FORTHCOMING

The **BLACKWELL ENCYCLOPEDIA OF SOCIOLOGY** will be published in 2006. It is a major undertaking with approximately 1700 entries (ranging in length from 500 to 6000 words) in A-Z format across at least twelve volumes. In short, it will be the most ambitious and comprehensive reference work in the field. The encyclopedia will be available in both print and online formats.

This revolutionary project will bring together specially commissioned entries written and edited by an international team of the world's best scholars and teachers. It will provide:

THE DEFINITIVE SOCIOLOGY REFERENCE SOURCE!

The Blackwell Encyclopedia of Sociology

Edited by **GEORGE RITZER**
University of Maryland

- ⊙ Clear, concise, expert definitions and explanations of the key concepts
- ⊙ An essential reference for expert and newcomer alike, with entries ranging from extended explorations of major topics to short definitions of key terms
- ⊙ Coverage of topics that have historically defined the discipline, but also more recent developments, significantly updating the store of sociological knowledge
- ⊙ Introductions to sociological theories and research that have developed outside the United States and Western Europe
- ⊙ Sophisticated cross-referencing and search facilities
- ⊙ Lexicon by subject area, bibliography, and index.

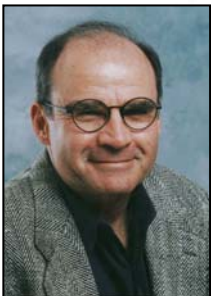

The **ENCYCLOPEDIA** will be a central resource at college and university libraries, as well as major public libraries. It will be an indispensable source for many years, informing much work done in the social and cultural sciences.

Work on the project has been divided into 32 editorial areas, each of which has a specially selected advisory editor from an international team of eminent scholars (the **ENCYCLOPEDIA** itself is in A-Z format):

Editorial Areas: Consumption · Crime and Delinquency · Culture · Demography/Population · Deviance · Economic Sociology · Education · Family · Gender · Gerontology, Friendship and General Sociology · Health and Medicine · Interaction, Groups and Socialization · Key Concepts in Sociology · Media · Methods · Organizations · Politics · Popular Culture · Race/Ethnicity · Religion · Science · Sexuality · Social Change · Social Movements/Collective Behavior · Social Problems · Social Psychology · Social Stratification · Sociology of East Asia · Sociology of Management · Sport · Theory · Urbanization

For further details on advisory editors and contributors together with a provisional list of entries, see www.sociologyencyclopedia.com

ABOUT THE EDITOR

George Ritzer is Distinguished University Professor of Sociology at the University of Maryland. He was awarded the 2000 Distinguished Contributions to Teaching Award by the ASA. In 2004 he received an honorary doctorate from LaTrobe University. He has authored more than 25 books, including *The Globalization of Nothing* (2004), *McDonaldization: The Reader* (2002), and *The McDonaldization Thesis* (1998). He is editor of a two-volume *Encyclopedia of Social Theory* (2005) and *The Blackwell Companion to Major Social Theorists* (2000, see page 10).

WWW.SOCIOLOGYENCYCLOPEDIA.COM

This dedicated website is a central resource for managing the project as well as up to date information on the encyclopedia.

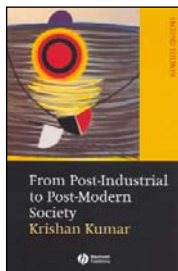

Blackwell Encyclopedia of Sociology ONLINE

The **ENCYCLOPEDIA** will be available online as well as in print. It will incorporate superior searching facilities and advanced navigation. This will maximize the number of students and researchers with access to the encyclopedia, giving users the extra benefits of the reference material being in one place and fully searchable.

Further details will follow on www.sociologyencyclopedia.com

NEW EDITION

From Post-Industrial to Post-Modern Society

New Theories of the Contemporary World

Second Edition

KRISHAN KUMAR

University of Virginia

"This superb book, which has been essential reading since its original publication, now includes a major new introductory chapter, covering theories of globalization and multiple modernities. Kumar manages to be both judicious and provocative, comprehensive and clear, magisterial and readable. The book is an indispensable guide to these highly contested yet inescapable attempts to theorize modern societies."

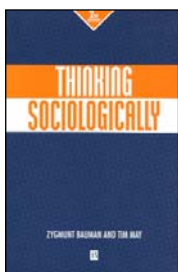

WILLIAM OUTHWAITE, UNIVERSITY OF SUSSEX

"From Post-Industrial to Post-Modern Society has established itself as an incomparable classic of modern sociology. The second edition extends the range of the original text to address new problems of globalism, and thereby integrates the globalization debate into concerns about postmodernity. A singular achievement."

BRYAN TURNER, UNIVERSITY OF CAMBRIDGE

In the second edition of this classic study, Krishan Kumar introduces and assesses the rival claims of three theories crucial to an understanding of contemporary social theory: the information society, post-Fordism, and post-modernism. Explaining how these theories developed and why they have held such an appeal, the author provides the most readable and evenly-balanced account of three very different, but overlapping paradigms. In a new and substantial introduction, Kumar places these key approaches within the context of contemporary discourse on globalization. **FROM POST INDUSTRIAL TO POST-MODERN SOCIETY** is essential reading for anyone seeking to understand contemporary theories of social, cultural, and economic change.

304 PAGES / 1-4051-1429-0 PB / OCTOBER 2004

BESTSELLER

Thinking Sociologically

Second Edition

ZYGMENT BAUMAN & TIM MAY

Universities of Leeds; University of Salford

*"In the first edition of **Thinking Sociologically**, Bauman created a very personal yet inspiring view of sociology as a liberating discipline. In the second edition, Bauman and collaborator Tim May have added new topics – time and space, intimacy, and risk – that have kept the visionary gleam of the original. In showing how sociology can illuminate the rhythms of everyday life, this new edition will enthuse a new generation of students."*

NICK ABERCROMBIE, LANCASTER UNIVERSITY

"Highly recommended for undergraduate and general readers."

CHOICE

In this lucid, stimulating and original book, Zygmunt Bauman and Tim May explore the underlying assumptions and tacit expectations which structure our view of the world. The authors elucidate key concepts in sociology: for example, individualism versus community, and privilege versus deprivation. While charting a course through sociology's main concerns, Bauman and May also examine the applicability of sociology to everyday life.

How to Study

Practical Tips for Students

PHIL RACE

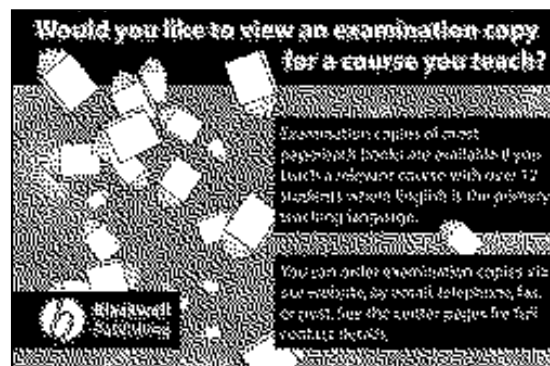

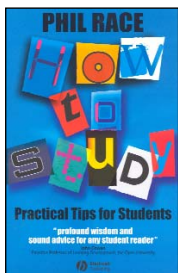

University of Leeds

"I wish I had had a book like this when I was a student and would certainly recommend it to anyone."

