive and enjoyable to read."*

GRAHAM BIRD, MANCHESTER UNIVERSITY

This searching orientation to Kant's *Critique of Pure Reason*:

- Presents the central theme, the development of his Transcendental Idealism, as a response to perceived weaknesses in his predecessors' accounts of experiential knowledge
- Offers lucid new readings of the central arguments in both the *Transcendental Aesthetic* and the *Transcendental Analytic*
- Clarifies the fundamental systematic components of Kant's vision
- Appraises the success and the failure of Kant's overall critical project
- Shows how, for all its merits and despite Kant's departure from previous ways of thinking, he was still unhappily in thrall to some of their key assumptions, and how this ultimately wrecked his attempts to institute a 'Copernican Revolution'.

### Ancient Philosophy

Essential Readings with Commentary

**Edited by NICHOLAS SMITH with  
FRITZ ALLHOFF & ANAND JAYPRAKASH VAIDYA**

*Lewis & Clark College; Western Michigan University; San José State University*

The progression of philosophy in ancient Greece spans an extensive and complex period in history. Between 600 BCE and 600 CE the foundations of philosophy as we know it were laid, establishing the central areas of philosophical concern, and creating an agenda for future study and debate.

This thorough introduction to ancient Greek philosophy:

- ☑ Focuses on the key philosophers and their texts, from Pre-Socratic thinkers through to the Neo-Platonists
- ☑ Brings together the canonical writings of Thales, Xenophanes, Parmenides, Anaxagoras, Gorgias, Plato, Aristotle, Epicurus, Lucretius, Seneca, Sextus Empiricus, Plotinus, and many others
- ☑ Is broken down into eight chronological sections for easy comprehension and comparison.

The readings are accompanied by expert commentary from the editors.

### Late Modern Philosophy

Essential Readings with Commentary

**Edited by ELIZABETH S. RADCLIFFE &  
RICHARD MCCARTY with  
FRITZ ALLHOFF & ANAND JAYPRAKASH VAIDYA**

*Santa Clara University; East Carolina University; Western Michigan University; San José State University*

**LATE MODERN PHILOSOPHY** introduces the leading ideas of the late modern era, with selections from the writings of its most recognized thinkers, among them John Locke, David Hume, Gottfried Wilhelm Leibniz, Immanuel Kant, and Jean-Jacques Rousseau.

This period in history represents a turbulent time in western thought. As revealed in these carefully selected readings, the principal figures of late modern philosophy clashed over methodological issues, and adopted radically different perspectives in metaphysics and theory of knowledge. But just as importantly, they vigorously debated proofs of God's existence, the justification of political authority, and the foundations of morality.

With engaging introductory material for students, this text offers an invaluable survey of late modern philosophy.

## The Blackwell Guide to Plato's Republic

Edited by GERASIMOS SANTAS  
University of California, Irvine

THE BLACKWELL GUIDE TO PLATO'S REPUBLIC consists of thirteen new essays written by both established scholars and younger researchers with the specific aim of helping readers to understand Plato's masterwork.

This illuminating guide:

- ☑ Sheds new light on many central features and themes of the *Republic*
- ☑ Covers the literary and philosophical style of the *Republic*, Plato's theories of justice and knowledge, his educational theories, and his treatment of the divine.

STEVEN NADLER

University of Wisconsin-Madison

The **BLACKWELL GREAT MINDS** series gives readers a strong sense of the fundamental views of great western philosophers and highlights the relevance of these philosophers to the way we think and live today.

## NEW IN 2007

## Schopenhauer

ROBERT WICKS

University of Auckland

The branding of Arthur Schopenhauer as a cynic and a misanthrope often obscures the complexity and humanity that pervades his philosophy. In this innovative text, Robert Wicks breaks away from the accepted oversimplifications of Schopenhauer as an incurable pessimist, to present an insightful philosophical portrait of the philosopher's life and work.

Beginning with his early life, presenting the people and circumstances that shaped his thinking, the volume:

- ❑ Explores both Schopenhauer's theoretical and practical philosophies
- ❑ Puts the man and his work into perspective by placing his ideas within the context of their time and place
- ❑ Examines Schopenhauer's aesthetic and moral theories, his affinities with Asian mysticism and Christianity, as well as his ideas about sublimity, consciousness, empathy, humanity, and "Will"
- ❑ Focuses on the composition and structure of Schopenhauer's philosophy
- ❑ Explores his intellectual links to Nietzsche, Hegel, and contemporary thought.

## Descartes

ANDRE GOMBAY

University of Toronto

A bold and insightful departure from related texts, this examination of Descartes' life and work:

- ❑ Goes beyond the categorical associations placed on the philosopher's ideas to explore the subtleties of his beliefs
- ❑ Includes a broad range of his most scrutinized philosophical thought, including his contributions to logic, philosophy of the mind, epistemology, metaphysics, the philosophy of science, and the philosophy of religion.
- ❑ Addresses themes often left unexamined, bringing new perspectives on one of philosophy's most studied, and most influential figures.

Written in an elegant and compelling manner that echoes Descartes' own writing, Gombay presents the reader with an accessible but challenging text that offers a strong background and new insights into Descartes' life and work.

## A Companion to Ancient Philosophy

Edited by MARY GILL & PIERRE PELLEGRIN

Brown University; Centre Nationale de la Recherche Scientifique, Paris

*"An essential book... It offers something fresh and original even to those who have studied the field for a lifetime."*

ENRICO BERTI, UNIVERSITÀ DEGLI STUDI DI PADOVA

This volume of newly contributed papers on the history of ancient Greek and Roman philosophy:

- ☑ Includes contributions from both rising stars and senior scholars
- ☑ Integrates what were until recently characterized as two conflicting traditions, analytic and continental
- ☑ Treats central topics in ancient philosophy, such as the problem of sources or the practice of ancient philosophical commentary
- ☑ Explores the development of various disciplines, including mathematics, logic, grammar, physics, and medicine, in their relation to ancient philosophy
- ☑ Informs the reader of the current state of debate, whilst pushing dialogue further by expressing the authors' own views.

The volume features a lively introduction, bibliographies, chronology, maps, and two indexes, making this book an excellent resource for students and scholars alike.

## A Companion to Plato

Edited by HUGH H. BENSON

University of Oklahoma

*"A book every student of Plato will want to consult."*

RACHANA KAMTEKAR,  
 UNIVERSITY OF ARIZONA

This broad-ranging **COMPANION** comprises original contributions from some of the best Platonic scholars in the world today and reflects the various ways in which they are dealing with Plato's legacy.

The **COMPANION** is ordered on three principles:

- ☑ The contributions are devoted to topics in Platonic philosophy, ranging from perception and knowledge to politics and cosmology. This allows readers to see how a position advocated in one of Plato's dialogues compares with positions advocated in others
- ☑ Reading Plato in this way raises issues concerning the chronological order of the composition of the dialogues and Plato's philosophical development; various sides of the debate on these subjects are argued
- ☑ Topics have been selected for their philosophical rather than their historical significance.

As an aid to fuller understanding, the volume includes overviews of Plato's life, works, and philosophical method.

## A Companion to Descartes

Edited by **JANET BROUGHTON & JOHN CARRIERO**

University of California, Berkeley; University of California, Los Angeles

**A COMPANION TO DESCARTES** details in unparalleled depth the work of the seventeenth-century philosopher-scientist commonly regarded as the founder of modern philosophy.

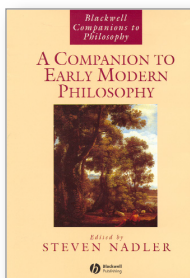

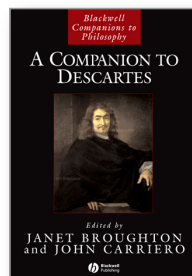

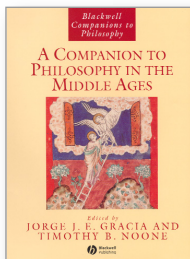

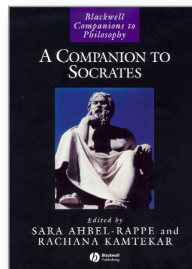

Through a series of more than 30 newly commissioned essays, this fresh and distinctive volume:

- ❑ Explores Descartes' seminal contributions to our understanding of skepticism, mind-body dualism, self-knowledge, innate ideas, substance, causality, God, and the nature of animals
- ❑ Provides a unique orientation to the intellectual, religious, and scientific contexts that were important to Descartes's work
- ❑ Discusses the impact of Descartes's work on subsequent generations of philosophers.

## A Companion to Kant

Edited by GRAHAM BIRD

University of Manchester

Written by an international cast of scholars, this authoritative survey of the whole range of Kant's work:

- ▣ Comprises a series of concise guides to key topics in Kant's philosophy.
- ▣ Gives readers an idea of the immense scope of Kant's work, its extraordinary achievement, and its continuing ability to generate philosophical interest
- ▣ Covers all aspects of Kant's philosophy and discusses all the major works of the critical philosophy, as well as the pre-critical works

Some of the essays offer lucid explanations of Kant's claims, while others take up his other contributions in issues such as history, philosophy, science, morality, aesthetics, and social-politics.

## A Companion to Nietzsche

Edited by KEITH ANSELL PEARSON

University of Warwick

*"This new addition to an excellent series assembles an inspired cast of Nietzsche scholars, representing a wide spectrum of approaches. After two helpful introductions to Nietzsche's life, philosophy, and style, the essays address the most familiar Nietzschean themes, as well as important but more neglected ones, such as his conception of science."*

## A Companion to Hume

Edited by ELIZABETH S. RADCLIFFE

Santa Clara University

David Hume's revolutionary philosophies took an empirical approach to the study of human nature. Controversial in his time, he was accused of everything from atheism to moral corruption; he has since been recognized as one of the foremost thinkers of the late modern period, influencing the thought of nearly every philosopher in his wake. This COMPANION:

- ▣ Demonstrates the range of Hume's work and illuminates the ongoing debates that it has generated
- ▣ Comprises 29 essays by leading scholars in the field
- ▣ Explores topics such as knowledge, passion, morality, religion, economics, and politics
- ▣ Includes introductions to each section to orient the reader
- ▣ Examines the paradoxes of Hume's thought and his legacy, covering the methods, themes, and consequences of his contributions to philosophy.

## A Companion to Rationalism

Edited by ALAN NELSON

University of California, Irvine

*"Essential reading for anyone interested in the many manifestations of what Nelson calls 'the rationalist impulse'."*

DON GARRETT, NEW YORK UNIVERSITY

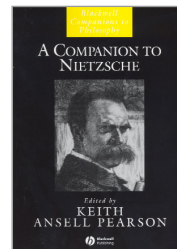

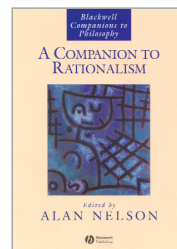

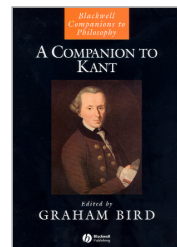

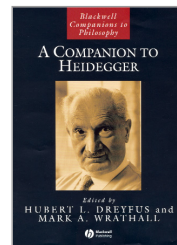

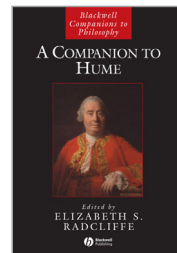

The rationalist impulse has guided Western philosophical thought from its beginnings in ancient Greece to the present day. In this COMPANION, a cast of established and rising stars in philosophy lays out the historical roots, the celebrated expressions, the controversies, and the contemporary determinations of rationalist thought.

KEY TEXTBOOK

## The Nietzsche Reader

Edited by  
**KEITH ANSELL PEARSON & DUNCAN LARGE**

University of Warwick; University of Wales, Swansea

*"Thorough yet manageable, this Reader is an excellent introduction to Nietzsche. The editors' balanced commentary is accessible to the novice while still engaging for scholars... A great contribution to Nietzsche studies."*

KATHLEEN HIGGINS,  
UNIVERSITY OF TEXAS,  
AUSTIN

This exciting new collection:

- ❑ Brings together in one volume substantial selections from Nietzsche's complete oeuvre, including some never before published in book form in English
- ❑ Contains impressive pedagogical features, including editorial sections on Nietzsche's life and importance, an introduction to his philosophical ideas, introductions to each major section of writings, and a comprehensive guide to further reading
- ❑ Generously excerpts all of Nietzsche's major texts
- ❑ Showcases selections from his lesser-known writings, including his early critique 'On Schopenhauer', 'Philosophy in the Tragic Age of the Greeks', and the seminal essay 'On Truth and Lies in a Nonmoral Sense'
- ❑ Features new translations of key pieces from Nietzsche's unpublished notebooks of the 1880s, including the first sketch of the doctrine of eternal recurrence, and the 'Lenzer Heide' text on European nihilism.

## Twentieth-century French Philosophy

Key Themes and Thinkers

**ALAN SCHRIFT**

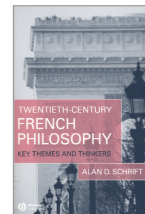

Grinnell College

*"Schrift has written a book that is a gift to both scholars and students. This volume should be a required textbook in every course in Continental philosophy. Highly recommended."*

CHOICE

To understand the evolution of recent French thought, both the philosophical debates and the figures behind them must be examined. This unique book addresses positions such as vitalism, neo-Kantianism, phenomenology, existentialism, Marxism, structuralism, and feminism, and provides concise biographies of the influential philosophers who shaped these movements, including entries on over 80 thinkers.

## Being and Time

**MARTIN HEIDEGGER**

A knowledge of Heidegger's *Sein und Zeit* is essential for anyone who wishes to understand a great deal of recent continental work in theology as well as philosophy. This translation by John Macquarrie and Edward Robinson succeeds in clothing Heidegger's thought in English without sacrificing the richness and poetic subtlety of the original.

