

Invitation to contribute to *Viewpoints*

The *NRF, A United Nations Sustainable Development Journal* is inviting your views on the following question for the *Viewpoints* section of the May 2010 issue:

“What issues related to chemicals management have international agreements failed to address, particularly in developing countries? What concrete measures would help address these issues?”

The *Viewpoints* section offers a platform for academics, practitioners and experts to share their perspectives and to feature these perspectives alongside other thoughtful responses in the journal. Each entry should be **200 words or less** addressing the above question. Our Editorial team will select those contributions that address an important dimension of the debate.

The deadline for submission to the *Viewpoints* for the May 2010 issue is: **28 February 2010**.

We look forward to receiving many contributions at nrforum@un.org. When submitting a contribution, please provide your name, title, affiliation and contact details.