SUSAN BASSNETT, UNIVERSITY OF WARWICK

HOW TO STUDY is the ideal companion for all students at college or university. It contains around 1,000 practical tips, taking students from their first lectures through to their final exams and beyond.

264 PAGES / 1-4051-0693-X PB / 2003

SOCIOLOGY AND SOCIETY

Sociology and Society is a series of four texts, which introduce students to the sociological study of modern society. Each is heavily illustrated and accessibly structured.

Website: www.blackwellpublishing.com/ou

Social Change

Edited by TIM JORDAN & STEVE PILE

Both Open University

This textbook introduces debates about the nature and meaning of social change. The authors offer a new way of thinking about the processes of change, reconsidering the roles played by time and space. The particular changes explored range from radical transitions from one kind of society to another, to less dramatic shifts in social interaction and social organisation.

The text is thoroughly up-to-date, covering in detail the transformations in social relations associated with post-colonialism, the information society, city life, new communication forms, intimacy and governing the self. Each chapter is written by an author well known in their field and supported by readings that present a wide range of international case studies. These readings encourage students to engage with social and cultural documents as evidence of social change, developing their critical and analytical skills.

SERIES: SOCIOLOGY AND SOCIETY
360 PAGES / 48 FIGURES, 12 COLOUR PLATES, 6 MAPS, 7 TABLES
0-631-23311-3 HB / 0-631-23312-1 PB / 2002

Social Differences and Divisions

Edited by PETER BRAHAM & LINDA JANES

Both Open University

This text introduces students to the main forms of social division and difference that characterize contemporary societies. Drawing on a wide range of examples from the UK and US, it addresses differences relating to class, gender, race and ethnicity, housing, and education.

SERIES: SOCIOLOGY AND SOCIETY
360 PAGES / 63 FIGURES, 18 TABLES
0-631-23309-1 HB / 0-631-23310-5 PB / 2002

The Uses of Sociology

Edited by PETER HAMILTON & KENNETH THOMPSON

Both Open University

THE USES OF SOCIOLOGY discusses whether sociological knowledge is important, and is designed to make students think broadly about the subject.

- ⑤ **Introduces students to the main ways in which sociology is practiced in the world and explores the major debates concerning its social purposes**
- ⑤ **Compares and contrasts different traditions of sociological thought**
- ⑤ **Questions the relevance of sociological knowledge to government, the public sphere, the media, economic life, social movements, race and ethnicity.**

SERIES: SOCIOLOGY AND SOCIETY
360 PAGES / 32 FIGURES / 0-631-23313-X HB / 0-631-23314-8 PB / 2002

Understanding Everyday Life

Edited by TONY BENNETT & DIANE WATSON

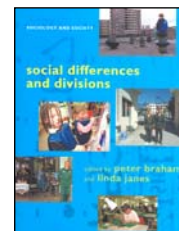

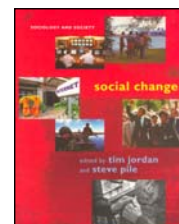

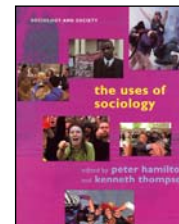

Both Open University

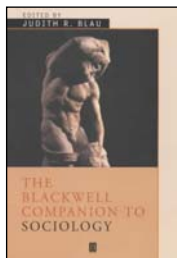

By focusing on familiar sites and scenes – the home, the pub, the street – this text introduces students to contemporary debates about the social organisation of everyday life.

- ⑤ **Includes examples ranging from the private sphere through to work, consumption and the community**
- ⑤ **Reveals the intricacies of social processes and structures as they affect students' own lives**
- ⑤ **Considers a broad range of theoretical approaches to everyday life and explores these in the light of class, ethnicity, age, gender, and sexuality.**

Using richly-illustrated examples, the authors demonstrate how the perspectives of sociology, cultural studies, and feminism can shed new light on aspects of day-to-day social life that are usually taken for granted.

NEW IN PAPERBACK

The Blackwell Companion to Sociology

Edited by JUDITH R. BLAU
University of North Carolina at Chapel Hill

"Informative, concise and lively."

CONTEMPORARY SOCIOLOGY

This milestone collection of new essays by renowned sociologists covers both the traditions and strengths of the field as well as newer developments and directions.

- ⑤ Contains 31 definitive essays by an international panel of renowned figures in sociology
- ⑤ Covers traditional topics in sociology, such as theory, stratification, political sociology, and the sociology of education and social movements
- ⑤ Also includes emerging areas such as immigration studies, the sociology of space and time, the sociology of intimate relations, and the sociology of religion
- ⑤ Includes a comprehensive list of sociological data resources available on the Internet.

The Blackwell Companion to Social Inequalities

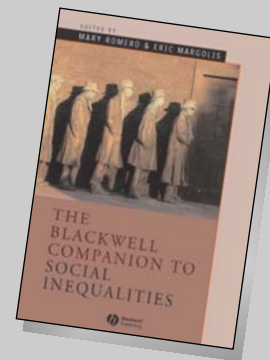

Edited by MARY ROMERO
& ERIC MARGOLIS

Both Arizona State University

THE BLACKWELL COMPANION TO SOCIAL INEQUALITIES is a first-rate collection of social science scholarship on inequalities, emphasizing race, ethnicity, class, gender, sexuality, age and nationality. The volume highlights themes that represent the scope and range of theoretical orientations, contemporary emphases, and emerging topics in the field of social inequalities. An international group of leading scholars gives special attention to debates in the field, developing trends and directions, and interdisciplinary influences in the study of social inequalities. They also identify likely new areas of research. An editorial introduction and suggestions for further reading round out the collection, making this a one-of-a-kind reference to the field.

NEW IN PAPERBACK

The Blackwell Dictionary of Modern Social Thought

Second Edition

Edited by **WILLIAM OUTHWAITE**

University of Sussex

"This is still the best dictionary around and an effective antidote to the inflated importance given to current gurus of social thought. Students could abandon their textbooks and follow this reference trail."

MARGARET ARCHER, UNIVERSITY OF WARWICK

This **DICTIONARY** provides an authoritative and comprehensive overview of the main themes of social thought, principal schools and movements of thought, and those institutions that have been the subject of social analysis or engendered significant doctrines and ideas. Detailed entries cover major currents of thought, philosophical and cultural trends, and the individual social sciences from anthropology to welfare economics. These are supplemented by shorter accounts of specific concepts and phenomena.

This second edition updates about 200 entries and includes new entries on the Internet, ethnic cleansing, and other topics. Each entry includes suggestions for further reading, and the volume contains a bibliography of all sources cited within the text.

Sociological Methodology

Edited by **ROSS M. STOLZENBERG**

SOCIOLOGICAL METHODOLOGY is a compendium of new and sometimes controversial advances in social science methodology.

Contributions come from diverse areas and have something useful and often surprising to say about a wide range of topics ranging from legal and ethical issues surrounding data collection to the methodology of theory construction. In short, **SOCIOLOGICAL METHODOLOGY** holds something of value and an interesting mix of lively controversy, too for nearly everyone who participates in the enterprise of sociological research.

Social Theory and Postcommunism

WILLIAM OUTHWAITE
& LARRY RAY

University of Sussex; University of Kent at
Canterbury

"A significant event in social theory's ongoing return to earth after its prolonged fit of factless abstractionism, made all the more valuable by the authors' knowledge of, and respect for, the world's particularity. A genuinely thoughtful and thought provoking book."