## A Companion to Phenomenology and Existentialism

Edited by **HUBERT L. DREYFUS & MARK A. WRATHALL**

University of California, Berkeley; Brigham Young University

Comprising a series of original essays written by leading scholars, this **COMPANION** highlights the approaches, styles, and problems common to the broad range of philosophers included under the banners of phenomenology and existentialism.

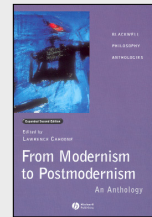

The volume features three types of entry:

- ▣ Longer essays discussing each of the main schools of thought
- ▣ Shorter essays introducing prominent themes and concepts, such as temporality, death, and nihilism
- ▣ Problem-oriented chapters discussing important phenomenological and existential approaches to the central questions that have preoccupied each of these traditions.

The essays cover both mainstream and less usual topics, such as medicine, the emotions, artificial intelligence, and environmental philosophy.

## From Modernism to Postmodernism

An Anthology

Expanded Second Edition

Edited by **LAWRENCE CAHOONE**

College of the Holy Cross

This revised and expanded second edition of Cahoon's classic anthology provides an unparalleled collection of the essential readings in modernism and postmodernism.

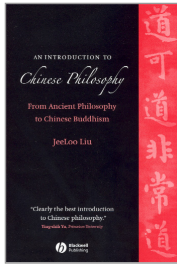

This popular volume:

- ▣ Places contemporary debate in the context of the criticism of modernity since the seventeenth century
- ▣ Is chronologically and thematically arranged
- ▣ Allows the reader to appreciate postmodernism by first understanding the development of modernity
- ▣ Represents an indispensable and multidisciplinary resource for use in philosophy, literature, cultural studies, social theory, and religious studies courses.

## An Introduction to Chinese Philosophy

From Ancient Philosophy to Chinese Buddhism

**JEELOO LIU**

California State University, Fullerton

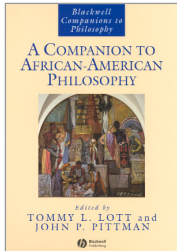

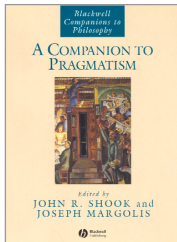

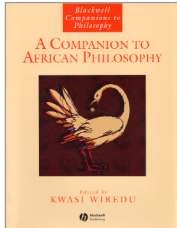

*"A wonderful introduction to Chinese philosophy."*

JOHN PERRY, STANFORD UNIVERSITY

This comprehensive yet accessible text takes an analytical approach to successfully demystify the themes of ancient Chinese philosophy and unravel the complexities of early Chinese Buddhism.

Beginning with the philosophy of Yijing, Part I covers seven additional major philosophers from the ancient period: Confucius, Mencius, Xunzi, Mozi, Laozi, Zhuangzi, and Hanfeizi. Part II introduces the reader to the four major schools in Chinese Buddhism: the Consciousness-Only, the Hua-yen, the Tian-tai, and the Chan. Mutual themes connect chapters, highlighting the continuity of thought, while an unbiased analysis helps to define their differences. Contemporary commentaries and debates on the central issues in Chinese philosophy round out the book, presenting an incisive introduction to the field.

## McDowell and His Critics

Edited by CYNTHIA MACDONALD & GRAHAM F. MACDONALD

Both Queen's University, Belfast

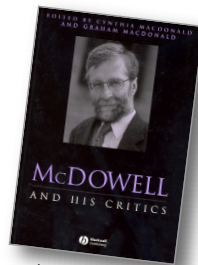

John McDowell's work has had an immense and lasting influence on philosophical thought. This volume contains newly commissioned papers by distinguished philosophers on McDowell's work, along with substantial replies to each by McDowell himself. The essays cover the full range of McDowell's seminal contributions in philosophy of mind, philosophy of language, ancient philosophy, moral philosophy, and epistemology. Together, they offer by far the most comprehensive discussion of his work currently available.

Contributors are: Akeel Bilgrami, Simon Blackburn, Jonathan Dancy, Richard G. Heck, Jr., T. H. Irwin, Cynthia Macdonald, Graham Macdonald, Philip Pettit, Carol Rovane, R. M. Sainsbury, and Michael Smith.

KEY TEXTBOOK

*"Analytic Philosophy: An Anthology is very well organized and brilliantly selected. It features many of the most impressive products of analytic philosophy. Given that it contains so many excerpts which are considered compulsory reading in philosophy programs, I would enthusiastically recommend it to students of philosophy and to anyone wishing to find out about the analytical approach."*

PAUL SNOWDON,  
UNIVERSITY OF LONDON

## Analytic Philosophy

An Anthology

Edited by A. P. MARTINICH & DAVID SOSA

Both University of Texas, Austin

This substantial anthology comprises the most comprehensive and authoritative collection of readings in analytic philosophy of the twentieth century. It provides a survey and analysis of the key issues, figures and concepts.

The volume is divided into seven sections: philosophy of language, metaphysics, epistemology, philosophy of mind, free will and personal identity, ethics, and methodology. It includes the most familiar texts of the analytic tradition, as well as several others that are less often anthologized. Several articles are logically related to each other. For example, Moore's *Four Forms of Skepticism*, appears together with selections from Wittgenstein's *On Certainty*; Langford's discussion of the paradox of analysis and Moore's reply are both included; and Quine's *Two Dogmas of Empiricism* is paired with Grice and Strawson's *In Defense of a Dogma*.

The distinctive selections and internal coherence make this anthology an invaluable guide for anyone interested in twentieth-century and analytic philosophy.

"One of the friendliest introductions to logic I have ever read."

NIMROD BAR-AM,  
TEL AVIV UNIVERSITY

## The Languages of Logic

An Introduction to Formal Logic

Second Edition

**SAMUEL GUTTENPLAN**

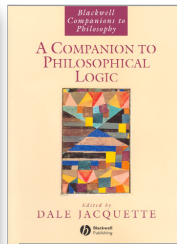

*Birkbeck College, London*

Logic is, and has always been, an essential part of philosophy. It employs concepts which are crucial for understanding thought and language, and demands a mastery of procedures and techniques. This innovative introductory logic textbook explores the relationship between natural language and logic, motivating the student to acquire skills and techniques of formal logic.

This revised edition includes substantial additions which make the text even more useful to students and instructors alike, including:

- An Appendix, 'How to Learn Logic', which takes the student through fourteen compact and sharply directed lessons with exercises and answers
- A discussion of the truth tree method for both Sentential and Predicate logics
- An account of alternative notations
- Answers to selected exercises that figure in the main body of the book.

## The Blackwell Guide to the Philosophy of Language

Edited by MICHAEL DEVITT & RICHARD HANLEY

City University of New York; University of Delaware

*"A superb collection of essays by a virtual who's who of the philosophy of language today."*

PAUL BOGHOSSIAN, NEW YORK UNIVERSITY

Each contribution to this **GUIDE** offers an authoritative survey of a central topic in philosophy of language, often accompanied by useful suggestions for further reading; the volume also has a large and insightful bibliography at the end.

Included are chapters on analyticity, anaphora, conditionals, descriptions, formal semantics, indexicals and demonstratives, kind terms, metaphor, names, propositional attitude ascriptions, speech acts, truth, and vagueness. An introduction by the editors sets the stage for extended treatments of theories of meaning and reference, and an investigation of foundational issues.

## Meaning and Argument

An Introduction to Logic through Language

Revised Edition

ERNEST LEPORE

Rutgers University

*"Here is logic as it ought to be presented to philosophers, linguists, and anyone else who is interested in how language is organized. In Ernie Lepore's hands grammar comes alive. I recommend this book to all who want to learn what logic is, how to use it, and what it is good for."*

DONALD DAVIDSON,  
UNIVERSITY OF CALIFORNIA, BERKELEY

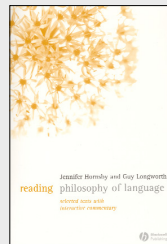

This updated and revised edition:

- ☑ Includes extended sections, additional exercises, and an updated bibliography
- ☑ Offers a distinctive approach in that this text is a philosophical, rather than mathematical introduction to logic
- ☑ Concentrates on symbolization and does all the technical logic simply with truth tables and no derivations at all
- ☑ Contains numerous exercises and a corresponding answer key
- ☑ Includes an extensive appendix which allows the reader to explore subjects that go beyond what is usually covered in an introductory logic course
- ☑ Features an accompanying website at [www.meaningargument.com](http://www.meaningargument.com).

## Reading Philosophy of Language

Selected Texts with Interactive Commentary

Edited by JENNIFER HORNSBY & GUY LONGWORTH

Both Birkbeck College, London

*"A perfect blend of well-selected original works and excellent, interleaved commentary."*

DAVID SHIER,  
WASHINGTON STATE UNIVERSITY

Designed for readers new to the subject, this innovative textbook:

- ☑ Presents important writings by leading figures in the field, such as Austin, Chomsky, Davidson, Dummett, and Searle
- ☑ Features three texts on each of six key topics: reference and meaning; speech and action; meaning and truth; knowledge of language; meaning and compositionality; and non-literal meaning
- ☑ Includes extensive editorial material, which guides readers through the texts.

## Semantic Relationism

KIT FINE

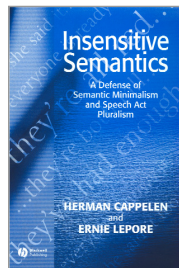

New York University

Kit Fine argues for a fundamentally new approach to the study of representation in language and thought. His key idea is that there may be representational relationships between expressions or elements of thought that are not grounded in the intrinsic representational features of the expressions or elements themselves. This idea is shown to lead to solutions to many of the standard puzzles in the area - Frege's identity puzzle, Kripke's puzzle about belief, and Moore's paradox of analysis. It is also shown to lead to a more defensible form of direct reference theory - one that is immune to many of the objections that the Fregeans have levelled against it.

Based upon the first Brown-Blackwell lecture series and the John Locke lectures, this beautifully written and ground-breaking work is essential reading for anyone interested in the representational character of language and thought.

## The Wittgenstein Reader

Second Edition

Edited by **ANTHONY KENNY**  
University of Oxford

For the second edition of this popular collection of Wittgenstein's key writings, a new chapter on 'Sense, Nonsense and Philosophy' has been added incorporating material relevant to recent debates about Wittgenstein. In particular, this chapter includes key passages which have proved central to interpretations of Wittgenstein by the so-called 'New Wittgensteinians'.

## NEW IN 2007

## Wittgenstein in Cambridge

Letters and Documents 1911-1951  
 Fourth Edition

**LUDWIG WITTGENSTEIN**

Edited by **BRIAN MCGUINNESS**  
 University of Siena

This fascinating collection of correspondence and documents relating to Wittgenstein's long association with Cambridge between the years 1911 and his death in 1951:

- ☑ Includes the letters he exchanged with his most illustrious Cambridge contemporaries Russell, Keynes, Moore and Ramsey (previously published as *Cambridge Letters*)
- ☑ Provides a fascinating glimpse of the philosopher - appearing in turn withdrawn and affectionate, fierce and censorious, happy to collaborate and sure of his own judgement
- ☑ Documents quarrels and reconciliations, along with his struggles to publish the *Tractatus*, his retreat from the world and his eventual return to philosophy.

This significantly expanded new volume adds to the existing collection some 200 previously unpublished letters and documents, including 40 letters from Wittgenstein to his friend and Cambridge contemporary, the economist Piero Sraffa; a substantial body of letters between Wittgenstein and some of his most celebrated pupils, including Rhees, Von Wright and Norman Malcolm; and minutes relating Wittgenstein's incursions into University business and The Moral Sciences Club.

## Wittgenstein and the Possibility of Discourse

Second Edition

RUSH RHEES

*Former pupil of Wittgenstein*

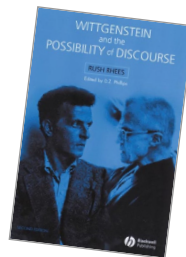

Edited by D. Z. PHILLIPS

*Late of University of Wales, Swansea and Claremont Graduate School, California*

Four years after the publication of Ludwig Wittgenstein's *Philosophical Investigations*, Rush Rhees, one of Wittgenstein's literary executors and closest friends, began writing reflections on the masterpiece he had helped to edit. In this collection of his previously unpublished writings, Rhees offers an original critique of Wittgenstein's analogy between language and games.

For the second edition, D. Z. Phillips has inserted as a preface Rhees' article, 'The Fundamental Problems of Philosophy', first published in 1994, and an additional appendix featuring some of Rhees' reflections on Wittgenstein, his teacher.

MARCH 2006 - 352 PAGES - 1-4051-3250-7 [ISBN13: 978-1-4051-3250-3] PB

## Wittgenstein's On Certainty

There - Like Our Life

RUSH RHEES

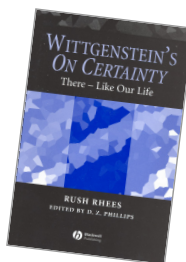

*Former pupil of Wittgenstein*

Edited by D. Z. PHILLIPS

*Late of University of Wales, Swansea and Claremont Graduate School, California*

Rush Rhees, a close friend of Wittgenstein and a major interpreter of his work, shows how Wittgenstein's *On Certainty* concerns logic, language and reality - topics that occupied Wittgenstein from early in his career. Rhees's comments are introduced by D. Z. Phillips, who writes a substantial and illuminating afterword that discusses current scholarship surrounding *On Certainty*, and its relationship to Rhees' work on this subject.

## Mind and Cognition

An Anthology  
Second Edition

Edited by **WILLIAM G. LYCAN**  
*University of North Carolina, Chapel Hill*

### BRIEF CONTENTS

Preface.

