NEW SPECIAL COLLECTION

Our special collections bring together articles that have already been published in the journal, around one hot topic. All are FREE to view and enable you to read essential research, reviews and viewpoints.

NEW: Special Collection: Cannabinoid System (April 2011)

Stemming from the centuries-old and well known effects of Cannabis on intestinal motility and secretion, research on the role of the endocannabinoid system in gut function and dysfunction has received ever increasing attention since the discovery of the cannabinoid receptors and their endogenous ligands, the endocannabinoids. In this article, some of the most recent developments in this field are discussed, with particular emphasis on new data, most of which are published in Neurogastroenterology & Motility, on the potential tonic endocannabinoid control of intestinal motility, the function of cannabinoid type-1 (CB1) receptors in gastric function, visceral pain, inflammation and sepsis, the emerging role of cannabinoid type-2 (CB2) receptors in the gut, and the pharmacology of endocannabinoid-related molecules and plant cannabinoids not necessarily acting via cannabinoid CB1 and CB2 receptors.

Gut feelings about the endocannabinoid system - V. Di Marzo, F. Piscitelli (featured in the new Special Collection)

2011 MEETINGS

www.uegw11.uegf.org/
Stockholmsmässan | Mässvägen 1, Älvsjö | 125 80
Stockholm | Sweden

Frontiers in Gastrointestinal Translational Research | University Hospital Gasthuisberg | Belgium

June 16, 2011 – June 17, 2011
GFNG – French Society Annual Meeting | Hôpital de Larchet | Nice | France

September 23, 2011 – September 24, 2011
Professional Trainee Course ‘Multidisciplinary Management of complications in GI care’ | University Hospital | Eppendorf | Germany

December 8, 2011 – December 10, 2011
European Pediatric Motility Meeting | Academic Medical Center | Amsterdam | The Netherlands

Please see www.esnm.eu for further information on ESNM Endorsed Events

SOCIETY NEWS | ANMS/FBG

The ANMS/FBG is hosting its 16th Neurogastroenterology & Motility Meeting and 6th Postgraduate Course on Gastrointestinal Motility & Neurogastroenterology in Clinical Practice and Young Investigator Forum
Visit www.motilitysociety.org for updates

Dates to remember:
Registration discount if registered by July 15, 2011

Meeting Dates: September 16-18, 2011
Location: Hyatt Regency at the Arch, St. Louis, Missouri, USA

The programme will include:
- Scientific presentations
- State-of-the-art lectures
- Live demonstrations of motility procedures
- Workshops by renowned faculty
- Young Investigator Forum

Grant Programme: We will be accepting applications in August to award two research projects focused on any topic area relevant to neurogastroenterology and motility. It is anticipated that one award will be made to a clinical/translational investigator and one award will be made to a basic science investigator. Applicants must be members of the ANMS/FBG. The application deadline is November 11, 2011.

SOCIETY NEWS | ESNM

At the Digestive Disease Week 2011, held in Chicago USA in May the AGA presented its annual Masters Awards in Gastroenterology.

These awards aim to recognize and celebrate the achievements of the best and brightest in the field of Gastroenterology.

The ESNM would like to congratulate Prof. Paul Enck who was awarded the Masters Award for Sustained Achievement in Digestive Sciences.

Preparations for the 2012 NGM Joint Society Meeting are on track to be held in Bologna, Italy, September 6-8, 2012.

The website is currently under construction and will be available soon with more information and programme details, towards the middle of the year.
