Schools Out.

A conference for students, teachers, museum and gallery educators and workers in art, design and media education and curriculum innovation. This event provides an opportunity for all involved in establishing equality in art education in relation to gender and sexuality. The conference provides a platform for artists, museum and gallery educators, students in schools and colleges, student teachers, teachers in primary, secondary, further and higher education, workers in trade unions and professional associations to come together to share experiences and to promote novel and effective learning and teaching strategies.

The objective of the day is to expand art, design and media education to meet the expectations of lesbian, gay, bisexual and transgender students and teachers. We also warmly welcome delegates from local and national government involved in education and equality issues, particularly in relation to the visual arts and curriculum development.