#### Part I:

Ontology: The Identity Theory and Functionalism.

#### Part II:

Instrumentalism.

#### Part III:

Eliminativism and Neurophilosophy.

#### Part IV:

The 'Language of Thought' Hypothesis.

#### Part V:

The Status of Folk Psychology.

#### Part VI:

Consciousness, 'Qualia,' and Subjectivity.

#### Part VII:

Emotion.

First published in 1990, **MIND AND COGNITION: AN ANTHOLOGY** is established as arguably the most popular teaching apparatus for upper level undergraduate and graduate courses in the philosophy of mind. It provides the reader with an overview of the complex, sophisticated and sometimes conflicting developments in theories of mind that have taken place over the last 40 years, making available to students, teachers and researchers the very best and most influential contributions to the discipline.

In this second edition, each section:

- ❑ Opens with a brief, synoptic introduction to the individual field
- ❑ Features a comprehensive further reading list
- ❑ Contains three to four of the most influential papers that have been written in the philosophy of mind over the last 40 years.

This revised volume also includes a section on mental causation and completely revised subject and name indexes.

## Philosophy of Mind and Cognition

An Introduction  
Second Edition

DAVID BRADDON-MITCHELL &  
FRANK JACKSON  
*University of Sydney; Australian National University*

*"This new edition of Braddon-Mitchell and Jackson's already excellent textbook will be a very welcome addition to the philosophy of mind literature."*

SIMON PROSSER,  
UNIVERSITY OF  
ST ANDREWS

### BRIEF CONTENTS

Preface.

#### Part I:

From Dualism to Common-sense Functionalism.

#### Part II:

Rivals and Objections.

#### Part III:

About Content.

#### Part IV:

Explaining Behavior: Eliminativism and Realism.

Annotated Reading.

Glossary.

Bibliography.

Index.

This fully revised and updated edition of David Braddon-Mitchell and Frank Jackson's popular introduction to philosophy of mind and cognition now includes:

- ❑ A section on some of Descartes' famous objections to materialism along with a discussion of the objection from Gödel's theorem
- ❑ Substantial additions to the discussion of qualia including a discussion of representationalist accounts of experience and of the zombie argument
- ❑ Additional coverage of the view that psychology is autonomous
- ❑ A new substantial chapter on connectionism and its bearing on the language of thought debate; and much more.

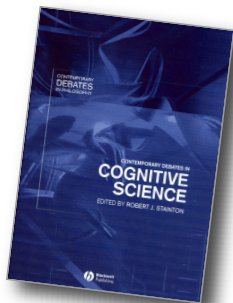

The revisions are designed to make the volume even more useful for teachers and students, and to keep it current, ensuring that the most recent developments in the philosophy of mind and cognitive science are brought together into a coherent, accessible whole.

## Contemporary Debates in Cognitive Science

Edited by **ROBERT J. STAINTON**  
University of Western Ontario

*"An excellent text for upper division courses, and it also makes important original contributions to research on a number of 'hot' topics in cognitive science."*

STEPHEN STICH, RUTGERS UNIVERSITY

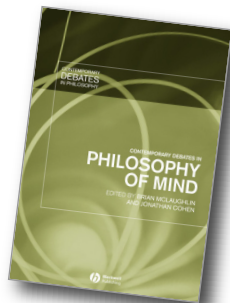

This volume introduces central issues in cognitive science by means of debates on key questions.

Renowned experts in the field contribute to the debates from different perspectives, covering the middle ground as well as the extremes. They address such topics as:

- ▣ The degree of modularity of the mind
- ▣ The amount of innate knowledge
- ▣ Whether human cognition is bounded
- ▣ The role of perception in action
- ▣ The place of external elements in mental states
- ▣ The importance of rules and representations for explaining systematicity.

The volume as a whole provides a valuable overview of the field in a clear and easily comprehensible form.

## Contemporary Debates in Philosophy of Mind

Edited by **BRIAN MCLAUGHLIN & JONATHAN COHEN**

Rutgers University; University of California, San Diego

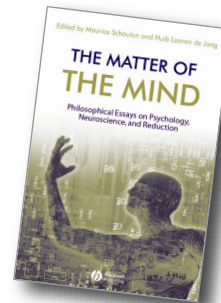

### CONTEMPORARY DEBATES IN PHILOSOPHY OF MIND

showcases the leading contributors to the field, debating the major questions in philosophy of mind today. Ten pairs of specially written essays present substantially opposed perspectives on topics including:

- ▣ Narrow content
- ▣ Externalism
- ▣ Privileged access
- ▣ Normativity
- ▣ Mental causation
- ▣ Consciousness
- ▣ Qualia
- ▣ Emergentism.

Taken together, the essays provide an engaging and dynamic presentation of the contemporary contours of philosophy of mind, ideal for undergraduate and graduate course use.

## The Matter of the Mind

Philosophical Essays on Psychology, Neuroscience and Reduction

Edited by **MAURICE K. D. SCHOUTEN & HUIB LOOREN DE JONG**

Tilburg University; Vrije Universiteit

**THE MATTER OF THE MIND** addresses and illuminates fundamental questions about the relationship between psychology and its associated disciplines by focusing on the topic of reduction.

After decades of an 'antireductionist consensus' in the sciences, reductionism has become credible, even fashionable, again due firstly to new empirical evidence supporting reductionist claims, and secondly to a new wave model of reduction which overcomes many of the conceptual difficulties which previously discredited it. These original articles, written by expert philosophers on the subject of reduction, discuss recent theorizing in the mind-brain sciences, and review and weigh the evidence in favor of the new wave of reduction against the backdrop of recent important advances within psychology and the neurosciences. This volume collects the latest work on central topics where neuroscience is now making inroads in traditional psychological terrain, such as adaptive behavior, reward systems, consciousness, and social cognition.

## The Self?

Edited by **GALEN STRAWSON**

University of Reading

The philosophical papers in this volume reflect on key questions about the self, such as:

- ☐ Does the self exist?
- ☐ If so, what is its nature?
- ☐ Is it a single thing, or could there be a succession of selves?
- ☐ Could our sense of a single continuous self be an illusion?
- ☐ What are the ethical implications of selfhood?
- ☐ And what is the relation between self-expression and self-control?

The papers are written by leading authorities in the field: Barry Dainton, Ingmar Persson, Marya Schechtman, Bas van Fraassen, Peter van Inwagen, and the volume editor, Galen Strawson.

## Philosophical Foundations of Neuroscience

M. R. BENNETT & P. M. S. HACKER

University of Sydney; St John's College, Oxford

*"The book will certainly arouse opposition... but if it causes controversy, it is controversy that is long overdue."*

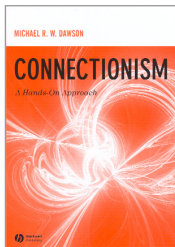

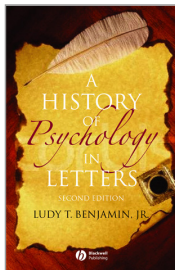

SIR ANTHONY KENNY,  
PRESIDENT OF THE BRITISH ACADEMY, 1989-93

In this provocative work, a distinguished philosopher and a leading neuroscientist outline the conceptual problems at the heart of cognitive neuroscience.

Writing from a scientifically and philosophically informed perspective, the authors:

- ❑ Provide a critical overview of the conceptual difficulties encountered in many current neuroscientific and psychological theories
- ❑ Propose that conceptual confusions about how the brain relates to the mind affect the intelligibility of research carried out by neuroscientists, in terms of the questions they choose to address, the description and interpretation of results and the conclusions they draw.

## A History of Psychology in Letters

Second Edition

LUDY T. BENJAMIN, JR.

Texas A&M University

The private thoughts, emotions, hopes, and frustrations contained in this collection of letters written by key figures in psychology provide rich insight into the development of the field. From John Locke writing parenting advice in seventeenth century Holland to Kenneth B. Clark responding to the impact of his research on the nineteenth century Brown v. Board decision, this book illustrates the history of the psychology in a direct, engaging manner.

## Continental Philosophy of Science

Edited by **GARY GUTTING**

University of Notre Dame

**CONTINENTAL PHILOSOPHY OF SCIENCE** provides an expert guide to the major twentieth-century French and German philosophical thinking on science. The book refutes the view that twentieth-century continental thought is anti-scientific, and shows how continental thinkers offer distinctive perspectives that both complement and fruitfully interact with analytic philosophy of science.

## Philosophy of Science

An Anthology

Edited by **MARC LANGE**

University of North Carolina, Chapel Hill

### PHILOSOPHY OF SCIENCE: AN ANTHOLOGY:

- Assembles some of the finest papers in the philosophy of science since 1945
- Showcases enduring classics alongside important and innovative recent work
- Addresses topics at the heart of philosophy of science, including scientific explanations and laws of nature, varieties of causation, and the metaphysical implications of modern physics
- Includes introductions to each section, highlighting connections between selections as well as contextualizing the articles.

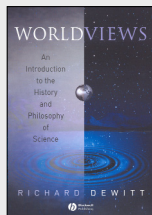

Providing an authoritative and accessible overview of the philosophy of science, this volume is a valuable resource for both students and professional philosophers of science.

## Philosophy of Technology

An Introduction

**VAL DUSEK**

University of New Hampshire

*"Precisely what the field now needs."*

ROBERT C. SCHARFF, UNIVERSITY OF NEW HAMPSHIRE

**PHILOSOPHY OF TECHNOLOGY: AN INTRODUCTION** skillfully guides readers through the core philosophical issues raised by technology's increasingly ubiquitous and powerful presence in society and our daily lives.

This timely text:

- ☑ Considers first the question of what technology is
- ☑ Goes on to address a wide range of concerns, including technocracy, technological rationality, technological determinism, and varieties of resistance to technology
- ☑ Includes penetrating study questions at the end of each chapter, which provide the necessary tools to critically examine the nature of technology and its impact on our lives.

## Doubting Darwin?

Creationist Designs on Evolution

**SAHOTRA SARKAR**

University of Texas, Austin

The debate about what to teach as science in our schools has reached a boiling point, both inside and outside the classroom. From creationism to Intelligent Design, the intrusion of political and religious ideals is damaging the integrity of our public education system. **DOUBTING DARWIN?** puts the dispute into its scientific and historical context, illuminating the intellectual debate that is shaping educational policy.

In his thought-provoking book, noted biologist and philosopher Sahotra Sarkar:

- ▣ Exposes the frauds and fallacies of Intelligent Design Theory and its claim to be 'good science'
- ▣ Rejects Intelligent Design's claim to legitimacy, showing clearly how and why it is an unsuitable alternative to evolutionary biology in the classroom
- ▣ Examines the concrete arguments and positions of the Intelligent Design Movement
- ▣ Analyzes the use of computer science and information theory by the creationists
- ▣ Defends metaphysical naturalism
- ▣ Discusses the relation between Darwin and modern evolutionary theory.

**DOUBTING DARWIN?** is an accessible and engaging read for anyone looking to gain a genuinely informed perspective on this heated debate.

## The Philosophy of Religion

An Historical Introduction

**LINDA TRINKAUS ZAGZEBSKI**

University of Oklahoma

This illuminating guide places key issues and debates in the philosophy of religion in their historical contexts, highlighting the conditions that led to the development of the field. A range of core topics is addressed, among them:

- ▣ The relationship between religion and philosophy
- ▣ The existence of God
- ▣ Religion and morality
- ▣ The problem of evil
- ▣ Death and the afterlife
- ▣ The problem of religious diversity.

Rich with argument, yet never obtrusive, this engaging text not only provides an accessible overview of this vibrant field, but also invites readers to think through the issues in the philosophy of religion themselves.

**The Other Calling**

Theology, Intellectual Vocation and truth

**ANDREW SHANKS**

Canon Theologian, Manchester Cathedral

What is the true calling of the intellectual? In this provocative new book, Andrew Shanks presents a distinctive and fresh answer. **THE OTHER CALLING** is a systematic riposte both to the elitism of philosophy in the heritage of Plato, and to the typical individualism of Plato's philosophic opponents. Here, instead, intellectual integrity is identified with a form of priesthood.

Recalling how, once, all intellectuals were, as a matter of course, also priests, Shanks argues for a new, religiously multi-cultural 'priesthood of all thinkers'. The argument - developed first in philosophical terms, then in relation to Christian theology - is about the most basic moral purposes of both disciplines. It negotiates a strategic partnership between the two, as complementary contributions to this 'priestly' ethos. **THE OTHER CALLING** is a strikingly original approach to the moral and political aspects of theology's relationship with philosophy, and displays all the erudition that we have come to expect from Andrew Shanks.

## Immortality Defended

JOHN LESLIE

University of Guelph

- ☐ Why does the cosmos exist?
- ☐ Could we be parts of an infinite or divine mind, as pantheists believe?
- ☐ If so, might we have afterlives?

In **IMMORTALITY DEFENDED**, John Leslie, renowned philosopher of religion and cosmology, defends pantheism and three distinct ways in which we could be immortal.

Combining a creation story told by Plato with the ideas of Spinoza, this book tackles the fundamental questions posed by our very existence. It explores 'Einsteinian immortality' inside an eternally existing four-dimensional whole; the nature of an infinite mind which lives the lives of everybody; and the possibility of an afterlife inside such a mind. Its arguments are drawn from contemporary science, and from philosophy from ancient Greece onwards.

This highly original work is accessible to anyone interested in science, philosophy, cosmology or theology, or to those who are just intrigued by the wonder of our being.

## The Meaning of Theism

Edited by JOHN G. COTTINGHAM

University of Reading

In this provocative volume, leading philosophers reflect on what belief in God, or its absence, means for the subject - what difference it makes to the flow and perceived significance of someone's life. The different perspectives of the authors, Christian, Buddhist, Jewish, atheist and agnostic make for an unusually stimulating juxtaposition of views.

