

# JUNIOR DOCTORS

£29.50      2003      1405101970  
 Now in its fifth edition, this book has been highly praised for its readability, conciseness and clear illustrations.

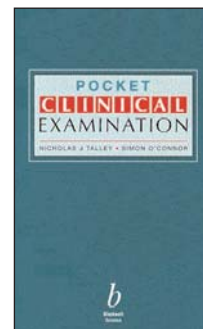

£25.95      1998      0632048328  
 Unlike similar books, covers both medicine (managing occupational disease) and hygiene (prevention of occupational disease and minimisation of risks).

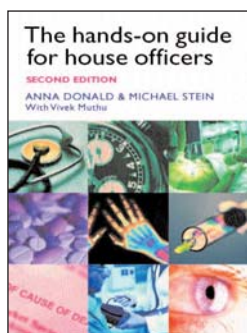

£34.95      2005      1405111925  
 Completely revised and updated to reflect the significant developments in the field.

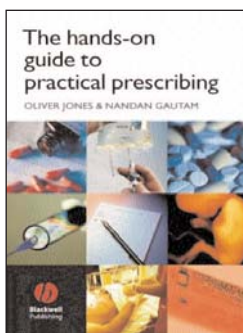

£37.50      2005      1405104392  
 Remains the gold standard for management of adult patients undergoing cardiac surgery.

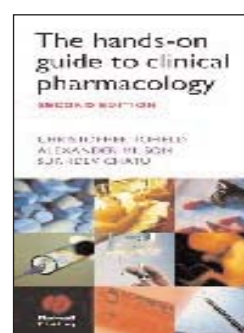

£17.95      1998      0632051523  
 An introduction to history taking and the examination of patients, with step-by-step instructions for the junior medical student working on the ward for the first time.

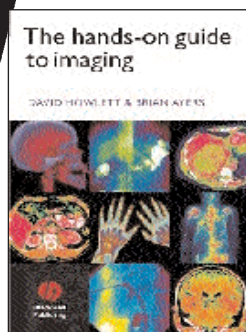

£16.50      2002      0632053313  
 Covers both the personal aspects of being a doctor and the day-to-day reality of responding to acute emergencies, dealing with common calls and carrying out practical procedures.

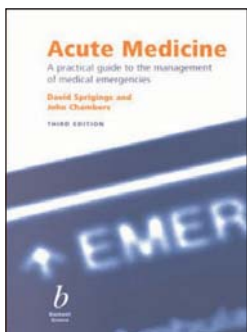

£14.95      2003      1405108223  
 A concise, easy-to-use guide to the practical aspects of pharmacology for junior doctors who are making the transition from studying pharmacology to prescribing drugs for the first time.

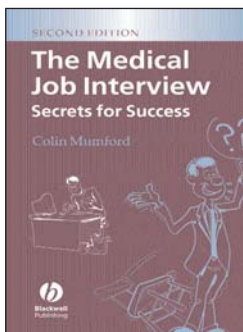

£12.95      2005      1405120150  
 A short practical reference guide for medical students and junior doctors for quick revision and use on the wards.

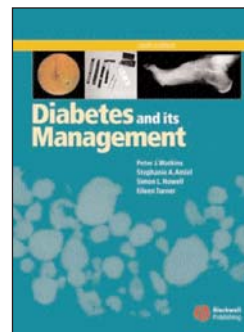

£15.95      2004      1405115513  
 An essential practical guide for junior doctors and medical students making the transition from medical school to life on the wards.

£19.95      2001      0632054557  
 A truly practical guide aimed at the junior physician or casualty officer.

£9.99      2005      1405121858  
 Provides all candidate needs to know for success in a medical interview.

£29.50      2003      1405107251  
 In its 6th edition, it continues to provide a practical clinical guide to the management of patients with diabetes.