ANTHONY WOODIWISS, CITY UNIVERSITY

SOCIAL THEORY AND

POSTCOMMUNISM analyzes the implications of the fall of communism on social theory. Written by two leading social theorists, the book discusses the thesis that the fall of communism has decimated alternative conceptions of social organizations other than capitalism.

Outhwaite and Ray review almost every key issue which currently occupies social theory: state/civil society, globalization, the future of 'modernity,' and post-socialism. Outhwaite and Ray cover such issues while still referencing older traditions, such as the modernization theory. With clarity, insight, and authority, this book presents a new understanding of social theory for the student or scholar.

Contested Knowledge

Social Theory Today
Third Edition

STEVEN SEIDMAN

State University of New York, Albany

*"There is no better social theory text for demonstrating to students the political relevance of both past and current social thinkers. Seidman compellingly argues for a more lively, publicly-engaged sociology. **Contested Knowledge** is required reading for any discussion of how social theory can help us make sense of our own times."*

NANCY L. FISCHER, MACALESTER COLLEGE

CONTESTED KNOWLEDGE has established itself as a leading text. It brings social theory into the present day by providing the most up-to-date perspectives on social theory by one of the most important thinkers of our time, Steven Seidman. The book tracks the work of the major figures in the field, from the classical sociologists – Durkheim, Marx, Weber – to contemporary theorists, including Giddens, Foucault, Bourdieu, and Judith Butler.

After Habermas

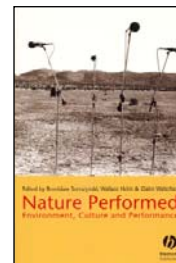

New Perspectives on the Public Sphere

Edited by NICK CROSSLEY & JOHN MICHAEL ROBERTS

University of Manchester; University of Leeds

Contemporary debate about the public sphere has been dominated by discussion of Jürgen Habermas's seminal study, *The Structural Transformation of the Public Sphere*. The contributors to this collection push forward Habermas's agenda by reflecting on current social processes and events, such as anti-corporate protests and the emergence of the Internet. They also consider alternative perspectives posed by thinkers such as Bakhtin, Bourdieu and Honneth.

**MODERNITY & SOCIETY SERIES**

General Editor: IRA J. COHEN

Modernity and Society is a series of readers edited by the most eminent scholars working in social theory today. Each reader builds a bridge from classical selections to modern texts to make sense of the fundamental social forces and historical dynamics of the twentieth century and beyond.

NEW**Max Weber**

Readings and Commentary on Modernity

Edited by STEPHEN KALBERG

Boston University

"Having established himself as a leading Weber scholar and translator, Stephen Kalberg shows that he is an editor of vision and sensibility. He presents the full range of Weber's writing in a way that indicates Weber's grasp of all aspects of social reality and the enduring value of his analysis."

JACK BARBALET, UNIVERSITY OF LEICESTER

This volume gathers Weber's writings on a broad array of themes, organized by topic, and includes numerous readings from contemporary sociologists that demonstrate how Weber's ideas have influenced recent scholarship.

352 PAGES / 0-631-21489-5 HB / 0-631-21490-9 PB / DECEMBER 2004

Emile Durkheim

Sociologist of Modernity

Edited by MUSTAFA EMIRBAYER

University of Wisconsin-Madison

"Emirbayer's judicious selection of texts, matched with contemporary selections from among the best of modern sociology, shows how central Durkheimian themes have been in the increasing sophistication of sociological ideas through the end of the twentieth century, and beyond."

RANDALL COLLINS, UNIVERSITY OF PENNSYLVANIA

328 PAGES / 0-631-21990-0 HB / 0-631-21991-9 PB / 2003

Marx and Modernity

Key Readings and Commentary

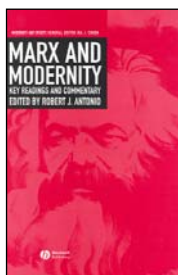

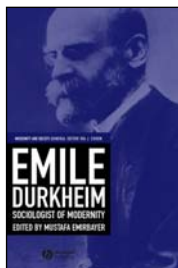

Edited by ROBERT J. ANTONIO

University of Kansas

"The essays by Marx are intelligently chosen, the lively commentaries by a host of well-known scholars exhibit the range of his influence, while the outstanding introduction by Robert Antonio illuminates his salience for our time. This is a first-rate collection!"

Sociological Theory

Edited by JULIA ADAMS, JEFFREY ALEXANDER,
RON EYERMAN & PHILIP GORSKI

Published for the American Sociological Association, this important journal covers the full range of sociological theory – from ethnomethodology to world systems analysis, from commentaries on the classics to the latest cutting-edge ideas, and from re-examinations of neglected theorists to metatheoretical inquiries. Its themes and contributions are interdisciplinary, its orientation pluralistic, its pages open to commentary and debate. Renowned for publishing the best international research and scholarship, **SOCIOLOGICAL THEORY** is essential reading for sociologists and social theorists alike.

The Journal of Historical Sociology

Edited by **DEREK SAYER
AND YOKE-SUM WONG**

The **JOURNAL OF HISTORICAL SOCIOLOGY** was founded in 1988 on the conviction that historical and social studies ultimately have a common subject matter and can only benefit from the interchange of ideas and perspectives. Edited by a distinguished international panel of historians, anthropologists, geographers and sociologists, it is both interdisciplinary in approach and innovative in content. As well as refereed articles, the journal presents reviews essays and commentary in its 'Issues and Agendas' section, and aims to provoke discussion and debate.

World Culture

Origins and Consequences

FRANK J. LECHNER
& **JOHN BOLI**

Both Emory University

This book explores the development, content, and impact of world culture. Combining two of the most fruitful theoretical perspectives on world culture – the world polity approach and globalization theory – the book traces the development of world culture from the mid-nineteenth century to the present day. It includes extensive illustrations of key issues and empirical research, and assesses the complex impact of world culture on people, organizations, and societies.

WORLD CULTURE is essential for any student or scholar of globalization and world affairs.

When Faiths Collide

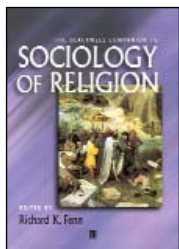

MARTIN E. MARTY
University of Chicago Divinity School

"An original and fresh contribution to the discussion of religious 'otherness' (the stranger in our midst) as it has unfolded in the aftermath of September 11."

SCOTT APPLEBY, UNIVERSITY OF NOTRE DAME

Collisions of faiths are among the most threatening conflicts around the world at the beginning of the twenty-first century. In the face of these conflicts, this manifesto is a call to embrace religious pluralism. Tackling people's fears of religious pluralism, the author demonstrates that citizens, religions, and identities can in fact survive in radically pluralist settings. The book deals with conflicts that affect or occur within those nations whose polities can be called republican, open, democratic, liberal, or free, particularly the UK, the US, and Western Europe.

Hinduism and Modernity

DAVID SMITH

University of Lancaster

"An excellent survey of the history of the Western encounters with India and Hinduism, highlighting in the process the inevitable misunderstandings that resulted, some of which still persist in popular portrayals of the religion."

CHOICE

This innovative book offers a dynamic analysis of Hinduism in the perspective of Western notions of modernity. The scope of the book is extremely broad, covering topics such as Orientalism, women, goddesses, gods, and the central problem of contemporary Hinduism – the rise of Hindu nationalism.