Contributors include:

- ☐ Sir Anthony Kenny on the idea of 'devout agnosticism'
- ☐ Alvin Plantinga on the compatibility of science and religion
- ☐ John Haldane on the human desire for God
- ☐ Richard Norman on atheistic interpretations of religious experience
- ☐ David Benatar on the value of religious observance irrespective of belief
- ☐ John Cottingham on the role of emotions and habits of virtue in the adoption of a religious outlook.

## The Promise of Scriptural Reasoning

Edited by DAVID F. FORD & C.C. PECKNOLD

Both University of Cambridge

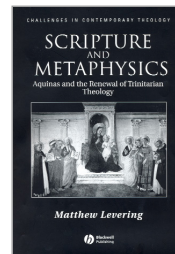

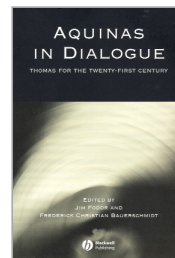

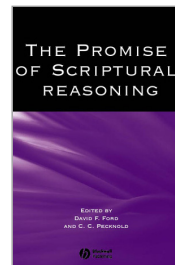

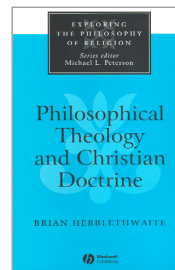

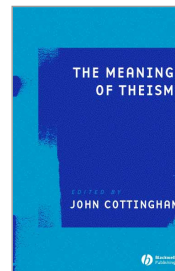

In this book, twelve contributors distil their critical and constructive thinking on 'scriptural reasoning' after nearly a decade of study and discussion. Their reflections range from introductory accounts and guidelines for the practice to literary-critical discussions and interpretations of texts. Several chapters draw on contemporary philosophies, such as pragmatism, phenomenology, and idealism. A critical conclusion invites readers to reflect on the promise of 'scriptural reasoning'.

## Contemporary Debates in Metaphysics

Edited by TED SIDER,  
DEAN ZIMMERMAN &  
JOHN HAWTHORNE

All Rutgers University

**CONTEMPORARY DEBATES IN METAPHYSICS** features original essays on some of the most hotly debated issues in the field:

- ❑ Is personal identity psychological or physical?
- ❑ Do abstract entities such as universals, propositions, and numbers actually exist?
- ❑ Are determinism and freedom incompatible?

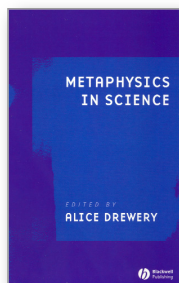

Nine pairs of newly commissioned essays face off on opposite sides of fundamental problems in current questions in metaphysics. This distinctive format offers readers a unique opportunity to observe philosophers engaging in head-to-head debate. An introductory essay written by the editors will situate the reader by emphasizing the recurring theme in metaphysics of reductionism versus primitivism.

## Metaphysics in Science

Edited by ALICE DREWERY  
 University of Reading

This book presents work at the forefront of contemporary scholarly debate about the relevance of substantial metaphysical theories to science. It comprises a series of original papers engaging with issues currently at the centre of this debate and responds in particular to two recent books by Brian Ellis on scientific essentialism, especially on the necessity of laws of nature, the nature of natural kinds and the nature of scientific realism. The collection contains a new paper by Ellis himself, as well as commentary and criticism from prominent philosophers in the field. It concludes with a reply by Ellis to some of his critics.

## Varieties of Things

Foundations of Contemporary Metaphysics

CYNTHIA MACDONALD  
 Queen's University, Belfast

In **VARIETIES OF THINGS**, Cynthia Macdonald discusses the nature and aims of metaphysics and develops tools that can be used to engage in metaphysical thinking about the basic varieties of things.

The book both surveys existing accounts of the natures of these kinds of things, and argues for unique original positions of its own. The arguments support a systematically anti-reductionist view of the basic ontological categories.

## Metaphysics

An Anthology

Edited by JAEGWON KIM  
& ERNEST SOSA

Both Brown University

This **ANTHOLOGY**, intended to accompany *A Companion to Metaphysics* (Blackwell, 1995):

- ❑ Brings together over 60 selections which represent the best and most important works in metaphysics during the last century
- ❑ Groups the selections under ten major metaphysical problems
- ❑ Includes section introductions by the editors

Among the problems covered are existence, identity, essence and essential properties, 'possible worlds', things and their identity over time, emergence and supervenience, causality, and realism/antirealism. The coverage is comprehensive and should be accessible to those without a background in technical philosophy.

**SHORT CONTENTS:** Preface. Part I: Existence. Part II: Identity. Part III: Modalities and Possible Worlds. Part IV: Universals, Properties, Kinds. Part V: Things and Their Persistence. Part VI: The Persistence of the Self. Part VII: Causation. Part VIII: Emergence, Reduction, Supervenience. Part IX: Determinism, Fatalism, Agency. Part X: Realism / Antirealism. Index.

## Four Views on Free Will

**JOHN MARTIN FISCHER, ROBERT KANE,  
DERK PEREBOOM & MANUEL VARGAS**

*University of California, Riverside; University of Texas, Austin; University of Vermont; University of San Francisco*

This text represents the most up-to-date account of the major positions in the free will debate. Focusing on the concepts and interactions of free will, moral responsibility, and determinism, the book takes up the opposing viewpoints of:

- ☑️ Libertarianism, defended by Robert Kane
- ☑️ Compatibilism, defended by John Martin Fischer
- ☑️ Hard incompatibilism, defended by Manuel Vargas
- ☑️ Revisionism, defended by Derk Pereboom.

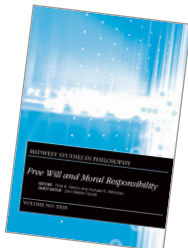

The first half of the book contains each philosopher's explanation of his particular view; the second half allows them to directly respond to each other's arguments, in a lively and engaging conversation.

NEW KEY TEXTBOOK

## Reading Metaphysics

Selected Texts with Interactive Commentary

**HELEN BEEBEE & JULIAN DODD**

*University of Birmingham; University of Manchester*

This collection of key contemporary writings in metaphysics enables readers to engage critically with challenging philosophical texts, and thereby use such texts as a springboard for their own philosophical thought and writing.

Each text is followed by a detailed commentary, which puts the author's views and arguments into context, explains key terms and argumentative moves, and - most importantly - asks a variety of questions. The questions are designed to prompt the reader to think critically about what the author is saying and why she is saying it, to think of objections, and to formulate and justify his or her own views on the topic.

The book includes texts by Kripke, Lewis, Parfit, Armstrong, Nagel, and Dennett, amongst others, and discusses free will, personal identity, realism and nominalism, modality, persistence, and realism and anti-realism.

NEW EDITION OF KEY TEXTBOOK

## Metaphysics

The Big Questions

Second Edition

**Edited by PETER VAN INWAGEN & DEAN ZIMMERMAN**

*University of Notre Dame; Rutgers University*

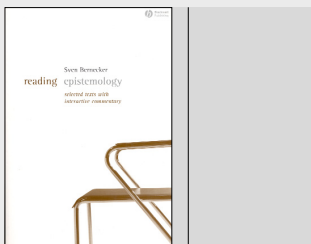

This extensively revised and expanded edition of van Inwagen and Zimmerman's popular collection of classic and contemporary readings in metaphysics now features:

- ☑️ Twenty-two additional selections
- ☑️ New sections on existence and modality.

The volume poses questions that lead to the deepest issues in traditional metaphysics, including problems about the nature of space and time, the relationship between body and mind, and the freedom of the will. With updated commentary from the editors, this collection is essential reading for those seeking answers to some of the most puzzling questions about the world and our place in it.

## Reading Epistemology

Selected Texts with Interactive Commentary

**SVEN BERNECKER**

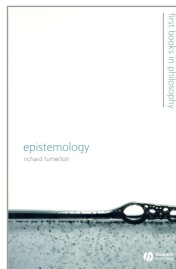

University of Manchester

Designed for readers who have had little or no exposure to contemporary theory of knowledge, this book:

- ▣ Presents two contrasting views on each of six core topics in epistemology: the definition of knowledge, the relation between justification and truth, epistemic duties and virtues, testimonial knowledge, foundationalism versus coherentism, and scepticism and contextualism
- ▣ Features the writings of Nozick, Ernest Sosa, Alvin Goldman, Bonjour, Dretske, and Burge, among others
- ▣ Contains an introduction to each topic and author, extensive commentaries on the texts, questions for debate and an annotated bibliography.

The interactive nature of the commentaries encourages readers to engage with the texts and to think for themselves.

NEW KEY TEXTBOOK IN 2007

## Ethical Theory

An Anthology

Edited by **RUSS SHAFER-LANDAU**

University of Wisconsin-Madison

**ETHICAL THEORY** is an authoritative collection of key essays that address the central questions of morality.

This broad-ranging volume:

- ☑ Brings together 76 classic and contemporary pieces
- ☑ Guides students through key areas in the field, among them consequentialism, deontology, contractarianism, and virtue ethics
- ☑ Includes coverage of metaethics, normative ethics, and practical ethics
- ☑ Reaches beyond traditional texts by also including important, but usually underrepresented, topics such as moral knowledge, moral standing, moral responsibility, and ethical particularism
- ☑ Raises questions about the status and rational authority of morality.

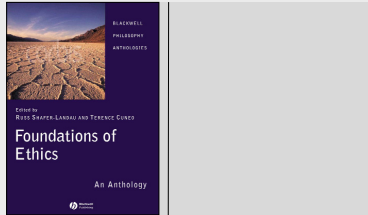

The essays are by some of the best-known and most-respected names in ethical theory; each part is introduced with expert and judicious commentary by the editor.

## Foundations of Ethics

An Anthology

Edited by **RUSS SHAFER-LANDAU & TERENCE CUNEO**

University of Wisconsin-Madison; Calvin College

*"This comprehensive and authoritative collection embraces many of the most influential texts, and all the central contemporary approaches to the nature of morality. It will be an essential resource for any philosophy student wanting to understand that area, which in effect means any philosophy student at all."*

SIMON BLACKBURN, CAMBRIDGE UNIVERSITY

**FOUNDATIONS OF ETHICS** is a collection of seminal articles in metaethics. Organized into two parts:

- ☑ The first section investigates issues in the ontology of morality, such as whether there are objective moral standards
- ☑ The second section considers related topics, such as whether moral considerations are essentially reason-giving, the nature of moral knowledge, and the differences between ethics and natural science.

Designed for students of ethical theory, this volume provides an extensive selection of primary sources and corresponding expert commentary.

## Contemporary Debates in Moral Theory

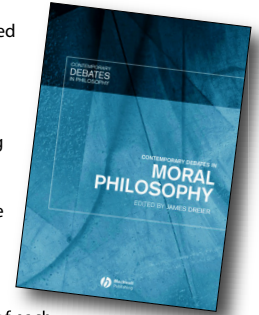

Edited by **JAMES DREIER**

Brown University

**CONTEMPORARY DEBATES IN MORAL THEORY** is a collection of new essays addressing central questions in contemporary ethics and moral philosophy, among them:

- ☑ Are moral requirements derived from reason?
- ☑ How demanding is morality?
- ☑ Are virtues the proper starting point for moral theorizing?

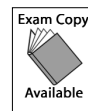

Eight central questions shape the volume, with each question sparking a pair of opposing essays, summarizing the most important and forceful grounds of each position. Together, the essays provide an accessible introduction to the major topics in contemporary moral theory.

## The Ethics Toolkit

A Compendium of Ethical Concepts and Methods

**JULIAN BAGGINI & PETER S. FOSL**

*The Philosophers' Magazine; Transylvania University*

**THE ETHICS TOOLKIT** provides an accessible and engaging compendium of concepts, theories, and strategies relevant to the philosophical practice of ethical reflection and criticism. A complement to *The Philosopher's Toolkit* (see page 3), this volume focuses on the ethics, emphasizing philosophical methods and applications as well as various theories and controversies in the area.

Written in an accessible and engaging style appropriate for use both inside and beyond the classroom, the entries are enlivened through the use of relevant examples, applied explanations, test cases, critical reviews, cross-references, and a helpful appendix. This indispensable resource will encourage students and general readers to think critically about ethics and teach them how to engage intelligently in ethical study, thought, and debate.

## On What We Owe To Each Other

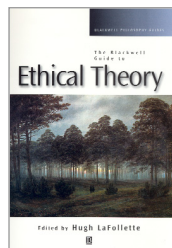

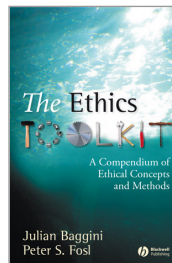

**Edited by PHILIP STRATTON-LAKE**

*University of Reading*

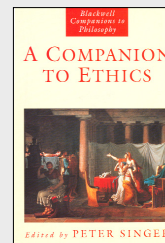

T. M. Scanlon's **WHAT WE OWE TO EACH OTHER** is one of the most significant works in moral philosophy of recent years. It has initiated debates on the nature of value, the role of well-being, how numbers matter in deciding what we should do, and the role of justifiability plays in our moral thinking. In **ON WHAT WE OWE TO EACH OTHER**, five leading moral philosophers assess various aspects of Scanlon's moral theory as laid out in this seminal work.

