ELECTRONIC SUBMISSION OF MANUSCRIPTS

FILE DESCRIPTION FORM

We require a word-processed file of your manuscript.

- Include all parts of the text, including figure captions and all tables in a single file.

- The final version of the hard copy and the file on disk must be the same.

- Do not use the carriage return (enter) at the end of lines within a paragraph.

- Turn the hyphenation option off.

- Complete and enclose the File Description Form (over).

- On the File Description Form, specify any special characters used to represent non-keyboard characters.

- Take care not to use l (ell) for 1 (one), O (capital o) for 0 (zero) or ß (German esszett) for β (beta).

- Use a tab, not spaces, to separate data points in tables.

- If you use a table editor function, ensure that each data point is contained within a unique cell, i.e. do not use carriage returns within cells.

- Tables should not be supplied as PowerPoint images or graphics.

- Save figures in as many different formats as are available to you; we may be able to use one of them. Encapsulated Postscript (EPS) files can usually be used, but cannot be modified. Each figure should be saved as a separate file. Always enclose a hard copy of figures and tables.