God is Dead

Secularization in the West

STEVE BRUCE

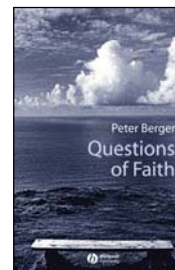

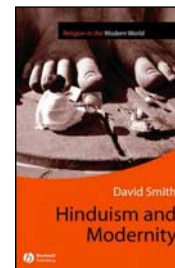

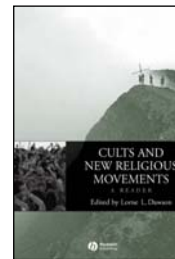

University of Aberdeen

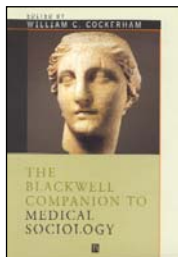

*"The pace and style of Bruce's narrative, the crispness and clarity of his argument, and his frequent digs at aspects of the contemporary mood... make **God is Dead** a truly entertaining and enlightening book."*

BSA NETWORK

In this robust defense of the secularization paradigm, Bruce elaborates just what Weber, Durkheim, Berger and Wilson thought was happening to religion in the West, and responds to critics of this concept. Specific topics covered include the significance of New Age spirituality, the influence of eastern religions on the West, the impact of science, the charismatic movement, religion and politics in the USA, and the future of religion.

Sociology of Health & Illness

A Journal of Medical Sociology

Edited by **ROBERT DINGWALL, VERONICA JAMES, ELIZABETH MURPHY & ALISON PILNICK**

SOCIOLOGY OF HEALTH & ILLNESS is an international journal which publishes sociological articles on all aspects of health, illness and medicine. It focuses particularly on empirical research, especially, though not exclusively, of a qualitative kind. The journal provides a sociological perspective on the theory of medical knowledge, the practice of medical work and the experience of receiving or giving medical care. In addition to the five regular issues published each year, subscribers receive a free special issue. These themed issues aim to identify and contribute to new areas of debate and research in the discipline, and each issue is devoted to an important topic of current interest.

Social Movements in Health

Edited by **PHIL BROWN & STEPHEN ZAVESTOSKI**

Brown University; University of San Francisco

This book represents the first collection of research on Health Social Movements (HSMs). Contributions cover both HSMS focused on diseases such as Alzheimer's and breast cancer, and issue-based HSMS such as the pro-choice movement, the movement for complementary and alternative medicine, and movements around stem cell research.

Medical Work, Medical Knowledge and Health Care

A Sociology of Health & Illness Reader

Edited by **ELLEN ANNANDALE, MARY ANN ELSTON & LINDSAY PRIOR**

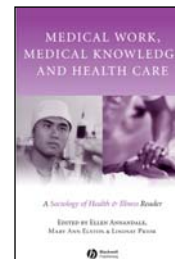

Leicester University; Royal Holloway, University of London; University of Wales, Cardiff

This selection of key articles chronicles research in the fields of medical knowledge, medical work and health care over the past 25 years. They provide an overview of the major changes in the delivery of health care over this period, and in the way that social scientists and health care providers have conceptualised medical knowledge and practice.

Child: Care, Health and Development

The Multidisciplinary Journal now Incorporating Ambulatory Child Health

Edited by **STUART LOGAN**

CHILD: CARE, HEALTH AND DEVELOPMENT is an international, peer-reviewed journal which publishes papers dealing with all aspects of the health and development of children and young people. We particularly encourage the submission of studies related to those who are disadvantaged by physical, developmental, emotional and social problems. The journal also collates important research findings and provides a forum for discussion of global child health issues.

The Social Movements Reader

Cases and Concepts

Edited by JEFF GOODWIN & JAMES M. JASPER

New York University; Independent Scholar

"This reader makes organizing an engaging course on social movements easy by offering a great selection of classics along with some lesser-known works. Goodwin and Jasper chose and edited judiciously to give students the core arguments from a wide range of books and articles from the 1970s to Seattle, and the organization is coherent and helpful. They also offer excellent framing of the debates and issues in the field in their lucid and crisp introductions."

Social Movements

An Introduction

Second Edition

DONATELLA DELLA PORTA & MARIO DIANI

European University Institute; University of Strathclyde

SOCIAL MOVEMENTS is a comprehensive introduction and critical analysis of collective action in society today. In the latter part of the last century, social movements became a permanent feature of modern democracies. The students' and workers' protests of the 1960s have been followed by movements focusing on women's rights, ethnic identities, peace and environmental issues. This book draws on research and empirical work across the social sciences to address the key questions in this international field.

For this new edition, the authors have updated all chapters with the most recent scientific literature, expanded on topics such as individual motivations, new media, public policies, and governance. The book has also been redesigned in a more user-friendly format. More than ever, **SOCIAL MOVEMENTS** is the ideal introduction for students of social movements within social and political science.

368 PAGES / 1-4051-0281-0 HB / 1-4051-0282-9 PB / NOVEMBER 2005

The Blackwell Companion to Social Movements

Edited by DAVID A. SNOW, SARAH A. SOULE & HANSPETER KRIESI

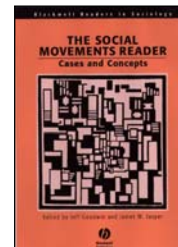

University of California, Irvine; University of Arizona; University of Zürich

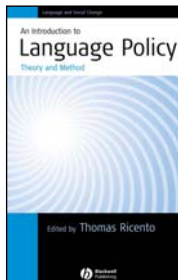

THE BLACKWELL COMPANION TO SOCIAL MOVEMENTS is a compilation of original, state-of-the-art essays by internationally recognized scholars. Covering a diverse range of topics in the field of social movement studies, this volume offers an illuminating guide to understanding the dynamics and operation of social movements within the modern, global world.

The abundance of social movement activity throughout the world, both violent and nonviolent, has made the study of social movements a valuable resource for helping students and scholars to engage and understand their own social world. Issues covered in this one volume include: historical, political, and cultural contexts; leadership; organizational dynamics; social networks and participation; consequences and outcomes; and synthetic overviews of major social movements, including labor, anti-war, women's, religious, ethnic and national, and environmental movements.

An Introduction to Language Policy

Theories and Methods

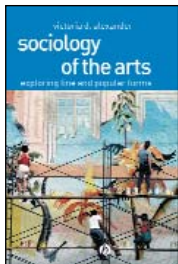

Edited by THOMAS RICENTO

University of Texas at San Antonio

AN INTRODUCTION TO LANGUAGE POLICY:

THEORIES AND METHODS provides an accessible introduction to the field of language policy through broad and in-depth coverage of the major theories and methods currently employed by scholars active in the field. The volume consists of newly commissioned essays, written by internationally recognized scholars, in three areas: theoretical perspectives, methodological perspectives, and topical areas. Each section contains an overview, and each chapter includes an annotated bibliography and discussion questions.

Inventing Popular Culture

From Folklore to Globalization

JOHN STOREY

University of Sunderland

"An excellent resource for academic libraries; as an introduction to cultural studies, this is hard to beat."

LIBRARY JOURNAL

INVENTING POPULAR CULTURE is a lively and accessible history of the idea of popular culture by one of the leading experts in the field. Written from the critical perspective of cultural studies, the book traces the invention and reinvention of the concept of popular culture from the eighteenth-century "discovery" of folk culture to contemporary accounts of the cultural impact of globalization.