KEY TEXTBOOK

## A Companion to Ethics

**Edited by PETER SINGER**

*Princeton University*

*"Peter Singer has directed this book very expertly. The contributors have set forth the facts about ethical systems with as much kind clarity as specialists can ever bestow upon the ignorant."*

THE INDEPENDENT

In this volume, some of today's most distinguished philosophers survey the whole field of ethics, from its origins, through the great ethical traditions, to theories of how we ought to live, arguments about specific ethical issues, and the nature of ethics itself. The book can be read straight through from beginning to end; yet the inclusion of a multi-layered index, coupled with a descriptive outline of contents and bibliographies of relevant literature, means that the volume also serves as a work of reference, both for those coming afresh to the study of ethics and for readers already familiar with the subject.

## Reading Ethics

Selected Texts with Interactive Commentary

MIRANDA FRICKER &amp; SAMUEL GUTTENPLAN

Both Birkbeck College, London

This introductory text encourages students to engage with key problems and arguments in ethics through a series of classic and contemporary readings. Each of the book's six chapters focuses on a particular theme:

- ☐ The nature of goodness
- ☐ Subjectivity and objectivity in ethical thinking
- ☐ Justice and virtue
- ☐ Moral motivation
- ☐ The place of moral obligation
- ☐ The idea that literature can be a form of moral philosophy.

Each chapter features two or three key readings, drawn from texts as diverse as Plato's *Republic*, J. S. Mill's *Utilitarianism*, Kant's *Groundwork of the Metaphysics of Morals* and Rawls' *A Theory of Justice*. The readings are all accompanied by interactive commentary from the editors.

## NEW KEY TEXTBOOK

## Ethics

The Fundamentals

JULIA DRIVER

Dartmouth College

- ☐ Is there such a thing as right and wrong?
- ☐ If so, what makes one action right and another wrong?
- ☐ Are there moral laws that apply universally, or are certain actions right in one place but not another?

**ETHICS: THE FUNDAMENTALS** explores these and many other related questions by introducing students to different philosophical approaches to ethics, including moral relativism, virtue ethics, Kantian ethics, divine command theory, and feminist ethics. Lively everyday examples and thoughtful discussion of key moral philosophers and their ideas make this first volume of Blackwell's *Fundamentals of Philosophy* series an important resource for readers coming to the subject for the first time.

## What's Wrong with Moralism?

Edited by C. A. J. COADY

University of Melbourne

Appeals to morality are back on the agenda in international and national politics. The moral high ground is invoked to justify war, in discussions about waging 'war' on poverty, and in many other political and social contexts. Despite this, terms such as 'moralism', 'moralising' and 'moralistic' are increasingly used as pejorative terms. This thought-provoking book examines exactly what people mean when they accuse others of being 'moralistic'.

Written by a team of international philosophers, the book analyses what the 'vice' of moralism might be and contrasts this with a genuine concern for morality.

## Do Morals Matter?

A Guide to Contemporary Religious Ethics

IAN MARKHAM

Hartford Seminary

In a dramatically changing world it is necessary to reassess our conceptions of ethical standards. **DO MORALS MATTER?** is an accessible and informed guide to contemporary ethical issues. This book discusses comparative religious ethics, moral philosophy, and applied ethics, asking difficult but relevant questions, and reflecting upon the intersection of religion and morality. It weaves the religious dimension into the book in a way that challenges both the unthinking Christian and the secular humanist.

## The Extinction of Desire

A Tale of Enlightenment

MICHAEL BOYLAN

Marymount University

What would you do if you suddenly became rich? Michael O'Meara had never asked himself this question. A high school history teacher in Maryland, Michael is content to not ask too many questions - until, after a freak accident, he unexpectedly finds himself the beneficiary of a million dollars. As friends, adversaries, and a greedy ex-wife emerge from the background to lay claim to the fortune, Michael finds himself caught up in a number of troubling situations that disrupt his life and leave him questioning everything he had and everything he thought he wanted.

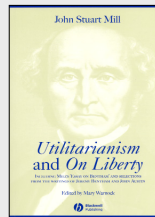

Haplessly swept from the United States and Europe, among international jet setters, the IRA, the Mob, and everyday people, Michael slowly begins to uncover what is truly valuable in life via the teachings of Buddhist philosophy. **THE EXTINCTION OF DESIRE** maps the course of his voyage, blending philosophy and fiction to discover fundamental truths.

*"Anyone interested in the utilitarianism of Bentham and Mill will be pleased to have the essential readings in one volume and grateful to Mary Warnock for her informative and insightful introduction."*

WILLIAM H. SHAW,  
SAN JOSE STATE  
UNIVERSITY

## Utilitarianism and On Liberty

Including 'Essay on Bentham' and selections from the writings of Jeremy Bentham and John Austin  
Second Edition

JOHN STUART MILL

Edited by MARY WARNOCK  
University of Cambridge

This book combines:

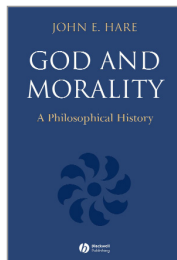

- ▣ John Stuart Mill's key writings, *Utilitarianism*, *On Liberty*, and 'Essay on Bentham'
- ▣ Formative selections from Mill's greatest influences, Jeremy Bentham and John Austin
- ▣ A discerning introduction written by the renowned ethics scholar Mary Warnock.

This combination provides a thorough and perspicuous view of Mill's thought. An extensive bibliography of the best scholarship on Mill, Bentham, and *Utilitarianism* makes this book even more useful for students.

## God and Morality

A Philosophical History

JOHN E. HARE

Yale University

*"God and Morality is written with crystal clarity and impressive scholarship."*

ROBERT ROBERTS, BAYLOR UNIVERSITY

**GOD AND MORALITY** evaluates the ethics of four principal philosophers – Aristotle, Duns Scotus, Kant, and R. M. Hare – placing an emphasis on the often circumvented relationship between their ethical theories and theism. While focusing on central concepts such as virtue, will, duty, and consequences, the author never loses sight of the larger context in which these views appear, presenting the work of these philosophers as keys to understanding the historical advancement of ethical thought during four great periods in Western philosophical history. This book defies traditional modes of comparison between these important philosophers by paying close attention not only to differences in their thought, but to significant and sometimes surprising similarities, taking seriously the role of God in their moral theories.

## The Moral of the Story

An Anthology of Ethics Through Literature

Edited by **PETER SINGER & RENATA SINGER**

Princeton University; Independent Scholar

*"This excellent, wide-ranging anthology reminds us that there is as much ethics in Tolstoy or Dostoyevsky as in Kant or Mill. Philosophy departments should leave around copies for students to dip into and be inspired by."*

JONATHAN GLOVER, KINGS COLLEGE, LONDON

In **THE MORAL OF THE STORY**, Peter and Renata Singer bring together an engrossing collection of fiction, drama, and poetry that stimulates the reader to think about the perennial questions of ethics.

- ❑ A vivid montage of literature that touches on a broad range of ethical subjects and themes.
- ❑ Offers a unique contribution to the study of moral philosophy and literature.
- ❑ Demonstrates how literary sources can add richness to discussions of real-life moral questions and dilemmas.

## The Weight of Things

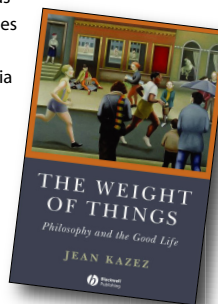

Philosophy and the Good Life

**JEAN KAZEZ**

Southern Methodist University

What does it mean to have a 'good life'? Is it a matter of choice or chance? In this engaging book, author Jean Kazez asks the perennial philosophical questions about what we should place at the center of our lives.

Incorporating the views of both past and present philosophers, as well as examples from history, literature, media and the news, this concise introduction to ethics and philosophy offers a unique opportunity for personal reflection.

Contemplating the importance of happiness, morality, self expression, desire, religion, and family, **THE WEIGHT OF THINGS** invites the reader to explore the difficult questions in our daily lives. Topics are animated by a colorful cast of characters, including fourth century hermits, *The Matrix's* Neo, a Wal-Mart clerk, runaway slaves, and Lance Armstrong, among others. **THE WEIGHT OF THINGS** is a fascinating and insightful search for answers.

## 10 Moral Paradoxes

**SAUL SMILANSKY**

University of Haifa

- ❑ It might have been a good thing to have been born into abject poverty.
- ❑ A justice system might punish unjustly to achieve perfect deterrence.
- ❑ 50% of competent middle-aged professionals ought to retire with immediate effect.
- ❑ If morality should be demanding, then we need bad things to happen.
- ❑ There's nothing especially bad about blackmail.

Are you troubled by these statements?

The importance of paradox in the study of philosophy, from metaphysics to logic, can be measured by the abundant literature on the subject. Until now, no critical literature on paradox in the study of ethics has been available.

The first of its kind, this cutting edge work of philosophical ethics makes a concrete case for the centrality of paradox within morality. Presenting ten diverse and original examples of moral paradox, this innovative volume asks whether the existence of moral paradox is damaging or beneficial, and explores what these procedures can teach us about morality and the human condition. Concise and provocative, this book presents analytic moral philosophy in an engaging and entertaining way; posing new questions, proposing possible solutions, and challenging the reader to wrestle with the paradoxes themselves.

## NEW KEY TEXTBOOK

## The Practice of Ethics

**HUGH LAFOLLETTE**

University of South Florida, Saint Petersburg

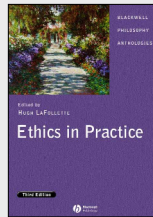

In **THE PRACTICE OF ETHICS**, Hugh LaFollette:

- ▣ Argues that ethics, like medicine, is fundamentally practical; the aim of ethics is not just to further ethical knowledge but to improve how people live
- ▣ Employs relevant insights from other academic disciplines
- ▣ Uses arguments and examples from contemporary issues such as race relations, euthanasia, gun control, and animal rights, to create a coherent narrative that is theoretically and pragmatically grounded.

Timely and engaging, this introductory text is an outstanding guide to the field of applied ethics, and is an excellent companion to the new third edition of LaFollette's authoritative anthology *Ethics in Practice*.

## NEW EDITION OF KEY TEXTBOOK

## Ethics in Practice

An Anthology  
Third Edition

Edited by  
**HUGH LAFOLLETTE**  
University of South Florida, Saint Petersburg

**SHORT CONTENTS:**  
General Introduction  
Theorizing about Ethics  
Reading Philosophy  
Ethical Theory

**Part I: Life and Death:**

Euthanasia  
Abortion  
Animals

**Part II: The Personal Life:**

Family and Reproductive Technology  
Sexuality

**Part III: Liberty and Equality:**

Paternalism and Risk  
Free Speech  
Sexual and Racial Discrimination  
Affirmative Action

**Part IV: Justice:**

Punishment  
Economic Justice  
World Hunger  
Environment  
War and Terrorism

*"This third edition of Ethics in Practice introduces new areas of controversy in applied and practical ethics, while most assuredly remaining the single best text one can go to for extensive coverage by some of the area's major figures."*

R. G. FREY, BOWLING GREEN STATE UNIVERSITY

Alongside coverage of familiar issues such as abortion, free speech, and affirmative action, the revised and expanded edition of this popular anthology now includes:

- ▣ New sections on ethical theory, and war and terrorism
- ▣ Many new or revised essays, including several newly written pieces.

The selections are accompanied by engaging and accessible introductions from the editor.

## Contemporary Debates in Applied Ethics

Edited by **ANDREW I. COHEN & CHRISTOPHER HEATH WELLMAN**

Georgia State University; Washington University, St. Louis

*"It's hard to think of a better general introduction to contemporary debates in applied ethics and public policy. The editors have enlisted well-known philosophers to pair off on particular controversies, and they do so ably and instructively. This volume will work well as a textbook for university courses."*

CHRISTOPHER MORRIS, UNIVERSITY OF MARYLAND

This innovative textbook features original essays on some of the most hotly debated issues in the field. Eleven pairs of newly commissioned essays shape the volume, with each question treated by a pair of opposing essays. Together, the essays provide an accessible introduction to the major topics in applied ethics.

Edited by **R.G. FREY & CHRISTOPHER HEATH WELLMAN**

Bowling Green State University; Washington University in St. Louis

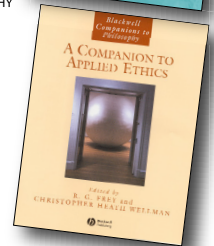

*"An important work, valuable for students, general readers and seasoned specialists."*

REFERENCE REVIEWS

In recent years, many important moral, social, and political issues have come under philosophical scrutiny, with the result that applied or practical ethics has become one of the largest areas of growth in philosophy. These specially commissioned essays by many of the leading figures in applied ethics track that growth.

## Torture and The Ticking Bomb

**BOB BRECHER**

University of Brighton

Do you really think torture is acceptable?

The controversial arguments of Harvard Law Professor Alan Dershowitz supporting the legitimacy of torture in so-called 'ticking bomb' scenarios represent the most sophisticated of today's attempts to make torture respectable. According to Bob Brecher, it is because both politicians and the general public are taking these arguments seriously that there is a pressing need to expose how spurious they are. The respectability these arguments confer on the view that torture is a legitimate weapon in the war on terror needs urgently to be countered.

This timely and passionate book is the first to address itself directly to the arguments for legalising the limited use of interrogational torture. Brecher takes on Dershowitz's arguments, drawing out the practical implications both for policy and for the sort of society we live in, confronting head-on the ethical implications of such a proposal.

## The Ethics of War

Classic and Contemporary Readings

**Edited by GREGORY M. REICHBERG, HENRIK SYSE & ENDRE BEGBY**

International Peace Research Institute, Oslo; International Peace Research Institute, Oslo; University of Pittsburgh

*"As a collection of key readings, each prefaced by editorial comment, it can scarcely be bettered."*

THE TIMES

**THE ETHICS OF WAR** is a much-needed anthology addressing issues both timely and age-old about the nature of war:

- When is recourse to arms morally justifiable?
- What moral constraints should apply to military conduct?
- How can a lasting peace be achieved?

Over the past two and a half millennia a substantive body of ethical reflection has emerged in response to these and similar questions. This volume offers a collection of texts by ancient, medieval, and modern thinkers. Never before have such seminal texts on the ethics of war been gathered together in a single volume. **THE ETHICS OF WAR** is an indispensable resource for philosophers, students, and general readers alike.

## Bioethics

An Anthology  
Second Edition

Edited by **HELGA KUHSE & PETER SINGER**

Monash University; Princeton University

*"An outstanding, up-to-date collection."*

DAN W. BROCK, HARVARD MEDICAL SCHOOL

Since it was first published in 1999, Helga Kuhse and Peter Singer's **BIOETHICS: AN ANTHOLOGY** has become established as the definitive one-volume collection of key primary readings in bioethics. Alongside coverage of issues such as reproduction, genetics, life and death, and animal experimentation, this expanded and revised edition now features:

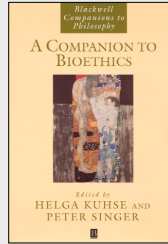

- Essays on hot topics such as genetic screening, the use of embryonic human stem cells, and resource allocation between patients
- New section introductions written by the editors, which shed light on the matters explored
- An extensive index, which makes it easy to navigate the text.

## Ethics and Infectious Disease

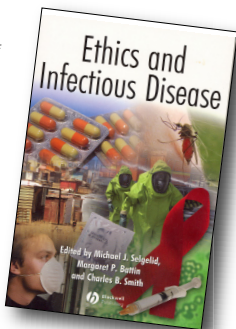

Edited by **MICHAEL J. SELGELID, MARGARET P. BATTIN & CHARLES B. SMITH**

Australian National University; University of Utah; University of Utah

Fear of emerging diseases such as AIDS, SARS, and avian flu - and current concerns about bioterrorism and antibiotic resistance - have pushed the issue of infectious disease to the center of public consciousness. Yet the subject has thus far been neglected by the discipline of bioethics. This timely collection corrects this omission, exploring a wide range of ethical issues arising in contexts involving contagion. Authored by prominent figures, the papers explore ethical issues associated with quarantine, vaccination policy, pandemic planning, biodefense, wildlife disease, medication practice, medical workers' duties to treat patients with dangerous contagious diseases, health care in developing countries, and numerous additional topics.

All royalties from this book will go to the Global Fund to Fight AIDS, Tuberculosis and Malaria.

## Stem Cell Research

The Ethical Issues

Edited by **LORI GRUEN, LAURA GRABEL & PETER SINGER**

Wesleyan University; Wesleyan University; Princeton University

In this timely collection, some of the world's leading ethicists grapple with the variety of issues posed by human embryonic stem cell research.

Topics addressed include:

- ☑ The moral status of the embryo
- ☑ The creation of chimeras, paying for gametes (eggs and sperm) and embryos for research purposes
- ☑ The ethics and politics of regulating HESC research
- ☑ Privacy, confidentiality, and informed consent in the conduct of research and clinical investigations.

**THE BLACKWELL GUIDE TO MEDICAL ETHICS** is a guide to the complex literature written on the increasingly dense topic of ethics in relation to the new technologies of medicine.

This groundbreaking collection:

- ☑ Examines the key ethical issues and debates which have resulted from the rapid advances in biomedical technology
- ☑ Brings together the leading scholars from a wide range of disciplines, including philosophy, medicine, theology and law, to discuss these issues
- ☑ Tackles such topics as ending life, patient choice, selling body parts, resourcing and confidentiality
- ☑ Is organized with a coherent structure that differentiates between the decisions of individuals and those of social policy.

## SERIES

## Foundations of Business Ethics

**Series Editors:**  
ROBERT E. FREDERICK &  
W. M. HOFFMAN

Both Bentley College

Written by an assembly of the most distinguished figures in business ethics, the **FOUNDATIONS OF BUSINESS ETHICS** series aims to explain and assess the fundamental issues that motivate interest in each of the main subjects of contemporary research. The volumes, which are complementary yet complete in themselves, allow instructors maximum flexibility in the design and presentation of course materials without sacrificing either depth of coverage or the discipline-based focus of many business courses. The volumes can be used separately or in combination with anthologies and case studies, depending on the needs and interests of the instructors and students.

## NEW

## Conscience and Corporate Culture

**KENNETH E. GOODPASTER**

University of St Thomas

To what ethical standards can we hold corporations? In the past few years, monumental corporate scandals have been emblazoned on every front page, but people have largely responded with ambivalence to events such as Enron's collapse and the tragedy of NASA's Columbia.

In **CONSCIENCE AND CORPORATE CULTURE**, Goodpaster:

- ▣ Sets out to identify the common patterns among such recent events
- ▣ Argues for the development of an ethical response
- ▣ Proposes that we should ask no more of corporations than we ask of ourselves morally, but neither should we ask less
- ▣ Takes an important step in advancing the constructive dialogue on corporate conscience.

Reporting on more than three decades of professional evolution, the book serves as a platform for communication between doers and thinkers on a subject that is profoundly difficult and important.

## NEW EDITION IN 2007

## Ethics in Finance

Second Edition

**JOHN BOATRIGHT**

Loyola University, Chicago

This comprehensive overview of ethical issues in finance focuses on practical issues that confront finance professionals and policy makers. The updated edition:

- ▣ Includes discussion of issues in mutual funds and financial engineering, the independence of analysts at investment banks, and the bank's responsibility for the conduct of its clients
- ▣ Features a new chapter on conflicts of interest in financial services, expanded treatment of ethical issues in IPOs, and a new discussion about the discarding of pension funds
- ▣ Cites examples of the scandals that have shaken public confidence in Wall Street.

## The Ethics of Executive Compensation

ROBERT W. KOLB  
University of Colorado, Boulder

Gathering for the first time into a single volume a series of talks delivered on this oft-debated topic at the 2004 Japha Symposium, this volume:

- ▣ Demonstrates the valuable results of a timely exchange of ideas regarding the nature of executive compensation
- ▣ Features discussions across academic disciplines, perspectives, and intellectual orientations
- ▣ Provides insights into the fundamental problems from a social and ethical perspective.

## Permission to Steal

Revealing the Roots of Corporate Scandal

LISA H. NEWTON  
Fairfield University

*"Permission to Steal reads like a whodunit: once you start reading it, you will find it difficult to put down."*

RONALD DUSKA, DIRECTOR OF THE AMERICAN COLLEGE CENTER FOR ETHICS IN FINANCIAL SERVICES

In **PERMISSION TO STEAL**, Lisa H. Newton:

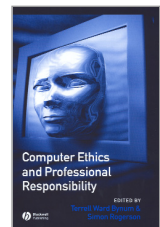

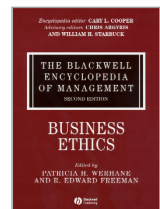

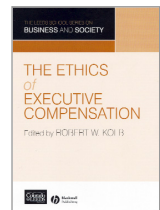

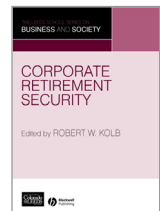

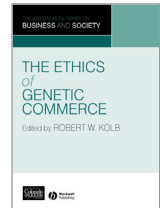

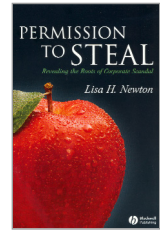

- ▣ Begins a much-needed reflection upon recent corporate disgraces that have taken place right under our noses
- ▣ Cites recent examples including Enron, Arthur Andersen, and WorldCom
- ▣ Explores what went wrong
- ▣ Advocates a universal reassessment of what is considered 'good' in corporate America so that we won't again fall victim to corporate thieves.

## Fundamentals of Philosophy

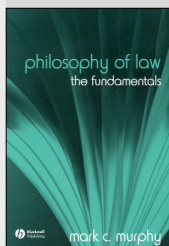

Series Editor: A. P. MARTINICH

University of Texas, Austin

Each volume in the **FUNDAMENTALS OF PHILOSOPHY** series covers a key area of study in philosophy. Written with verve by leading philosophers, these authoritative volumes look to reveal the fundamental issues and core problems that drive interest in the field.

See page 40 for *Ethics: The Fundamentals*See page 31 for *Philosophy of Religion: The Fundamentals*

## NEW

## Philosophy of Law

The Fundamentals

MARK C. MURPHY

Georgetown University

Beginning with the deceptively simple question 'What is law?', this wide-ranging text:

- ▣ Introduces readers to the basic analytical and normative issues in the field
- ▣ Discusses the concepts of law
- ▣ Highlights key historical and contemporary thinkers who have shaped the discourse
- ▣ Provides a unified treatment of the various issues in the philosophy of law.

Murphy frames the discussion with three central commonplaces about law: that it is authoritative, that it is a social matter, and that it is for the common good. Enlivened with numerous everyday examples, this text is an important resource for students coming to the subject for the first time.

## Contemporary Debates in Social Philosophy

Edited by **LAURENCE THOMAS**

*Syracuse University*

**CONTEMPORARY DEBATES IN SOCIAL PHILOSOPHY** is a collection of new essays addressing central issues in contemporary social philosophy, among them:

- ☐ Equality
- ☐ Scarce resources
- ☐ Violence
- ☐ Religious tolerance
- ☐ Sexual rights
- ☐ Privacy

Ten central questions shape the volume, with each question sparking a pair of opposing essays, summarizing the most important and forceful grounds of each position. Together, the essays provide an accessible introduction to the major topics in contemporary social philosophy.

## How to Make Opportunity Equal

Race and Contributive Justice

**PAUL GOMBERG**

*Chicago State University*

Distributive injustices such as inferior work, pay, healthcare and housing, as well as diminished opportunities in school continue to blight the lives of millions of the urban poor in America and beyond. This book announces a new theory of justice. Paul Gomberg:

- ☐ Focuses on how race and class inevitably structure unequal life prospects
- ☐ Shows how human society can be conceived and organized in a way that does not socialize children for lives of routine labor
- ☐ Proposes that true equality of opportunity comes only through both complex and routine labor being shared across a society.
- ☐ Proposes a new paradigm for the theory of justice. While Rawls, Sen, Nozick, and Walzer conceive justice as addressing how various goods are fairly obtained or distributed, Gomberg argues that justice in distribution must advance contributive opportunities and duties.

On Gomberg's contributive theory of justice, each person contributes to society not to profit for individual material gain, but from a sense of what is required in order to build just relations with others around them.

Passionate and radical, but never short of rigorously argued, this book makes a vital and original contribution to the intellectual landscape.

## Genocide's Aftermath

Responsibility and Repair

Edited by **CLAUDIA CARD & ARMEN T. MARSOOBIAN**

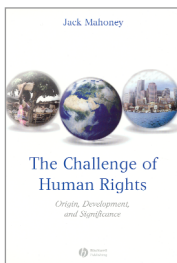

University of Wisconsin-Madison; Southern Connecticut State University

The twentieth century has been indelibly marked as the century of genocide. **GENOCIDE'S AFTERMATH** takes up the hard moral dilemmas that have arisen in the wake of genocide and crimes against humanity. As we now attempt to rethink U.S. history through the lens of genocide, many historical occurrences, such as the national policy of slavery and the forcible removal of Native Americans from their lands, must be re-examined in the light of what we now identify as genocide. From the questions of guilt to the consideration of reconciliation and reparations, this volume of original essays represents the latest research in the moral issues that have developed in the aftermath of a century of genocide.

## The Challenge of Human Rights

Origin, Development and Significance

**JACK MAHONEY**

University of London

In this illuminating study, Jack Mahoney surveys and critiques the emerging awareness in history of human rights as an invaluable ethical resource; chronicles their growing recognition and acceptance in modern times; analyses their contents, details, and philosophical basis; and illustrates their relevance and significance today.

Unparalleled in scope and clarity, this engaging book:

- ❑ Critically examines the arguments for human rights and offers an original defence for them
- ❑ Explores the meaning of human rights in the context of increasing globalization
- ❑ Confronts the major objections to human rights, including the charge of Western ethical imperialism and the counterclaims of cultural relativism.

Mahoney concludes that human rights are an indispensable addition to modern ethical resources and logically culminate in a cosmopolitan recognition of the whole human race as a single moral family.

NEW EDITION

## Making Sense of Human Rights

Second Edition

**JAMES W. NICKEL**

Arizona State University

*"A major contribution to the philosophical study of human rights."*

JOHN TASIIOULAS, UNIVERSITY OF OXFORD

This fully revised and extended edition of James Nickel's classic study explains and defends the conception of human rights found in the *Universal Declaration of Human Rights* (1948) and subsequent human rights treaties. Combining philosophical, legal and political approaches, Nickel addresses questions about what human rights are, what their content should be, and whether and how they can be justified.

After outlining the contemporary conception of human rights, and developing and applying an original framework for the justification of particular rights, Nickel goes on to defend contemporary lists of human rights, covering fundamental freedoms, due process rights, social rights, and minority rights. The book also considers the issue of cultural relativism and the prospects for worldwide acceptance of human rights. The texts of key human rights documents and treaties are included as appendices.

## Rawls's Law of Peoples

A Realistic Utopia?

Edited by REX MARTIN & DAVID REIDY

University of Kansas, Lawrence; University of Tennessee, Knoxville

John Rawls is considered the most important theorist of justice in much of western Europe and the English-speaking world more generally.

This insightful volume:

- ▣ Examines Rawls's theory of international justice as worked out in his last and perhaps most controversial book, *The Law of Peoples*
- ▣ Contains new and stimulating essays, some sympathetic, others critical, written by pre-eminent theorists in the field
- ▣ Situates Rawls's *The Law of Peoples* historically and methodologically, and examines all its key ingredients: its thin cosmopolitanism, its doctrine of human rights, its principles of global economic justice, and its normative theory of liberal foreign policy.