KEY TEXTBOOK

NEW IN 2005

New Keywords

A Revised Vocabulary of Culture and Society

Edited by TONY BENNETT, LAWRENCE GROSSBERG & MEAGHAN MORRIS

Open University; University of North Carolina, Chapel Hill; University of North Carolina; Lingnan University

Raymond Williams' *Keywords: A Vocabulary of Culture and Society* is justly renowned for its role in providing a whole generation of students and intellectuals with trusty and cogent distillations of the language of cultural studies. First published in 1976, the text played a pivotal role in both academic and public understandings of culture and society and the relations between them. **NEW KEYWORDS: A REVISED VOCABULARY OF CULTURE AND SOCIETY** updates Williams' classic text by reflecting the transformation in culture and society over the last quarter century.

NEW KEYWORDS includes many of Williams' original entries, but with new discussions of their history and use over the last 25 years. Several other entries encapsulate the practices, institutions, and debates of contemporary society. The editors have assembled an international team of scholars to write from a variety of disciplines and interdisciplinary fields - cultural and media studies, feminism, post-colonial and subaltern studies, the history of science, sociology, gay and lesbian studies. The result is a state-of-the-art reference for students, teachers and public intellectuals everywhere.

Myths for the Masses

An Essay on Mass Communication

HANNO HARDT

University of Iowa

"One of the most provocative 'big picture' books on media I have ever read.

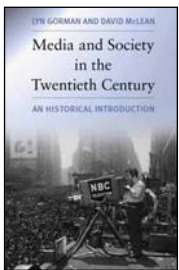

Certain to become a classic text, I urge all students and scholars to read it closely."

ROBERT W. MCCHESENEY, UNIVERSITY OF ILLINOIS AT URBANA-CHAMPAIGN

With a lively and engaging style, **MYTHS FOR THE MASSES** provides a critical, interdisciplinary, and historically informed statement about the rise of mass communication in Western societies, and its impact on contemporary life. Written by one of the world's leading authorities on the subject, this book ponders the dominant and the detrimental effects of the mass-produced message in a contemporary age over-run by telecommunications and consumerism.

The Virtual Self

A Contemporary Sociology

BEN AGGER

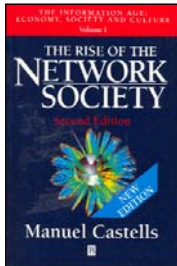

University of Texas at Arlington

THE VIRTUAL SELF is a concise, critical introduction to social life in an age of rapid technology and high speed communication. It addresses a fundamental question of our time: is contemporary society significantly different from the society that formed the theories and basic concepts of the founders of sociology?

THE VIRTUAL SELF addresses major issues in sociology that inform virtually all of a student's course work. Of central concern is the relationship between everyday life and social structure in key domains of communication, personality, work/family, leisure and entertainment, and economics. At the same time, the book advances an argument about our stage of civilization, joining dialogue with critical thinkers and theorists who bemoan the loss of community and civic discourse. These perspectives from critical theory and postmodernism are introduced in readable, digestible ways as discussions are linked to standard sociological concerns such as the relationship between self and society.

Written in a lively, accessible style, **THE VIRTUAL SELF** presumes no sociological background and cites ample literature for further reference. Students and scholars will find it an engaging and exciting text.

The Power of Identity

The Information Age: Economy, Society and Culture, Volume II
 Second Edition

MANUEL CASTELLS

University of California at Berkeley

THE POWER OF IDENTITY is the second volume of Manuel Castells' trilogy, *The Information Age: Economy, Society, and Culture*. It deals with the social, political, and cultural dynamics associated with the technological transformation of our societies and with the globalization of the economy.

"A truly stunning achievement. A scholar who, with remarkable mastery, has brought his experience over a lifetime to bear on astonishingly diversified data set, pulling them together into a compelling account of the complex relationship between the progressive and the reactionary, the globalizing and particularizing forces that are transforming our perplexing world."

Health Information & Libraries Journal

Formerly Health Libraries Review

Edited by GRAHAM WALTON

HEALTH INFORMATION & LIBRARIES JOURNAL

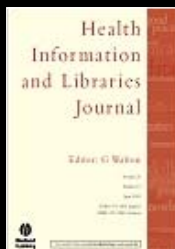

provides a forum for the exchange of ideas and information among

medical, health and welfare librarians. Interdisciplinary and international in scope, the JOURNAL publishes original material reflecting current practice and new developments in this field. Full length and review articles, news, reports of meetings, book reviews and letters are all included. It is the official journal of the Health Libraries Group of the Library Association, and incorporates the Group's Newsletter.

The Geography of the Internet Industry

Venture Capital, Dot-coms, and Local Knowledge

MATTHEW A. ZOOK

University of Kentucky

This groundbreaking book analyses the geography of the commercial Internet industry during the dot-com boom. It presents the first accurate map of Internet domains in the world, by country, by region, by city, and for the United States, by neighborhood. Matthew Zook provides a lucid and theoretically-informed argument supported by appropriate evidence. His book will be of interest to all those concerned about inequalities arising or being perpetuated through unequal access to technology and the factors driving regional economic development.

An Introduction to Science and Technology Studies

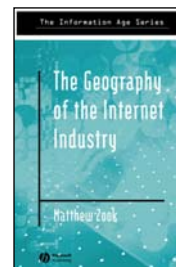

SERGIO SISMONDO

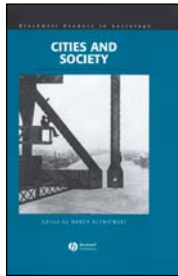

Queen's University, Ontario

"For an introduction to science and technology studies, one cannot find a better book. Sismondo sets a high standard for clarity of writing for books aimed at university students. The important historical background blends well with the underlying philosophical and sociological concepts. Extremely important to all readers are the boxed-text case studies, definitions, and examples that permeate and intelligently adorn every chapter. The index and references immensely help readers desiring to learn more."

Cities and Society

Edited by **NANCY KLENIEWSKI**
Bridgewater State College

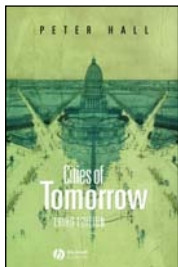

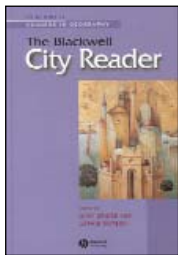

"In Cities and Society the nation's leading urban scholars tell us why cities are in the condition they are in, and what our options are for making them better places in which all groups can live, work, and play."

GREGORY D. SQUIRES, GEORGE WASHINGTON UNIVERSITY

This distinctive anthology contains classic and contemporary writings that have had a major impact on the field of urban sociology and urban studies. The expert and well-known scholars who have written these essays cover central topics that have evolved over the past 25 years.

- Offers an international focus, as well as case studies, all by leading experts in the field
- Includes an analytical introduction by the editor
- Provides coverage of current trends, theoretical perspectives, and policy issues
- Features diverse topics such as space, housing, globalization, the economy, and social inequalities.

Social Capital on the Ground

Global Change and the Remaking of Urban Social Relations

Edited by **TALJA BLOKLAND & MIKE SAVAGE**
University of Amsterdam; University of Manchester

This book explores the urban dimension of social capital. It shows how contests over the use and meaning of space are central to the generation of social capital. The ties and connections celebrated by social capital theorists have spatial dimensions, and we show that if we register the significance of these we are able to demonstrate the way that social capital generates inequality and urban division. The book brings case studies together exploring these issues from different kinds of urban location in the United States and Europe, exploring issues such as gentrification, the politics of belonging to voluntary associations, social capital in suburbia, race and ethnicity, and the book also contains an important theoretical statement about how to research 'social capital on the ground'.