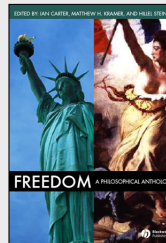

The book will set the terms of the debate on *The Law of Peoples* for years to come, thereby shaping broader debates about global justice.

NEW KEY TEXTBOOK

## Freedom

A Philosophical Anthology

Edited by IAN CARTER, MATTHEW H. KRAMER & HILLEL STEINER

University of Pavia; Churchill College, Cambridge; University of Manchester

The most substantial anthology on the philosophy of freedom ever compiled, this volume is a broad guide to the vast philosophical literature on the topic of social, political, and economic freedom. The esteemed editors:

- ▣ Focus on work completed over the last several decades
- ▣ Include foundational writings from historically significant philosophers such as Hobbes, Locke, Rousseau, Marx, Hegel, Bentham, Montesquieu, and Kant
- ▣ Address topics such as negative and positive freedom; government and arbitrary power; freedom and the mind; freedom and morality; coercion; autonomy; freedom, ability and economic inequality; and the value and measure of freedom.

Covering a wide diversity of political points of view, the range and quality of writings in this anthology make it an ideal and versatile course text.

## The Good Representative

SUZANNE DOVI

University of Arizona

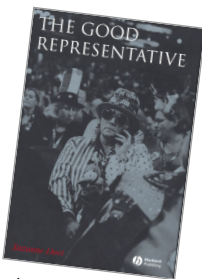

- ❑ Is President George W. Bush, by democratic standards, a good or a bad representative?
- ❑ Who is a better representative according to democratic standards: former Rep. Tom Delay or Senator Hilary Clinton?

Political theorists typically remain silent about the proper standards that democratic citizens should use for selecting their representatives. In **THE GOOD REPRESENTATIVE**, Suzanne Dovi argues that democratic citizens should evaluate their representatives using democratic criteria. In doing so, she provides an account of what it means to represent in a democratic fashion as well as a framework within which citizens can assess the democratic credentials of their representatives. For Dovi, good democratic representatives manifest three virtues: they must be fair-minded, build critical trust, and be good gatekeepers.

Arguing that democratic representation, even good democratic representation, is not always desirable, this provocative book also prompts us to think about how democratic representation can be a tool of liberation or a tool of domination.

This timely book articulates, for the first time, a normative framework within which democratic citizens can fruitfully proceed in assessing their representatives as democratic representatives.

## Republicanism and Political Theory

Edited by CÉCILE LABORDE  
& JOHN MAYNOR

University College, London; Middle  
Tennessee State University

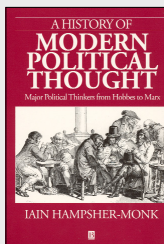

**REPUBLICANISM AND POLITICAL THEORY** is the first book to offer a comprehensive survey of republican political theory. This broad-ranging text:

- ❑ Critically assesses Republicanism's historical credentials, conceptual coherence, and normative proposals
- ❑ Presents a broad overview of contemporary republican political philosophy
- ❑ Brings together original contributions from leading international scholars such as Quentin Skinner, Philip Pettit and David Miller
- ❑ Reflects upon the contribution that republicans have made to our understanding of political life.

The volume focuses on four main areas: liberty in the Republican tradition; freedom as non-domination and its critics; the borders of Republicanism; and new Republican debates. The book also features a high degree of interaction between the writers in their essays, providing readers with valuable insight into the main debates taking place in republican political theory.

## Greek Political Thought

RYAN K. BALOT

University of Toronto

While ancient Greek thought is widely acknowledged as the major source of political ideals such as freedom and equality, ancient Greek practices including slavery, the subordination of women, and imperialism have been condemned as undemocratic and immoral. So is ancient Greek political thought still relevant today? In this provocative and wide-ranging history, Ryan Balot shows what ancient Greek political texts might mean to citizens of the twenty-first century.

## Political Keywords

A Guide for Students, Activists, and Everyone Else

ANDREW LEVINE

University of Maryland, College Park

Recent history has seen profound change in the world's political landscape. With that change, the definitions of the words that we use to describe our politics have become muddled. Frequently confusing, and often intentionally misleading, this language can be easily distorted in order to spin disputed ideas or justify questionable actions. These circumstances introduce a critical need for precision in our political speech.

Reflecting upon the current state of affairs, renowned political philosopher Andrew Levine's **POLITICAL KEYWORDS**:

- ❑ Refamiliarizes the reader with today's most commonly used and misused terms
- ❑ Presents a timely dictionary of contemporary political vernacular from 'alienation' to 'Zionism'
- ❑ Includes extensive cross-referencing, suggested further readings, and a comprehensive glossary
- ❑ Navigates a landscape of dangerously vague terms.

## Contemporary Political Philosophy

An Anthology  
 Second Edition

Edited by **ROBERT E. GOODIN & PHILIP PETTIT**

Australian National University; Princeton University

### SHORT CONTENTS

**Part I:** State & Society

**Part II:** Democracy

**Part III:** Justice

**Part IV:** Rights

**Part V:** Liberty

**Part VI:** Equality

**Part VII:** Oppression

**Part VIII:**

International Affairs

This monumental volume provides the most comprehensive and authoritative collection of the essential primary readings in post-war political philosophy.

The anthology includes classic articles on the nature of the state, democracy, justice, rights, liberty, equality, and oppression. It sets work in politics, law, and economics alongside philosophical texts; work of continental philosophers alongside analytic philosophers; work of feminists, marxists, and other radicals alongside that of more traditional liberals.

This new edition:

- ❑ Updates the existing sections, taking into account recent developments in the field
- ❑ Includes a new section of articles reflecting the pressing interests in international affairs - just war, self-determination and the nation state, and global governance.

Together with *A Companion to Contemporary Political Philosophy* (Blackwell, 1993), this volume forms the basis for a truly systematic introduction to political philosophy as it is practiced today.

## Feminist Theory

A Philosophical Anthology

Edited by  
**ANN E. CUDD &  
ROBIN O. ANDREASEN**  
University of Kansas; University of  
Delaware

*"This excellent collection of foundational and groundbreaking readings in feminist philosophy displays the impressive breadth of feminist contributions to the field."*

MARILYN FRIEDMAN, WASHINGTON UNIVERSITY

**FEMINIST THEORY: A PHILOSOPHICAL ANTHOLOGY** addresses seven philosophically significant questions regarding feminism, its central concepts of sex and gender, and the project of centering women's experience.

- ☑ Topics covered include the nature of sexist oppression, the sex/gender distinction, how gender-based norms influence conceptions of rationality, knowledge, and scientific objectivity, feminist ethics, feminist perspectives on self and autonomy, whether there exist distinct feminine moral perspectives, and what would comprise true liberation
- ☑ Features an introductory overview illustrating the development of feminism as a philosophical movement
- ☑ Contains both classic and contemporary sources of feminist thought, including selections by Mary Wollstonecraft, John Stuart Mill, Simone de Beauvoir, Kate Millet, bell hooks, Marilyn Frye, Martha Nussbaum, Louise Antony, Sally Haslanger, Helen Longino, Marilyn Friedman, Catharine MacKinnon, and Drucilla Cornell.

## The Blackwell Guide to Feminist Philosophy

Edited by **LINDA MARTÍN ALCOFF & EVA FEDER KITTAY**

Syracuse University; Stony Brook University

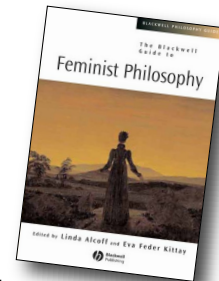

Over the past 30 years, philosophy has become a vital arena for feminists. Recent feminist work has challenged canonical claims about the role of women and has developed new methods of analysis and critique, and in so doing has reinvigorated central areas of philosophy.

**THE BLACKWELL GUIDE TO FEMINIST PHILOSOPHY** is a definitive introduction to the field, consisting of fifteen newly written essays that apply philosophical methods and approaches to feminist concerns. From analyses of women in the history of philosophy to the relation of feminism to topics such as pragmatism, epistemology, political philosophy, aesthetics and phenomenology, the **GUIDE** is an excellent resource for those who wish to explore how feminist philosophy is transforming the very nature of philosophical inquiry.

Educational Adequacy and Equality  
Diversity and Nondiscrimination  
Impairment, Disability, and Excellence

### Part IV: Teaching and Learning:

Teaching  
Discipline and Care  
Inquiry, Understanding, and Constructivism  
Critical Thinking and Reasoning  
Grading and Testing

### Part V: Curriculum and the Content of Schooling

Moral Education  
Curricular Controversies

### Index

This volume:

- ☑ Provides the most comprehensive and systematic collection of essential writings on the philosophy of education
- ☑ Offers a balanced treatment of the fundamental questions and philosophical issues regarding the nature and aims of education, as well as the central debates in current educational policy
- ☑ Explores topics such as teacher professionalism and accountability, the commercialization of schooling, multicultural education, parental choice, educational equality and disabilities, and curricular controversies.

Selected for their focus on important issues of educational practice as well as their philosophical merit and readability, the readings include seminal selections from Plato, Aristotle, Socrates, Locke, Rousseau, Mill, and Dewey, as well as numerous contemporary writings. The five major sections of the text correspond to the five basic normative dimensions of educational practice: its nature and aims, the authority it rests on, its responsibilities, the manner in which it is conducted, and the content that is communicated or learned. This innovative framework gives the collection its comprehensive scope, while keeping the focus on the fundamental philosophical issues of educational practice and policy.

## Postfoundationalist Themes in the Philosophy of Education

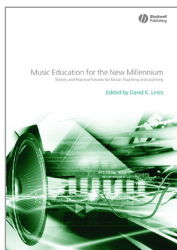

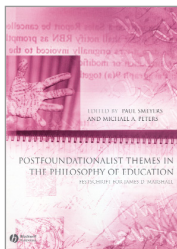

Festschrift for James D. Marshall

**Edited by PAUL SMEYERS & MICHAEL A. PETERS**

*Catholic University of Leuven; University of Illinois at Urbana-Champaign*

James D. Marshall has been active in the philosophy of education for three decades. This collection takes Marshall's work as its starting point. It contains essays dealing with various aspects of his work: particularly his long-standing criticism of the 'performativity' of the public education system of New Zealand, and his work considering the relevance of Wittgenstein and Foucault for various problems in the philosophy of education. There are tributes to Marshall in the form of interviews and testimonials, and a bibliography and remarks from Marshall himself in response to the commentaries of his colleagues.

## The Learning Society from the Perspective of Governmentality

**Edited by JAN MASSCHELEIN, MAARTEN SIMONS, ULRICH BRÖCKLING & LUDWIG A. PONGRATZ**

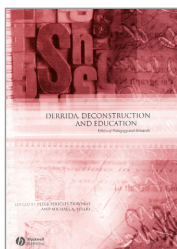

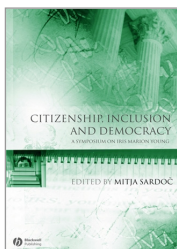

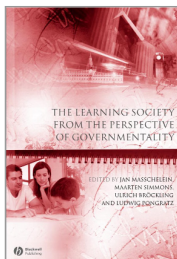

*Catholic University of Leuven; Catholic University of Leuven; University of Konstanz; Technical University of Darmstadt*

This collection considers different educational ideas and programmes of enlightenment, creativity, participation, inclusion, learning and critique all from the perspective of 'governmentality'.

The volume:

- ☑ Offers an enlightening study of the ideas and programmes of education as being part of the history of the ways in which human beings conduct and govern themselves and others in the light of specific truth games
- ☑ Investigates the intrinsic relationship between intellectual and practical educational technologies
- ☑ Looks at how educational practice and educational theory have played a constitutive role in practices of subjectivation which are crucial to our 'learning societies'.

## Music Education for the New Millennium

Theory and Practice Futures for Music Teaching and Learning

**Edited by DAVID K. LINES**

*University of Auckland*

Recent years have seen rapid changes in the ways in which music is produced, disseminated and received. This volume brings together leading theorists in order to explore what these changes mean for music education in the new millennium.

In a series of thought-provoking essays, the contributors:

- ☑ Consider how musicians and music educators might relate to changing music perspectives and music phenomena in contemporary society
- ☑ Address themes such as pragmatism, performativity, cultural identity, emotion, autonomy and globalization
- ☑ Challenge readers to think about what music means in contemporary society, and asks how music education can remain culturally relevant in the twenty-first century.

**SERIES:** EDUCATIONAL PHILOSOPHY AND THEORY SPECIAL ISSUES

## Citizenship, Inclusion and Democracy

A Symposium on Iris Marion Young

**Edited by MITJA SARDOČ**

*Educational Research Institute, Ljubljana*

In this monograph, six expertly written essays discuss the importance of the contemporary political philosopher Iris Marion Young's theoretical work and critical social analysis on the topics of differentiated citizenship, group-based politics, social justice, difference, democracy, equality, and inclusion, with particular focus on the educational import of these issues. Concluding with a reply from Young, this collection illuminates the discussion about the centrality of public education in a modern, pluralistic society.

## Conformism and Critique in Liberal Society

Edited by FRIEDA HEYTING & CHRISTOPHER WINCH

University of Amsterdam; Kings College, London

The role of critique in education receives intense scrutiny in philosophy of education, both in Europe and in North America. This volume, which includes contributions from authors in nine different countries, brings together a range of contrasting European and Anglophone perspectives on this issue motivated by a concern for social justice and improvement in education.

## Aesthetics

A Comprehensive Anthology

Edited by **STEVEN M. CAHN & AARON MESKIN**

City University of New York; University of Leeds

The appreciation of art and the pursuit of beauty are fundamental elements of human life, and for almost as long as we have engaged in philosophical inquiry we have been theorizing about aesthetic matters.

Covering nearly 2,500 years of theory and analysis, this anthology:

- Offers the most comprehensive collection of readings on aesthetics and philosophy of art available
- Showcases classic texts that speak for themselves in showing the development of aesthetic thought, from Plato's *Ion* to work by contemporary philosophers of art.

Thorough, systematic, and flexible, this volume is an ideal guide to the field and makes an excellent textbook for a variety of courses in philosophical aesthetics.

### FEATURED PHILOSOPHERS INCLUDE:

Theodor Adorno ■ Aristotle ■ St. Augustine ■ Monroe Beardsley ■ Clive Bell ■ Walter Benjamin ■ St. Bonaventure ■ Edward Bullough ■ Sir Edmund Burke ■ Steven Cahn ■ Allen Carlson ■ Noël Carroll ■ Stanley Cavell ■ R.G. Collingwood ■ Benedetto Croce ■ Arthur Danto ■ Mary Deveraux ■ John Dewey ■ George Dickie ■ Hans-Georg Gadamer ■ Berys Gaut ■ Nelson Goodman ■ Eduard Hanslick ■ Georg W.F. Hegel ■ Martin Heidegger ■ David Hume ■ Francis Hutcheson ■ Christopher Janaway ■ Immanuel Kant ■ Peter Kivy ■ Paul Oskar Kristeller ■ Susanne Langer ■ Gotthold Lessing ■ Jerrold Levinson ■ Aaron Meskin ■ May Mothersill ■ Alexander Nehamas ■ Friedrich Nietzsche ■ Plato ■ Plotinus ■ Jenefer Robinson ■ Friedrich J.W. Schelling ■ Friedrich Schiller ■ Arthur Schopenhauer ■ Third Earl of Shaftesbury ■ Frank Sibley ■ Guy Sircello ■ Leo Tolstoy ■ Kendall Walton ■ Morris Weitz ■ W.K. Wimsatt ■ Richard Wollheim

## Contemporary Debates in Aesthetics and the Philosophy of Art

Edited by **MATTHEW KIERAN**

University of Leeds

*"An excellent central text for a cutting-edge course on the subject."*

PAISLEY LIVINGSTON, LINGNAN UNIVERSITY

**CONTEMPORARY DEBATES IN AESTHETICS AND THE PHILOSOPHY OF ART** features 22 original essays by leading authors in aesthetics and the philosophy of art. A pair of contrasting essays addresses each of eleven distinct issues, including the nature of beauty, aesthetic experience, artistic value, and the nature of our emotional responses to art.

## An Introduction to Kant's Aesthetics

Core Concepts and Problems

**CHRISTIAN HELMUT WENZEL**

National Chi Nan University

*"An invaluable aid for all serious students of Kant's third Critique."*

KARL AMERIKS, UNIVERSITY OF NOTRE DAME

Kant's *Critique of the Power of Judgment* is one of the most important and enduring contributions to philosophical aesthetics. It is also notoriously difficult. In **AN INTRODUCTION TO KANT'S AESTHETICS**, Christian Wenzel discusses and demystifies this seminal work, guiding the reader each step of the way, placing key points of discussion in the context of Kant's other work.

## Aesthetics and the Philosophy of Art

The Analytic Tradition: An Anthology

Edited by **PETER LAMARQUE & STEIN HAUGOM OLSEN**

University of York; Lingnan University

*"A sparkling compilation of essential readings, balancing classics in analytic aesthetics with recent developments, all skilfully arranged to capture every reader's interests. An incomparable achievement."*

DOMINIC MCIVER LOPES, UNIVERSITY OF BRITISH COLUMBIA

This anthology provides comprehensive coverage of the major contributions of analytic philosophy to aesthetics and the philosophy of art, from the earliest beginnings in the 1950s to the present time. The volume presents the classics of this tradition, and in so doing displays the very foundations of modern debates. **AESTHETICS AND THE PHILOSOPHY OF ART** also features a selection of key papers from subsequent contributors that illustrate how the debates developed and how issues arose as analytic philosophers increasingly turned their attention to this area.

### FEATURED PHILOSOPHERS INCLUDE:

## The Philosophy of Art

STEPHEN DAVIES

University of Auckland

*"This book sets a new standard for introductory books in aesthetics and philosophy of art... Davies's book is a pleasure to read and manages to enliven both philosophy and the way we think about the arts in general."*

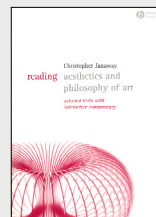

SUSAN FEAGIN, TEMPLE UNIVERSITY

In this engaging text, Stephen Davies:

- ❑ Provides an incisive account of the core subjects and questions in contemporary philosophy of art
- ❑ Offers thoughtful and provocative discussion for anyone interested in the nature and appreciation of art
- ❑ Explores the interpretation of art; the relation between art, culture, and our evolutionary heritage; the expression and arousal of emotion through art; the challenges posed by varieties of art over time and across cultures; and provocative puzzles about the value of art
- ❑ Features full-color illustrations, vibrant examples, and questions for further reflection.

## Reading Aesthetics and Philosophy of Art

Selected Texts with Interactive Commentary

CHRISTOPHER JANAWAY

University of Southampton

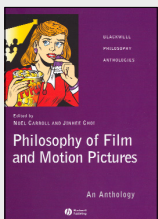

Designed for readers with no or little prior knowledge of the subject, this concise anthology brings together key texts in aesthetics and the philosophy of art.

This innovative textbook features:

- ❑ A volume introduction from the editor, which outlines the principle concerns in the field
- ❑ Two contrasting views on each of six topics, with the texts either reprinted in their entirety or extracted where appropriate
- ❑ A variety of texts, ranging from Plato's famous critique of art in the *Republic*, through Nietzsche's *The Birth of Tragedy*, to Barthes' *The Death of the Author* and pieces in recent philosophical aesthetics from a number of traditions
- ❑ An interactive editorial commentary, which helps the reader to engage with the philosophical train of thought, explains the argumentative and historical context in which the piece was written, and draws out related methodological issues
- ❑ Questions for debate and a short annotated bibliography.

## Philosophy of Film and Motion Pictures

An Anthology

Edited by NOËL CARROLL & JINHEE CHOI

Temple University; Carleton University

*"An ideal introduction to the field of analytic film theory for students of philosophy and film alike."*

RICHARD ALLEN, NEW YORK UNIVERSITY

This authoritative anthology presents key selections from the best contemporary work in philosophy of film and motion pictures.

The volume's eight sections, each introduced by the editors, cover topics such as:

- Film as art
- The nature of film
- Documentary cinema
- Narration and emotion in film
- Film criticism
- Film's relation to knowledge and morality.

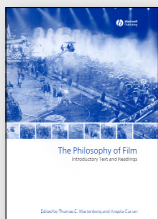

Whether addressing assumptions about the objectivity of documentary film, fear of movie monsters, or moral questions surrounding the viewing of pornography, this text is replete with examples and discussion of moving pictures throughout.

## KEY TEXTBOOK

## The Philosophy of Film

Introductory Text and Readings

Edited by THOMAS E. WARTENBERG & ANGELA CURRAN

Mount Holyoke College; Carleton College

*"Bringing together important writings by prominent philosophers and film theorists, this volume of readings with useful editorial commentary will prove a valuable resource for students of the philosophy of film."*

BERYS GAUT, UNIVERSITY OF ST ANDREWS

Organized around a series of philosophical questions about film, this volume offers an accessible and engaging overview of the discipline. Readings from contrasting angles and points of view discuss the value of film theory, the nature of film narration, the debate on whether films can be socially critical, and the question of what we can learn from film.

## NEW

## Comedy Incarnate

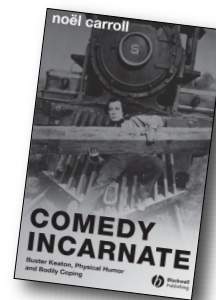

Buster Keaton, Physical Humor, and Bodily Coping

NOËL CARROLL

Temple University

**COMEDY INCARNATE** explores the intricacies of Buster Keaton's unique visual style to discover what provokes laughter in his timeless films, paying special attention to *The General*. Keaton's precise body comedy, coupled with his unconventional directorial decisions, suggests a new way of analyzing the film in terms of its visual elements as opposed to its narrative. Written by one of America's foremost film theorists, this in-depth examination of the comedy of the steam, steel and railroad era will provide a fresh vantage point for analysis of film and comedy itself.

## Thinking Through Cinema

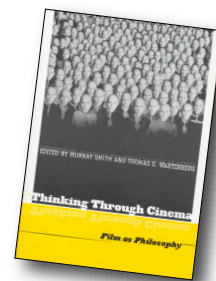

Film as Philosophy

Edited by MURRAY SMITH & THOMAS E. WARTENBERG

University of Kent; Mount Holyoke College

This collection brings together a wide range of contributors, including both philosophers and film scholars to address the question of whether philosophy can take the form of, or be articulated through, film. The contributors canvas a wide variety of forms and periods of film as they present diverse answers to this question.

JUNE 2006 - 200 PAGES - 1-4051-5411-X [ISBN13: 978-1-4051-5411-6] PB

## The Art of Theater

JAMES R. HAMILTON

Kansas State University

Are theatrical performances merely interpretations of works of dramatic literature?

Theatrical performances change according to a number of influences, from audience and cast, to time and place. Our actual experiences in viewing theatrical performances reflect this truth; we understand that when we see a play, we are seeing a particular director and casts' vision and artistry. The Art of Theater argues that performance is, and has always been, an art form in its own right, distinct from the literary texts that it uses. It is an affirmation of how we actually encounter theater, and Hamilton gives us the tools to identify the fundamental elements that are needed to grasp the independence of theatrical performance.

Examining the competing views of text-performance and performer-audience relationships, The Art of Theater applies a philosophical approach to the understanding, interpretation and appreciation of theatrical art.

## The Performance of Reading

An Essay in the Philosophy of Literature

PETER KIVY

Rutgers University

*"The Performance of Reading is sure to have the leading journals of aesthetics buzzing with debate, and will also attract and repay the close attention of literary theorists."*

NOËL CARROLL, TEMPLE UNIVERSITY

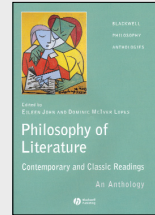

Of the arts, some are performing arts and some are not. There are performances of musical works, but not of paintings. Literature, in this regard, is a mixed bag. Plays are performed; novels, short stories, and narrative poems are not. And although one can read a play to oneself, or read a novel aloud as a kind of performance, a play is intended to be performed while the contemporary novel is intended to be silently read. But the printed word in its earliest days did not signify silent reading. And in the ancient world, those who could read would read aloud to themselves. The advent of silent reading is relatively new in our history.

In this insightful and provocative essay, Peter Kivy argues that:

- There are distinct analogies between 'silent' reading and performance
- Readers have an 'experience' when they read silently to themselves akin to the experience one would have had when the rhapsode recited Homer to the citizens of Plato's Athens
- Readers are performers of the works they read, their performances recitations to the 'inner ear'.

## The Philosophy of Literature

Contemporary and Classic Readings: An Anthology

EILEEN JOHN & DOMINIC MCVIVER LOPES

University of Warwick; University of British Columbia

*"This collection provides an ideal introduction to the issues that draw analytic philosophers to literature. It brings together an extraordinary array of the most vital, influential, and sophisticated essays published by philosophers of literature in the past three decades."*

STEPHEN DAVIES, UNIVERSITY OF AUCKLAND

- Collects together for the first time the essential readings in the philosophy of literature
- Contains 45 substantial and carefully chosen essays and extracts
- Provides a balanced and coherent overview of developments in the field during the past 30 years, including influential work on fiction, interpretation, metaphor, literary value, and the definition and ontology of literature
- Includes an additional historical section featuring generous selections of the writings of early pioneers such as Plato, Aristotle, Nietzsche, and Hume
- Serves as an ideal introduction to the philosophy of literature or the philosophy of art, as well as a handy compilation of contributions to the field by its leading figures.

## Art: History: Visual: Culture

Edited by **DEBORAH CHERRY**

*University of the Arts, London*

This major collection of essays:

- ☑ Brings together innovative scholarship on visual culture and its relationship to art history
- ☑ Draws on a wide range of cultures, locations and historical periods
- ☑ Considers theories of visuality, looking and the gaze
- ☑ Explores the ways in which art history exceeds the visual, offering more than a study of images
- ☑ Makes connections between vision and space, between vision and the body, and between vision, aesthetics and the senses.

## Between Luxury and the Everyday

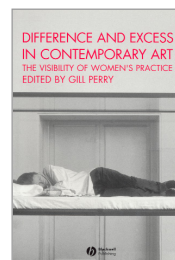

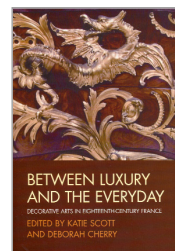

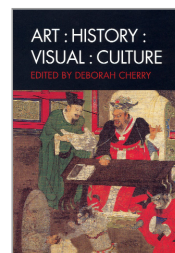

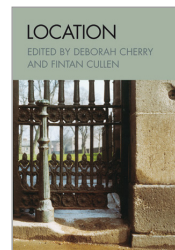

Decorative Arts in Eighteenth-century France

Edited by **KATIE SCOTT & DEBORAH CHERRY**

*Courtauld Institute of Art; University of the Arts, London*

This exciting collection of essays by leading scholars redefines the study of the decorative arts in eighteenth-century France. Moving between broader accounts of the impact of Enlightenment philosophy in shaping an understanding of the 'decorative arts' and case studies of silks, furniture and architecture, it illuminates the material worlds of consumers from the extravagance of the court to the more modest tastes of middle-class families.