Cities of Europe

Changing Contexts, Local Arrangements, and the Challenge to Urban Cohesion

Edited by YURI KAZEPOV

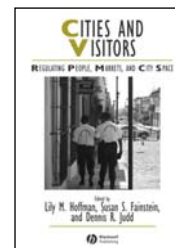

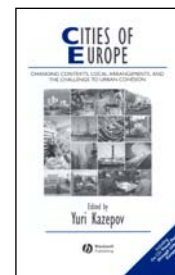

University of Urbino

"Unmercifully vexing to urban scholars is the gap between the texts that they produce and the myriad ways in which the city is actually experienced. With its wonderful CD-Rom, Cities of Europe engages the reader in closing the breach."

ROBERT A. BEAUREGARD, MILANO GRADUATE SCHOOL OF MANAGEMENT AND URBAN POLICY, NEW YORK

Comprising a series of contributions by well known scholars from the field of urban studies, the book makes an important contribution to debates about the nature of current socio-economic transformations, the tensions to which they are giving rise, and how western European urban societies are dealing with them. The CD-Rom accompanying the book features a series of 2000 pictures from seventeen cities, as well as 126 thematic maps, interviews with established scholars and literature reviews.

Cities, War, and Terrorism

Towards an Urban Geopolitics

Edited by **STEPHEN GRAHAM**

University of Newcastle upon Tyne

"This is a brilliant, disturbing book. Modern cities have often been seen as places of extraordinary creativity and creative destruction, but for this very reason they are also often sites of spectacular military and paramilitary violence. These essays unsettle so many taken-for-granted ways of thinking about cities."

DEREK GREGORY, UNIVERSITY OF BRITISH COLUMBIA

CITIES, WAR, AND TERRORISM is the first book to look critically at the ways in which warfare, terrorism, and counter-terrorism policies intersect in cities in the post-Cold War period. The book brings together new writing by the world's leading analysts of urban space and military and terrorist violence from the fields of sociology, geography, architecture, planning, critical theory, politics, international relations, and military studies. Arguing that urban spaces are now the critical, strategic sites of geopolitical struggle, the contributors combine cutting-edge theoretical reflections with path-breaking empirical case studies. They provide up-to-date analyses of a range of specific urban sites, including those involved in the Cold War, the Balkan wars, the Israeli-Palestinian conflict, the 9/11 attacks, the "War on Terror" attacks on Afghanistan and Iraq, and urban anti-globalization battles.

Taken as a whole, the book offers both specialist and non-specialist readers a sophisticated perspective on the violence that is engulfing our increasingly urbanized world.

Designing Cities

Critical Readings in Urban Design

Edited by **ALEXANDER R. CUTHBERT**

University of New South Wales, Sydney

DESIGNING CITIES is the first reader to be published in the thriving field of urban design. It includes work from the past 30 years by such world famous authors as Manuel Castells and David Harvey, as well as writing by lesser known scholars which deserves a wider audience. It has been assembled to appeal to a broad range of readers interested in how the design of cities comes about. The volume has been carefully structured to help students gain an understanding of the theoretical context from which urban design has emerged.

International Journal of Urban and Regional Research

Edited by ALAN HARDING, ROGER KEIL & JEREMY SEEKINGS

The **INTERNATIONAL JOURNAL OF URBAN AND REGIONAL RESEARCH (IJURR)** is the leading international journal for urban studies. Since its inception in 1977 as a groundbreaking forum for intellectual debate, it has remained at the forefront of its field. With a commitment to global and local issues, a cutting edge approach to linking theoretical development and empirical research, and a consistent demand for quality, **IJURR** encompasses key material from an unparalleled range of critical, comparative and geographic perspectives. Embracing a worldwide readership and a multidisciplinary approach to the field, **IJURR** is essential reading for social scientists with a concern for the complex, changing roles of cities and regions.

Readings in Planning Theory

Second Edition

Edited by SUSAN S. FAINSTEIN & SCOTT CAMPBELL

Columbia University; University of Michigan

The second edition of this very successful volume examines the current state of planning theory and the new directions it has taken in recent years. The editors retain ten of the 28 original readings from the first edition. Four other readings have been updated with more recent writings from the same author (the opening introduction and the chapters by Fainstein, Krumholz and Healey). Thirteen readings are wholly new.

Readings in Urban Theory

Second Edition

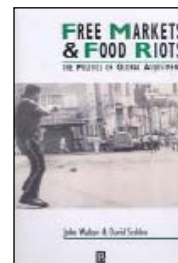

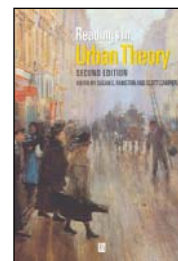

Edited by SUSAN S. FAINSTEIN & SCOTT CAMPBELL

Columbia University; University of Michigan

"This remarkable multidisciplinary anthology provides the theoretical tools for readers to make sense of the urban world. Essays by leading scholars review the ideas and concepts that underpin urban policy and planning-from cities' functions in a regional and global context to their role as reflectors of urban culture and fantasy. Readers will be challenged by analyses of urban racism and rights of citizenship, growth machines and tourist bubbles, global cities and the new urbanism."

Catalysing Development? A Debate on Aid

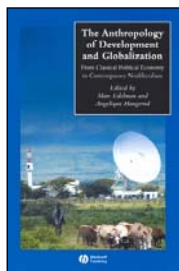

JAN P. PRONK ET AL.

Former Minister for Development Co-operation of the Netherlands

In this volume, a select group of experts puts development aid under the microscope. Examining its history, its rationale, and its effectiveness, they reach some challenging conclusions as to the part aid plays in catalysing, or indeed stifling, development. While some argue that aid remains vital, and must be maintained or increased, others are more sceptical, and fear that it may even prolong underdevelopment in certain circumstances.

The contributors to this volume have all worked in, or been closely connected with, international development. They have experience of different aspects of development aid, and thus offer a wide range of fascinating insights and perspectives on this vital subject.

Getting into Local Power

The Politics of Ethnic Minorities in British and French Cities

ROMAIN GARBAYE

University of Paris, Sorbonne

This study presents a comparison of the politics of ethnic minorities in British and French cities. The book considers styles of political mobilisation of ethnic minorities in the context of urban political systems, as well as the strategies used by party leaders and to manage ethnic diversity in political competition. It analyses how ethnic and cultural diversity in urban societies translates into conflictual politics.

2004 was the fiftieth anniversary of Brown v. Board of Education, yet issues of racial and ethnic integration in schools and colleges remain. The articles in this special issue explore both the processes and implications of interethnic contact in educational settings from elementary schools through universities.

Nations and Nationalism

Edited by ANTHONY D. SMITH

Nationalism is one of the central issues of the modern world. Since the demise of the Soviet Union there has been a proliferation of nationalist and ethnic conflicts. The consequent explosion of interest in ethnicity and nationalism has created an urgent need for systematic study in this field. As a scholarly, multidisciplinary and interdisciplinary journal **NATIONS AND NATIONALISM** aims to satisfy this need.

The Idea of English Ethnicity

ROBERT J. C. YOUNG

University of Oxford

In this major contribution to debates about English identity, leading theorist Robert Young argues that 'Englishness' was never really about England, its essence or national character, at all. Rather, it was developed as a form of long-distance nationalism, as an ethnic identity for those who were precisely not English, but rather made up the English diaspora around the world.

American Identities

An Introductory Textbook

Edited by LOIS RUDNICK,
RACHEL RUBIN & JUDITH SMITH

All University of Massachusetts at Boston

AMERICAN IDENTITIES is a dazzling array of primary documents and critical essays culled from American history, literature, memoir, television, popular music, and film that explore major currents and trends in American history. The textbook charts the rich multiplicity of American identities as refracted through the different lenses of race, class, and gender, and shaped by common historical social processes such as migration, families, work, and war.

Feminism after Bourdieu

Edited by **LISA ADKINS**
& **BEV SLEGGS**

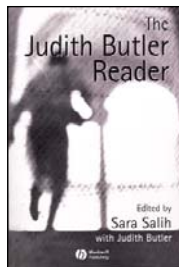

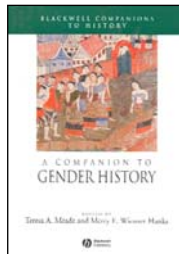

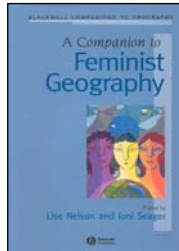

University of Manchester; Goldsmiths College

For all his pre-eminence, Pierre Bourdieu had little to say about women or gender. Such an absence seems ultimately fatal. Yet as this volume amply demonstrates, the richness of his social theory can be opened up by contemporary feminism.

FEMINISM AFTER BOURDIEU comprises a series of interventions by key feminist thinkers. These reflect upon the legacies of Bourdieu to critique and critically extend his social theory. In addressing many of the most pressing issues of our time, they also help to develop contemporary issues for feminist theory.

What emerges is a transformation of Bourdieu's social and cultural theory. So that in addition to offering new insights for feminist theory, this research monograph also marks new territories for social and cultural theory.

KEY TEXTBOOK

The Sociology of Gender

An Introduction to Theory and Research

AMY S. WHARTON

Washington State University

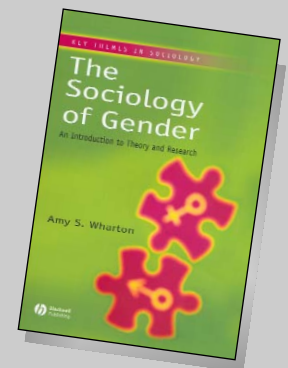

"An excellent, theoretically complex, and clear introduction to the sociology of gender."

JOAN ACKER, UNIVERSITY OF OREGON

Gender is one of the most important topics in the field of sociology, and as a system of social practices it inspires a multitude of theoretical approaches. **THE SOCIOLOGY OF GENDER** offers an introductory overview of gender theory and research, offering a unique and compelling approach.

- ⊙ **Uses three frameworks – the individual, the interactional, and the institutional – to help students understand gender's contested meanings**
- ⊙ **Emphasizes the importance of analyzing gender in relation to other kinds of distinctions, such as race, class, or sexuality**
- ⊙ **Includes pedagogical features designed to encourage critical thinking and debate**
- ⊙ **Closer Look readings at the end of each chapter present articles by leading scholars, thus giving a unique perspective on chapter topics.**

The Maternal Wall

Research and Policy Perspectives on Discrimination Against Mothers

Edited by **MONICA BIERNAT, FAYE J. CROSBY & JOAN WILLIAMS**

University of Kansas, Lawrence; University of California, Santa Cruz; American University

Over the past four or five decades, the feminist revolution has brought many changes. There is a lot of evidence that the glass ceiling is being shattered. For one particular group, however, gender equity remains elusive. That group is working mothers. The problem of the 'glass ceiling' has now turned into a related, different problem; 'the maternal wall.' In the first *Journal of Social Issues (JSI)* to deal specifically with the topic of working mothers, scholars from several disciplines discuss a variety of aspects of the problem of the maternal wall.

Contemporary Organization Theory

Edited by **CAMPBELL JONES & ROLLAND MUNRO**

University of Leicester; University of Keele

This research monograph reviews the work of a wide range of major figures writing over the last two decades. In introducing and overviewing the work of sixteen key theorists, this collection clarifies what makes each distinctive as a contemporary resource for other researchers in the field. Additionally each chapter engages critically with these ideas and thus seeks in turn to develop them. So, while taking stock of advances in thinking about organization, the collection also articulates a vision of the possible future of organization theory.

The Sociology of Education and Work

DAVID B. BILLS

University of Iowa

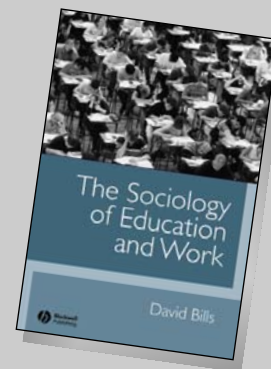

"David Bills' brilliant synthesis and critique of research on the education/work nexus now stands as the definitive reference source on the topic. It is a masterful work by our leading authority on this important linkage."

DAVID K. BROWN, ILLINOIS STATE UNIVERSITY

THE SOCIOLOGY OF EDUCATION AND WORK is a clear and engaging study of the links between schooling and the workplace in modern society. It explains, in accessible and lively prose, how these links have developed over time, what broad social trends are transforming them now, and offers some empirically-based projections about how these relationships are likely to develop in the future.

- ☉ **Combines and analyzes theory and studies in the sociology of education and the sociology of work**
- ☉ **Case studies demonstrate the ways in which school and work 'come together' in contemporary society**
- ☉ **Written in a concise, readable format for students.**

264 PAGES / 8 FIGURES; 4 TABLES / 0-631-22362-2 HB / 0-631-22363-0 PB / **JULY 2004**

Gender, Work and Organization

Edited by DAVID KNIGHTS
& DEBORAH KERFOOT

Awareness of gender as a central feature of all aspects of everyday life and society has become more and more widespread. Appropriately social sciences research is reflecting this increasing concern with gender, especially in the field of work and organization where this journal is focused. **GENDER, WORK AND ORGANIZATION** is the first journal to bring together a wide range of interdisciplinary and multi-disciplinary research in this field into a new international forum for debate and analysis. Contributions are invited from all disciplinary perspectives including anthropology, history, labour economics, law, philosophy, politics, psychology, and sociology.

Reader in Gender, Work and Organization

Edited by ROBIN J. ELY, ERICA GABRIELLE FOLDY & MAUREEN A. SCULLY

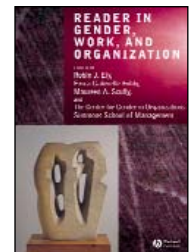

All Center for Gender in Organizations, Simmons School of Management

"The Reader in Gender, Work and Organization is the best and most up to date compilation of research and theory which examines the interplay among these key factors shaping our daily lives... This should be in every serious social scientist's personal library."

DAVID A. THOMAS, HARVARD BUSINESS SCHOOL

This reader presents students with an alternative conceptual approach to gender in the workplace. This approach traces the alignment of commonly held assumptions about work and competence with idealized images of masculinity. The readings then illustrate how this alignment limits opportunities for all but a small narrowly defined segment of the workforce.

The American Journal of Economics and Sociology

Edited by LAURENCE S. MOSS

THE AMERICAN JOURNAL OF ECONOMICS AND SOCIOLOGY (AJES) was founded in 1941, with support from the Robert Schalkenbach

Foundation, to provide a forum for continuing discussion of issues emphasized by the American political economist, social philosopher, and activist, Henry George (1839-1897). Today, the exciting encounters between sociology and economics remain a natural subject to explore, and AJES continues to publish carefully crafted essays in the social sciences.

NEW EDITION

American Politics and Society

Sixth Edition

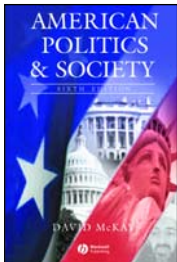

DAVID MCKAY

University of Essex

Completely revised and updated to take full account of the most recent and dramatic changes in the nature of American government, this sixth edition provides a clear and concise introduction to US politics.

Throughout, McKay provides an up-to-date survey of the views and criticisms of leading political commentators on the American scene, including commentary on the 2004 presidential election. His considerable writing and teaching experience and the benefits of extensive road-testing with students have been brought to bear on this new edition, including its presentation of illustrative material such as the 'controversies' used as case studies. The chapters have also been reworked, with two completely new chapters on 'The Media and American Politics', and 'The Security State'. The book is supported by a website including information on the book; its detailed contents; controversies; sample chapters; selected tables; related titles; and links to other web resources: www.blackwellpublishing.com/mckay

The Colonial Present

Afghanistan · Palestine · Iraq

DEREK GREGORY

University of British Columbia, Vancouver

"The Colonial Present is a 'must read' for all those concerned for peace and justice in our time."

DAVID HARVEY, AUTHOR OF THE NEW IMPERIALISM

"This is a great book. Gregory has written a book entwining global geography with social danger... It is exquisitely written... This book's screaming truths are a must-read heresy."

NEIL SMITH, LOS ANGELES TIMES

In this powerful and passionate critique of the 'war on terror' in Afghanistan, Palestine, and Iraq, Derek Gregory traces the long history of British and American involvements in the Middle East. He argues that the attacks on the World Trade Center and the Pentagon on September 11 activated a series of political and cultural responses that mapped a profoundly colonial perimeter of power.

Constellations

An International Journal of Critical and Democratic Theory

Edited by **ANDREW ARATO & NANCY FRASER**

The astonishing transformations in Central and Eastern Europe and the Soviet Union since 1989 have undermined and deeply challenged the relevance of Marxism for any future critique of society. Longstanding assumptions about critical theorizing—its methods, concepts and emancipatory aims—need to be rethought. **CONSTELLATIONS** fosters creative thinking in philosophy, politics, social theory, and law. The journal aims to help expand the global possibilities for radical politics and social criticism in the coming period.

The Blackwell Companion to Criminology

Edited by **COLIN SUMNER**

Writer and Educational Consultant

"A cosmopolitan collection characterized by freshness of perspective. Critical sociological insight on crime at its best."

JOHN BRAITHWAITE, AUSTRALIAN NATIONAL UNIVERSITY

THE BLACKWELL COMPANION TO CRIMINOLOGY provides a contemporary and global resource to scholarship in both classical and topical areas of criminology. Authored by an international group of expert criminologists, these original essays focus on major issues in criminology today. Subjects covered include: the social construction of crime; relations between class, gender, race and crime; the realities and limits of criminal justice; juvenile delinquency and its treatment; the success of punishment and rehabilitation; official statistical patterns of criminalization and their relation to the state and its policies; mass media and the portrayal of crime; international crimes and their relation with globalization.

The Blackwell Companion to the Sociology of Families

Edited by JACQUELINE SCOTT, JUDITH TREAS & MARTIN P. RICHARDS

University of Cambridge; University of California, Irvine; University of Cambridge

"I would recommend this book strongly. The social sciences in general, and the study of family in particular, permeate much of academic life nowadays... Most academic libraries are therefore likely to find eager users for this book."

REFERENCE REVIEWS

Tackling issues relevant to family life today, this authoritative **COMPANION** shows why studying social change in families is fundamental for understanding the transformations in individual and social life, across the globe.

- ⊙ **Contains original essays by expert contributors on a wide range of topics relating to the sociology of families**
- ⊙ **Includes coverage of social inequality, parenting practices, children's work, the changing patterns of citizenship, and multi-cultural families**
- ⊙ **Gives special attention to European and North American examples**
- ⊙ **Discusses previously neglected groups, including immigrant families, and gays and lesbians**
- ⊙ **Explores how revolutionary changes in aging, longevity, and sexual behavior have radically affected the experience of different generations, and the relationships between them.**

Overstretched

European Families up against the Demands of Work and Care

Edited by **TEPPO KRÖGER & JORMA SIPILÄ**

University of Jyväskylä; Tampere University

Combining work and care responsibilities is a challenge faced by families in many industrialized nations. This volume focuses on the everyday life of families who live under particularly strained conditions; that is, lone parent families, immigrant families, dual career families, and families who care simultaneously for both their children and an elderly family member. It provides a new perspective on the reality of European family life where care and paid work need to be woven together on a daily basis.

International Journal of Social Welfare

Edited by **SVEN HESSLE**

It has become evident that major social forces of a global nature - such as demographic trends, migration patterns and the globalization of the economy - are reshaping social welfare policies and social work practices the world over. There is much to be learned from the careful analysis of experiences in the various countries that are struggling with the emerging challenges to social welfare in the post-modern world. The **IJSW** seeks to encourage debate about the global implications of the most pressing social welfare issues of the day. Its interdisciplinary approach will promote examination of these issues from the various branches of the applied social sciences and integrate analyses of policy and practice.

Stress

A Brief History

CARY L. COOPER & PHILIP DEWE

University of Lancaster; Birkbeck College

STRESS: A BRIEF HISTORY is a lively and accessible look at the origins of the field of stress research. The book explores different theories and models of stress, examines the contributions of different researchers, identifies common themes and controversies, and culminates in a discussion of what makes a good theory and what obligations stress researchers have to those whose working lives they study.

Journal for the Theory of Social Behaviour

Edited by CHARLES W. SMITH

The **JOURNAL FOR THE THEORY OF SOCIAL BEHAVIOUR** publishes original theoretical and methodological articles that examine the links between social structures and human agency embedded in behavioural practices.

The **JOURNAL** is truly unique in focusing first and foremost on social behaviour, over and above any disciplinary or local framing of such behaviour. In so doing, it embraces a range of theoretical orientations and, by requiring authors to write for a wide audience, the **JOURNAL** is distinctively interdisciplinary and accessible to readers world-wide in the fields of psychology, sociology and philosophy.

Monographs of the Society for Research in Child Development

Edited by WILLIS F. OVERTON

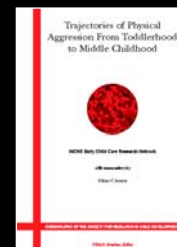

Since 1935 this series has presented in-depth research studies and significant findings in child development and its related disciplines. Each issue consists of a single study or a group of papers on a single theme, accompanied usually by commentary and discussion. Like all *Society for Research in Child Development (SRCD)* publications, the **MONOGRAPHS** enable development specialists from many disciplines to share their data, techniques, research methods, and conclusions. A subscription to the **MONOGRAPHS** series also includes a full subscription (6 issues) to *Child Development*, the flagship journal of the *SRCD*.
